

Board Report  
Christine Ketterling  
Federal Programs Director  
September 6, 2017

### **Measures of Academic Progress (MAP) Testing**

Kindergarten through 11<sup>th</sup> grades are currently taking the MAP test. This assessment is given three times a year to help determine student progress and growth. For students that have been in our district since last fall we now have complete reports that demonstrate their knowledge and growth from fall 2016, winter 2016, spring 2017, and fall 2017. This data will help drive our instruction and curriculum discussions moving forward.

### **Federal Programs Director's Conference**

I will be attending the Federal Programs Director's Conference September 14 and 15. The state department will be discussing the state's ESSA plan as well as many of the ESSA programmatic changes.

### **New Teacher Course**

We have five new teachers that will be participating in the New Teacher course this year. We will be focusing on classroom management, instruction strategies, and Danielson's framework. The course will consist of 4 professional development days and intermittent observations following the coaching cycle.
