Re: Middle School Report

- We are very pleased to be able to have our 7th and 8th grade students back in-person. This transition went as planned.
- The grading and discipline committees are in place and will begin meeting. These committees will be examining best practices and making recommendations for any possible changes to the middle school grading and discipline practices.
- We have interventions in place and continue to develop new interventions to help those students who are falling behind as a result of distance and hybrid learning. This is in addition to the reading and math interventions that we provide to students who are behind grade level proficiency.

If you have any questions about these activities or anything else please feel free to contact me.
