Re: Michigan Department of Education Parent Transparency Dashboard

I would like to request the opportunity to share the new Michigan Department of Education Parent Transparency Dashboard with the Board at our next Committee of the Whole meeting. This dashboard gives parents and community members information about how their local schools are performing in relation to state averages and to averages of demographically similar schools. It allows deeper dives into the performance of various groups of students based on gender, race, subject, and services. It also provides additional information regarding advanced courses, assessment participation, and attendance.

Please consider adding this agenda item to the February 5, Curriculum Committee segment of the Board of Education meeting.

Thank you for your consideration of this request.
