Mid-America Technology Center considers all applicants for employment without regard to race, color, religion, gender, national origin, age or disability, or status as a Vietnam-era or special disabled veteran in accordance with federal law. This includes, but is not limited to, admissions, employment, financial aid, and educational services. In addition, Mid-America Technology Center complies with applicable state and local laws prohibiting discrimination in employment in every jurisdiction in which it maintains facilities. Mid-America Technology Center also provides "reasonable accommodations" to qualified individuals with disabilities, in accordance with the Americans with Disabilities Act and applicable state and local laws. Mike Eubank is the coordinator of the Mid-America Technology Center's effort to assure nondiscrimination.

Additional Applicant Information

Memberships, awards, and additional training.

SkillsUSA, CyberPatriot, Night Class Instructor, Mentorship program with Cybersecurity program

Skills, licenses, and/or trade/professional certifications.

Comptia A+, Certificate – Computer Science/Computer Systems Support, TestOut Security Pro, TestOut PC Pro, TestOut Linux Pro, TestOut Hybrid Server Pro

Additional information about yourself that you believe would be helpful in appraising your qualifications for the position for which you are applying:

In addition to my technical background in cybersecurity and systems administration, I bring hands-on teaching experience and a strong commitment to student development. As a current Cybersecurity Instructor night instructor, I teach networking fundamentals, system security, and threat awareness through practical labs and real-world scenarios that prepare students for industry expectations.

My experience as a Senior IT Technician allows me to connect classroom instruction to active enterprise environments, giving students relevant, up-to-date examples of cybersecurity practices. I also support and guide students in competitive cybersecurity events such as SkillsUSA and CyberPatriot, helping them apply their knowledge in high-pressure, team-based environments that build both technical skill and professional confidence.

I am passionate about mentoring students, simplifying complex concepts, and preparing them for certifications, continued education, and entry into the cybersecurity workforce. I also already have my CompTIA A+ certification and am working towards my CompTIA Security+ certification.
