

2024-25 Middle School Student Handbook Changes

Add to page 17 Grading Procedures. (This has been in previous handbooks but was inadvertently left out last year as the handbook was completely re-done.)

Passing or failing a full-year class (mathematics, science, language arts, social studies, P.E./health band, and choir) will be determined by four grades (four quarter grades). Passing or failing an exploratory class (art, Ag/Tech, computers and current events) will be determined by the end of the quarter grade. A student must receive passing grades in ALL core classes (mathematics, science, language arts, social studies, health/PE, and reading 5/6) to be considered for promotion to the next grade level.

Students who receive an Incomplete (I) at the end of a quarter will have two weeks to change their grade or the grade will automatically turn to an F.

Students who fail classes will be expected to make up the work as expected by the teacher to reach a passing grade. Students may receive an MO (minimal outcome) for a class once the work is completed. Students who fail a course at the end of a quarter will be required to attend ESD to complete their Minimum Outcome (MO) work. Students will be dismissed from ESD when the grade level team determines that the student can succeed without the support of ESD. Students who do not complete the M.O. work during the school year will be required to attend summer school.

For students who are expected to repeat an entire grade level, a parent, teacher, counselor, and principal meeting will be held to make that determination.

This is highlighted in yellow in the [2024-25 Middle School Student Handbook](#)
