Happy New Year to the Board. Below is a link to the IASB session on "Starting Right" that Natalie Williams recommends we complete with her as facilitator at our special session on January 31st.

Good evening Board - On Sunday morning of the IASB conference last month, I attended a session facilitated by our District's IASB rep Natalie Williams. After the session, I discussed with Natalie the current challenges of our Board. We are clearly not working as a cohesive unit. In my nearly 7 years as a Board member, I have never seen a more divided Board as we have had the past 9 months. Natalie recommended the Board participate in a session facilitated by her to discuss how to get the Board working together. Natalie's first availability was Wednesday January 31st. This is 6 weeks away, so I hope everyone can clear their calendars for this important Board session facilitated by IASB.

Regards,

Eric
