Re: 2013-14 Tuition Rate

Board policy states that tuition rates for non-resident students will be based on the per capita operating cost of the school district. The per capita operating cost is a state defined formula that utilizes the most recent financial information on file with the state.

As you know, Livonia Public Schools generally does not allow students from outside the District on a tuition basis. However, the Board policy does allow for some exceptions that occur on a rare basis. One example may be for a student in their senior year that wants to finish school in Livonia, but their residence has changed. Our discussion on this topic is only to establish a tuition rate, and does not change any of our practices regarding out of District students.

Please include this item on the August 19, 2013 Finance Committee meeting agenda. The proposed rate calculated for 2013-14 is \$9,371.00. As always, please let me know if you have any questions.
