

Consider approval of a revision to board policy FDA (LOCAL).

1. Background:

Board policy FDA (LOCAL) governs the admission of students into the district. Currently, our FDA (LOCAL) policy allows for admissions of students who live within the boundaries of the district, those who are district employees, students who have active duty service members, and those whose parents are in law enforcement. In addition, we allow all students to be eligible to apply for CAST STEM high school through an application process, and we have allowed for siblings to remain in the district if their other siblings are in good standing at one of our schools.

2. Process:

Based on information provided to senior leadership and campuses for enrollment and transfers. The district would want more flexibility to accept Interdistrict transfer students at campuses where there is room in both the facilities and with resources, including staffing and program needs. The first read was listed on Items of Information on April 21, 2026.

3. Fiscal Impact:

None

4. Recommendation:

That the Board approve the proposed change to FDA (LOCAL).

5. Required:

Board action.
