Re: Barton Summer Reading Sessions

I would like to request that the Tupelo Public School District offer an extension of the Barton Reading Program during the months of June and July. The program will be available to current & identified Barton students in the Tupelo Public School District. Students will attend 4 hours per week of Barton Instruction for 4 weeks. District personnel certified in the Barton program will deliver the sessions to students. Funds for compensation of instructors will come from the summer curriculum work budget.
