Subject: July Board Report

July Board Report

26-27 Preparation:

Vicky and I have been looking at paraprofessional needs in the district. We look at numbers, building needs and what adjustments need to be made to fit the needs of our students.

Professional development planning:

Vicky and I are also planning and working on professional development options for special education teachers and paraprofessionals for the school year.

Jan Armbruster, district nurse, and I have started to plan for staff in-person training at the beginning of the school year in each building.

Building level meetings:

Plans are being made to hold our meetings for students that have severe medical needs. Each building has a handful of meetings that need to occur prior to school starting to review medical information and 504 plans.
