Re: District Fees Update

On an annual basis we provide an update to the Board of Education of the different district fees charged to the public. These fees pertain to school programming, athletics, food service, transportation, enrichment, and facility rental fees.

For the fiscal year 2026-27 we are maintaining our existing fee rates with the following exceptions:

- The Technology department has decreased the laptop replacement charge due to the aging of the laptops.
- The Enrichment department has increased camp fees to support increased staffing and supply costs.
- The Natatorium department has increased some fees to offset staffing costs.

For your review, attached are the fee schedules for the district including the general fee schedule and the facility rental fees schedule. Changes to the facility rental fees include:

- Review and adjustment of user groupings
- Updates to some fees to support increased staffing costs and supply costs
