

BOARD OF TRUSTEES

Date: June 22, 2026 Prepared By: J. Clark
Subject: Discuss and Consider Granting Authority to Superintendent or Superintendent's Designee to Negotiate Electric Services

Action

PURPOSE OF RECOMMENDATION:

Millsap ISD's current Electrical provider is TXU. The contract went into effect in June 2022 and expires at the end of May 2027. Millsap ISD desires to lock in the cost of electricity for an extended term in order to provide consistency in budgeting for the near future.

BACKGROUND INFORMATION:

The best time period to secure future electric rates is approximately one year in advance of the current end of contract. MISD's current contract with TXU is set to expire summer of 2027. Proposals for Electricity Supply and Associated Services for Millsap ISD to take advantage of market conditions for June 1, 2027, and beyond, are scheduled to be received on June 23, 2026. So as to achieve the most advantageous rate, the Superintendent or Superintendent's Designee requests the authority to evaluate bids, choose the provider with the best services for MISD, and negotiate a contract for a period not to exceed 96 months.

RECOMMENDATION:

Approve as presented

BOARD ACTION REQUIRED

Proposed Motion: "I move to grant the Millsap ISD Superintendent or Superintendent's Designee the authority to evaluate bids, choose the provider with the best services for MISD, and negotiate a contract.
