Re: High School Dugout Bid

As mentioned in my previous memo on this subject, three bids for the Churchill and Stevenson dugout projects were opened on the afternoon of September 12, 2018. Post-bid interviews were conducted over the next two days with the two lowest bidders.

After discussing the results of the interviews, and considering the scope of work, the costs associated, and several other factors, we would like to bring to the Board a recommendation to engage Axiom Construction Services Group, Whitmore Lake, Michigan, to complete the building of softball dugouts at Churchill and updating the baseball dugouts at both Churchill and Stevenson. Axiom is known in the industry for working construction projects in schools around the Metro Detroit area. In fact, Axiom built the dugouts at Clarenceville, Hazel Park, and Walled Lake Western High Schools. We are confident in Axiom's ability to complete the work on schedule and within the District's budget.

Attached are the recommendation letters of Plante Moran CRESA, Owner's Representative, and Foresite Design, the District's designer for the athletic field projects. We will also bring copies to the Committee of the Whole meeting on September 17, 2018. Please contact me with any questions on this matter. Thank you.
