

Elementary Touchpoints  
February Board Meeting, 2021

I Love to Read Month is under way! Thank you to those who've already reached out to read/record a story for our students. We've started our guest reader sessions and they've been well received!

Wednesday, 2/2 was Global School Play Day. Many of our classrooms participated. Play is an important part of the social learning process. Staff and students put technology aside and tapped a more unstructured creative learning experience for a portion of their day. It's always a great day!

Parent/Teacher Conferences are scheduled for this Thursday, 2/11 and the following Tuesday, 2/16. These conferences will be completed virtually and our goal is 100% participation with families.

We are currently revamping our dates for kindergarten registration. We are planning to delay into April with hopes that we can offer a modified in person experience for incoming kindergartners and their families. More details to come as the dates and information is finalized. Dates will be promoted via social media, the Herald Journal, and mailing to our families entered in our census data.

Respectfully submitted—  
Jen Olson
