

## BOARD OF TRUSTEES

Date: June 22, 2026

Prepared By: D. Latham

Subject: 2026 STAAR and EoC Performance Levels and Longitudinal Analysis

# Information Sheet

### **PURPOSE OF INFORMATION:**

To provide the Millsap ISD Board of Trustees an update regarding STAAR and End of Course (EoC) performance on the Spring 2026 state assessment. Science scores for STAAR 3-8 were not released yet, as of 6/16/2026.

### **BACKGROUND INFORMATION:**

The STAAR/EoC assessments were administered to grades 3-8 and MHS students, in April and May 2026. The longitudinal graphs of our 2026 STAAR/EoC performance show for Approaches/ Meets/ Masters performance-levels compared to our previous test administrations. Although some grade levels maintained and/or improved their performance, we still have some areas that did not meet expectation and plans are being created to address instructional needs that will improve the students' outcomes.

The STAAR Redesign (*STAAR 2.0*) is a result of House Bill (HB) 3906 passed by the 86th Texas Legislature in 2019. The redesign was implemented in the 2022–23 school year. These changes included: new types of test questions, cross-curricular reading passages, evidence-based writing embedded in the Reading-Language Arts (*RLA*) tests, and Online testing (*paper-based only available as an accommodation*). Due to the STAAR redesign, the Texas Education Agency reviewed and validated the STAAR performance standards in 2023. Changes were made for 2024 to the percentile distributions across the performance-level cut-scores.

This report informs MISD Priority 1 – Student Excellence.

### **BOARD ACTION:**

None required. This is provided for Board member information.

How to view the longitudinal data:

As we look at our longitudinal performance, the Gold bar represents Approaches performance, Green is Meets grade-level performance, and Blue is Masters-level performance. Ideally, we want to see these bars trending toward the 90/60/30 targets. An example is seen in the performance levels trends, in the graph below.

Using TEA’s A-F Accountability system methodology for context, if 90% of students score Approaches level, with 60% of those at Meets performance-level, and 30% of those at Master’s level performance, the campus will earn an “A” rating (90/60/30).

While reviewing these longitudinal graphs, please note that our MISD Administration’s target is to strive for 60% of our students to perform at Meets and Above performance-level, at each tested grade.
