Hi Monica,

I went out to recess today and spoke to all three individually about the forms they filled out. I mentioned to all three of them that these issues should not be happening as they need to be staying away from each other at this time. If what [REDACTED] said to [REDACTED] was something alarming or threatening please have [REDACTED] fill out a form and I will speak with him tomorrow. I am testing students the rest of the day and won't be available. Thank you!

Hey!

Just wanted to give you an update that both [REDACTED] filled out forms yesterday. [REDACTED] mentioned something about saying the N word and nothing about what happened in PE and recess. I had a student slide the forms under your door Elizabeth. I just wanted to make sure you received them.

Today 1-1 reported that the students were separated during recess. However, once they were lining up [REDACTED] went out of his way to say something to [REDACTED]. They are in art right now, so I did not have a chance to talk to either of them or have them fill out a form.

Thanks,

Monica
