Next Meeting: June 23rd

Park: Beaver Lake

Date: 05-19-2026

Report by: Jesse Ritthaler

BLP MANAGER REPORT MAY/2026

Building/Camp Repairs

May/2026 maintenance came out and made repairs to water lines in the lower restrooms that also required a wall to be replaced. They also made repairs to the main line in the campground at lots 1,2,5 and 26.

Pure water well came out and repaired a seal at the well head they also chlorinated the well. Water samples came back good 5/13/2026.

Campground Projects

Weather permitting, I will be getting wood chips filled in around the new playground equipment. We had some drain tile laying around I put it in the hole and trenched it away now water drains.

A seasonal camper offered to snake the drain tile that runs from lot 8 to the shoreline to see if we can get the water that has been collecting to drain off. I will be filling in the low spot to help with this issue.

Equipment

I have spoken to Fitzpatrick's about getting the mower maintained I am waiting for them to let me know when.
