ATTACHMENT A-4: SCOPE OF WORK

Contractor: Jeung Choo Yoo MD, Inc.

Program: Home Visiting

Contract #: CF24113 A4

Term: 07/01/2023 - 06/30/2027

SOW Details:

CONTRACTOR will provide home visits using the Nurse Family Partnership curriculum (NFP) to eligible, pregnant individuals participating in the program throughout Riverside County.

CONTRACTOR will accept referrals for clients who opt-in to home visiting or individuals who are eligible or apparently eligible for CalWORKs aid and opt-in to the home visiting program within 24 hours of email notification in F5's electronic database. Participants will be contacted within two (2) business days from receipt of HVP referral in F5's electronic database. CONTRACTOR will provide HVP participants with up to one thousand dollars (\$1,000) worth of material goods, depending on an observable need. Material goods can be used for a program participant's household related to care, health, and safety of the child and family. Some examples of appropriate use of material goods may include, but are not limited to child safety kits, car seats, appliance repairs, adaptive equipment for children with disabilities, and resources related to child and family language and literacy needs. Material goods items are not intended to be an incentive for individuals to participate, but rather a response to the specific needs of the participant and their families. Goods purchased cannot be used to supplant materials or services already being provided through Welfare-to-Work (WTW) supportive services, such as diapers and transportation.

Monthly, CONTRACTOR will collect data to track performance as required by First 5 Riverside County and California Department of Social Services (CDSS) to complete State report CA HVP-19 requirements. CONTRACTOR will collect the following types of data in the First 5 Riverside County database system monthly: Home Visiting Program Models: the total number of cases enrolled by model type. Home Visiting Program Caseload: the caseload, which includes parents or caretakers and children receiving services. Home Visiting Program Referrals and Services: referrals made to various services. CONTRACTOR will submit forms requested by First 5 Riverside County and Department of Public Social Services (DPSS) in a timely manner.

Nurse-Family Partnership (NFP) Model:

CONTRACTOR will implement the NFP program and will provide home visits by registered nurses beginning during pregnancy and continuing through the child's second birthday. The Nurse-Family Partnership ('NFP') Program is an evidence-based nurse home visiting program which serves low-income, first-time mothers and their children who face significant short- and long-term risks to their health, personal development, and economic wellbeing.

The NFPx Initiative is a model adaptation of the NFP program that expands eligibility to allow for the enrollment of individuals with previous live births (multiparous people or 'multips') and/or those who are enrolling after the 28th week of pregnancy but before the birth of the child (late registrants). Historically, NFP has been limited to first-time pregnant individuals and those enrolling early in pregnancy, except for cultural adaptations made by NFP's Tribal Partners. NFPx was developed to address a need identified by the network to serve more families affected by economic and racial inequality, particularly those facing barriers to healthcare and wellness resources that can negatively impact health outcomes for themselves and their children. A select few implementing agencies are approved to certify and serve this expanded population. CONTRACTOR will identify NFPx families if participants are deemed not eligible for CalWORKs Home Visiting Program. CONTRACTOR will provide First 5 Riverside County with aggregate data reports submitted to the national service office of NFP. CONTRACTOR will send Model fidelity report to First 5 Riverside County no later than 30 days after report is received by agency.

CONTRACTOR will maintain partnerships to leverage funding from other sources and continue the program beyond the funding cycle and work in partnership with F5RC to explore effective and efficient cost modeling approaches to maximize investments and incentivize performance.

CONTRACTOR will support First 5 Riverside County with piloting projects towards the improvement and expansion of Home Visiting. This may include meetings, collaborative efforts with other agencies, and/or outreach efforts. CONTRACTOR will assist families in applying for CalWORKs when eligible families are identified.

Screenings and assessments: Children will receive initial and follow-up screenings and assessments in alignment with model fidelity. CONTRACTOR will utilize screenings and assessments to complete comprehensive evaluation and designed curriculum for use with children to prepare for school readiness success and conduct care coordination activities to ensure children are linked to and receive services.

CONTRACTOR will enter all performance targets into First 5 Riverside County's electronic database

Performance Targets:

1. **Maintain a caseload of 113** families with the NFP home visiting program. (Core)
2. Document the number of children 0 through 2 years of age at enrollment or whichever age is determined by CDSS served with the NFP home visiting program. (Core)
3. Document the number of **home visits** provided to enrolled families in the NFP home visiting program. (Core)
4. Document the number of parents that successfully **complete** the NFP program. (Core)
5. Document the number of mothers that **exit** the NFP program before 24 months. (Core)
6. Document the number of children who received developmental screenings and assessments **that were below** the nationally defined developmental threshold in the NFP program. (Core)
7. Document the number of children who received developmental screenings and assessments **that meet** the nationally defined developmental threshold in the NFP program. (Core)
8. Document the number of children who received developmental screenings and assessments **who fell below** the nationally defined developmental threshold for age on a **prior screening that have improved to meet or exceed** the nationally defined developmental threshold in the NFP program. (Core)
9. Document the number of parents/caretakers who receive referrals for their children for the first time due to a developmental screening conducted in the NFP program. (Core)
10. **Screen all children using the ASQ: 3.** (Core)
11. **Screen all children using the ASQ: 2 SE** (Core)
12. **Screen all children using ECOHA.** Children should be screened every 6 months. Moderate/high risk should be screened more regularly.
13. **Screen all pregnant caregivers enrolled in NFP using the POHA.**
14. On a quarterly basis, report long-term sustainability, public awareness, and policy change activities in the Performance Narrative (PPR) reports.
15. Other data requested by First 5 Riverside County.
