

Curriculum, Instruction and Assessment July, 2026

Professional Learning

- RLA teachers K-5 have been offered 2 days of training with HMH (adopted curriculum) so far this summer to ensure a smooth start to their year. There is another training date in August for those unable to attend the summer dates. They will have access to online support and coaching throughout the school year from the vendor trainers as well.
- We have teams of teachers and administrators from all campuses attending a Solution Tree conference July 19th-21st focused on Accelerated Learning and the shift from remediation (that often leaves students further behind) to accelerated learning to address learning gaps in reading and math. Administrators will collaborate upon their return to identify the strategies they will implement this year to ensure our students reach and exceed grade level proficiency.
- District and campus leadership teams will be participating in legal updates July 27th from our law firm.
- Fueling Brains training for new PreK and Kindergarten teachers will be held in HISD July 28th and 29th to ensure staff are ready for successful implementation.
- Professional Development plans have been made for teachers returning in August.

Curriculum and Instruction/Assessment

- State Assessment Reporting:
 - All state testing for the 2025-26 school year is complete.
 - Spring STAAR EOC complete final results should be available July 14, 2026.
 - Grades 3-8 Spring STAAR complete final results available July 28, 2026.
 - June STAAR EOC complete final results available August 28, 2026.
- A state assessment report will be shared with the board in September.
