

Centennial Elementary School

Teacher Student Success Act

Goals, Plan & Budget 2025-2026

The mission of Centennial Elementary School is that we are always, “Ensuring high levels of learning for all students and adults.” We are working to ensure these high levels of learning in all areas of a student’s education. This includes both their social and emotional growth and capacity along with their academic success.

Our school goals for the coming year focus on these two areas. We will be using our TSSA resources together with other school resources in order to accomplish these goals.

Our plan to reach these goals for our students include the following strategies:

- #1: We will continue to develop and improve our use of class specific and school wide wellness areas. We will commit the resources necessary for teachers to create and train on the use of these areas.
- #2: Provide the resources, activities and supports necessary to support staff wellness.
- #3: Provide support to teachers with student behavior needs through the use of a behavior/student success aide.

Budget
Allocation = \$69,273
