Re: Waste Removal/ Recycling Recommendation 2025

I would like to recommend Mumford Sanitation for waste removal and recycling for a second year contract for the 2025-26 season. Mumford's is our current vendor and has provided waste removal and recycling services for us for several years.

Mumford's estimate for services is \$17,443.80 for 2025-26. They have not raised their rate since the 2023-24 school year knowing that we are trying to reduce costs district wide. They are a local based company and support the district with a low-cost alternative waste removal and recycling.

Thank you for your consideration of this request.

Joe McKee
Buildings and Grounds Director
