

BOARD REPORT 10/12/20

The 2" meter is installed at the middle school. No drop in pressure

Water went out of the canal on the 9th. The only grass we can water is football, baseball, softball, and half the elementary.

Joe Mansidor moved the church on 9/25/20. He is going to cleanup and flatten out the church lot.

The well at the football field produces lots of water, but the sand will not stop coming. I am gathering options on how to filter the sand out.

Dan Aberasturi
