

MORTON WEST

Student Activities Report

Highlights of the month:

JUNE 2026

Morton West Culinary— The Morton West culinary program is excited to send 2 of our exemplary culinary students to Washington D.C. for the national competition. Angelo Gonzaga and Camila Diaz will both be competing at the national competition under the supervision of culinary teacher Courtney Bay. These two were in the culinary kitchen this past week practicing and refining their skills before the big event. Best of luck to our 2 West Mustangs on their exciting opportunity on the national stage.

Morton West Marching Mustangs: The Morton West Marching Band was working hard over this past week preparing for their July 3rd performance at the City of Berwyn fireworks, hosted at our very own Morton West stadium, as well as for the upcoming marching band season. The students were focusing on improving their individual skills as well as developing their teamwork and collaboration in order to be ready for their upcoming performances.

MORTON WEST

Student Activities Report

Highlights of the month:

JUNE 2026

Mustangs in Service: Several Morton West students volunteered to help welcome the next generation of Mustangs to Morton West, helping guide incoming freshmen and their families around several sessions of the Next Four Years, a comprehensive orientation hosted on several nights throughout the summer. These students welcomed in students and parents, and helped show what a family Morton West truly is.
