

Elementary Touchpoints
March Board Meeting, 2021

I Love to Read Month wrapped up last week. With the many different activities to celebrate literacy, students had an opportunity to shine & celebrate in their own way. Thank you to those who offered guest reader sessions. We had live sessions, recorded videos from the beach and sunny spaces...it was a lot of fun!

Parent/Teacher Conferences were conducted Thursday, 2/11 and Tuesday, 2/16. These conferences were completed virtually and our goal is 100% participation with families.

We held a "100 Days In" celebration (consisting of a schoolwide virtual bingo). This was a joint effort of thanks for the hard work and the 100th day of school.

Communication to 2021-22 Kdgn eligible families has been pushed out via mail and social media. Our tentative plan is offer a modified in-person experience for our open house and registration. April 15th and 20th are designated for Humphrey registrations and April 17 is designated for Winsted registration. We look forward to welcoming the Lakers' Class of 2034 to school!

We've made a minor tweak to our recess plans and the change seems to be going well. (A move from classroom zones to grade level zones of play). Students have been receptive and welcomed the opportunity to reconnect with grade level peers more directly (from a difference of course 😊).

Respectfully submitted—
Jen Olson
