

Consideration to Authorize the Administration to Sell and/or Dispose of Surplus Furniture and Equipment

The District will soon have surplus furniture and equipment with the closure of Cater, the furniture refresh at Temple High School and the construction of the new Operations Center. The items are no longer necessary for the operation of the District. Therefore, the administration recommends that the District sell and/or dispose of any excess items.

Items available for sale or disposal include classroom furniture, miscellaneous equipment, and retired vehicles with no useful life remaining.

If authorized, the administration will organize an online auction and attempt to sell the furniture and equipment. The administration would prefer to offer any items that remain after the auction to area non-profit organizations prior to discarding them.

Recommendation: To authorize the administration to sell or dispose of surplus furniture and equipment.
