Sealcoating Services

PREPARED FOR Lisa Honaker PHONE 630-909-4905 EMAIL lhoaker@winfield34.org	PROPERTY / BUILDING ADDRESS 0s150 Winfield Rd Winfield, IL 60190 ADDITIONAL LOCATION 0s150 Park Street Winfield IL 60190	ESTIMATE TOTAL \$13,020
---	---	--

Scope of Work

- Power clean asphalt surface with a gas-powered air blower to remove debris and dirt and help ensure proper sealcoating adhesion.
- Apply commercial grade sealer from SealMaster to the asphalt surface.
- **All stripes and handicap markings included**, including signs and all markings.
- **Fill major cracks** as best as possible using pourable Flexmaster crack sealant, a SealMaster product. Major cracks only.
- **Oil stain treatment included:** prime oil spill areas before applying sealer.
- **Apply sealer by hand** using brush application for the best available coverage and protection.

Not sprayed - sprayed-on sealer offers no protection at all.

Recommended Maintenance: Sealcoating is highly recommended once a year to protect asphalt from cracking, wear, oil, gasoline, chemicals, and weather damage. Our professional sealing process helps improve curb appeal and slow future wear at an affordable price.
