

Board Background Information

Subject: Consider approval of purchase of IXL

Presented for: **Action** X **Report**

HISD teachers and administrators provided input on what online learning and practice platform they would like to have for classroom use. IXL was the program selected that best supports ELAR and math for grades k-12 and science and social studies for grades 4-12. This program is aligned to the TEKS, and IXL Math and IXL ELAR are approved for the HB 1416 Ratio Waiver. In addition, we are able to utilize results from the level up diagnostic and universal screeners to determine the need for early intervention. IXL math is also now eligible for purchase through our SBOE Approved Instructional Materials Entitlement funds.

Recommendation: Approve the purchase of IXL in the amount of \$76,270 utilizing SBOE Entitlement funds and Instructional Materials Allotment funds.
