Elementary Touchpoints

January Board Meeting, 2024

January events include a few partnership experiences between HS and elementary students (Mentor groups, FFA Ag Lit presentation and 4th grade Kindness Retreat, etc), Winsted's rollerskating unit, and seasonal experiences.

We are wrapping up the semester and staff will be connecting with families in early February for the next round of conferences. We will have one evening and a good portion of a school day dedicated to conferences. (Feb 8 and 9). Communication will be going out next week, and we'll also communicate the opportunity for Laker Care if coverage for families is needed.

Mailings will also be going out soon for our upcoming registration for kindergarten eligible students. We are excited to welcome families of the HLWW CLASS OF 2037 at the end of February and early March.

February is I Love to Read month and as a standing invitation, we would welcome guest readers into our classrooms as schedules allow. Each campus will be ramping up activities to promote literacy. PTA is also supporting those efforts with Book Walks, Book Battle and more.

We continue to see a need for student support due to both continued enrollment and newly qualified needs. Our current staffing is still limited in comparison to what is necessary to support and a separate proposal will be provided to the board to address the additional need.

Respectfully submitted—

Jen Olson
