

MHS School Board Report

January 2026

Attendance

Attendance is hovering around 92% for our students. Our Friday attendance is managing to be at 90% this month.

Our current enrollment is at 96

Issues Within the High School

We continue to develop the secondary AR program. A collaboration between Dr. Taylor, Josh Gifford, and myself have been shifting support and enrolling students in class in order to meet students' needs. This process has been rigorous but rewarding.

We continue to collect data to evaluate the effectiveness of AR and the impact on students. Through student interviews, I believe that each student has had a positive experience. This process continues to develop and evolve into what we believe is best for our students.

Our spring testing is complete and we have had great results! The only activity that is still happening is state music competition.

Celebrations-

Testing is complete!

The successes of our students through the year!

Senior class!!!

Our staff!
