

Conduct Code for Participants in Extracurricular Activities

The Superintendent or designee, using input from coaches and sponsors of extracurricular activities, shall develop a conduct code for all participants in extracurricular activities consistent with Board policy and the rules adopted by any association in which the District maintains a membership.

The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on or off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (3) notify participants that failure to abide by it could result in discipline, up to and including removal from the activity. Participants who violate the conduct code will be allowed to give an explanation before being progressively disciplined. The conduct code shall be reviewed by Building Principals periodically at their discretion and presented to the Board.

Participants in extracurricular activities must abide by the conduct code for the activity and Board Policy 7.190, *Student Behavior*. All coaches and sponsors of co-curricular activities shall annually review the conduct code with participants and provide participants with a copy.

In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Reasonable Suspicion Extracurricular Alcohol and Drug Testing

In order to foster the health, safety, and welfare of its students, the District will conduct alcohol and/or drug testing whenever there is reasonable suspicion that a participant has used or ingested alcohol or drugs. Participation in extracurricular activities is a privilege and participants need to be exemplars.

Each student and his or her parent(s)/guardian(s) must consent to having the student submit to reasonable suspicion alcohol and drug testing in order to participate in any extracurricular activity. Failure to sign the District's *Reasonable Suspicion Alcohol and Drug Testing Consent* form will result in non-participation.

Participants who are found to have committed alcohol and/or drug violations will be subject to the sanctions in the conduct code in addition to discipline in accordance with Board Policy 7.190, *Student Behavior*.

Performance Enhancing Drug Testing of High School Student Athletes

The Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance-enhancing substance on IHSA's banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition.

IHSA administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-

enhancing substances on the IHSA's banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board Policy 7.190, *Student Behavior*.
