

BOARD MEETING MEMORANDUM

Board Meeting Date: July 28, 2026

From: Anita Hernandez, Director of Curriculum and Instruction

Re: Field Trip Update

Attachment: Presentation

Agenda Location: Information/Discussion

Rationale:

The purpose of this discussion is to provide the Board of Education with an update on field trips conducted during the 2025–2026 school year and to review the District’s continued implementation of its field trip processes and procedures.

The update will include a review of field trip participation across schools and grade levels, with attention to:

- The number and types of field trips offered
- Equitable access to educational experiences across schools and grade levels
- Alignment with Board Policy 6:190, Extracurricular Activities, and Board Policy 6:240, Field Trips

During the 2025–2026 school year, the District continued to use standardized request, approval, parent authorization, and chaperone procedures. These processes are intended to strengthen communication, support student safety, promote consistent implementation, and ensure that field trips provide meaningful educational value.

The District remains committed to offering enriching learning opportunities beyond the classroom while maintaining equitable student access, responsible use of District resources, and sustainable transportation practices. The presentation will provide the Board with an overview of the year’s field trip activity and identify considerations for continued planning and improvement.

Recommendation/Motion:
