RE: Pathways Academy Recognition

The Area Executive Directors would like to recognize the participants of the Pathways Academy at the March 23 Board meeting.

The Pathways Academy, led by our Area Executive Directors in collaboration with Curriculum & Instruction Directors, is a leadership development program designed for educators who hold a master's degree and aspire to serve in an administrative role. The program equips prospective leaders with a comprehensive overview of the principalship and the essential competencies required for campus leadership.

Participants were selected through a rigorous application process that included submission of a professional résumé, written responses to short essay questions evaluated with a district-developed rubric, and a favorable recommendation from their campus principal. Throughout the academy, participants engaged in focused learning experiences centered on Strong Leadership and Planning, Strategic Staffing, Positive School Culture, High-Quality Instruction, and Observation and Feedback. Each participant also completed a mock interview and received immediate, targeted feedback to support their continued growth.

We are proud of their commitment to leadership development and look forward to the meaningful impact they will continue to make on their campuses and across our district.
