SCHOOL DISTRICT 131

# High School Math: Curricular Materials Recommendation

March 16, 2026

**Dr. Teresa Vemmer**

Director for Curriculum & Instruction

**Dr. Ami Engel**

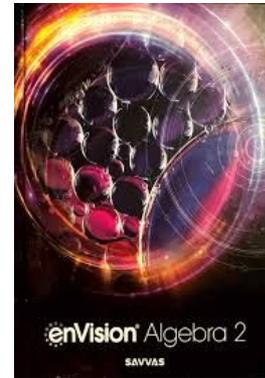

Associate Superintendent for Curriculum, Instruction, & Assessment

# High School Math Pilot Requirements

- Aligned with the Illinois State Standards
- Aligned the College Board Pre-AP framework
- Provided differentiated materials
- Bilingual resources

# Curricular Material Piloted

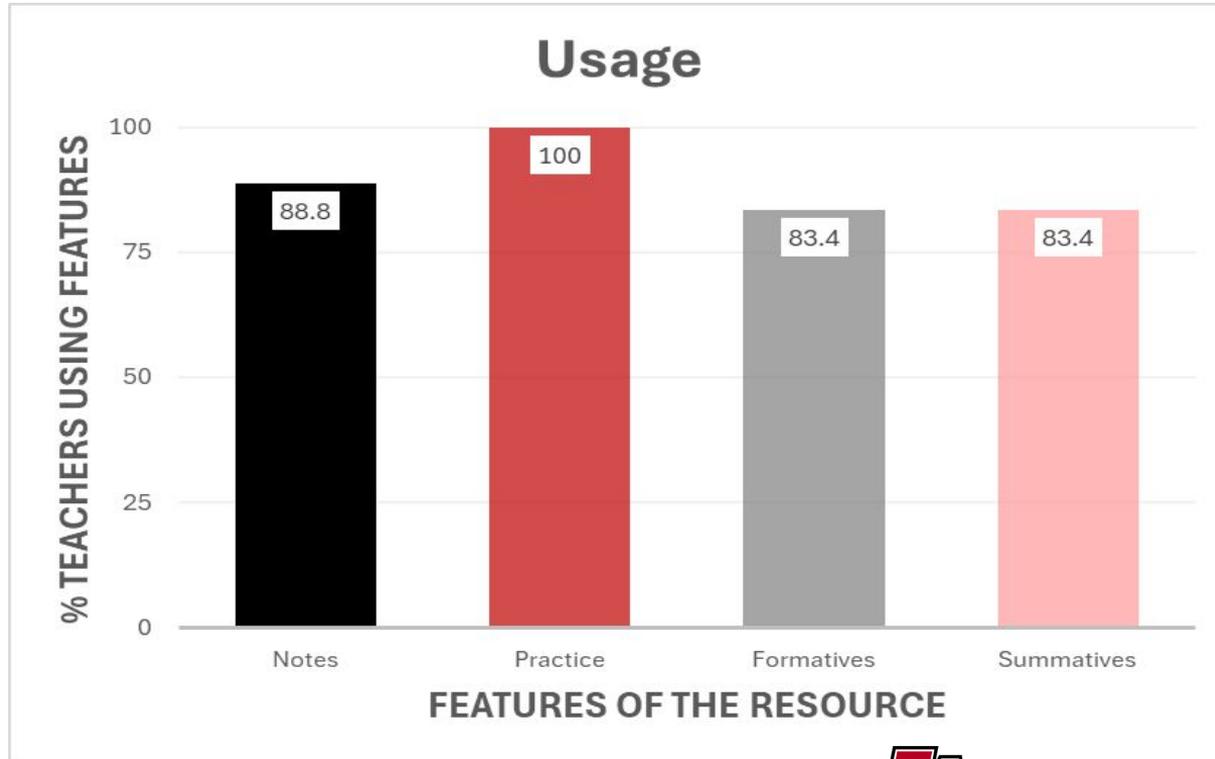

## Savvas enVision Algebra, Geometry, and Algebra 2 (English and Spanish versions)

# High School Math - AGA Pilot

- All 29 Algebra, Geometry, and Algebra 2 EAHS Teachers (General Education/Bilingual/Special Education) piloted the materials
- 5 Middle School Teachers + 1 Extension Teacher
- Training and differentiated professional development opportunities during PLC and Zero Hour
- Followed current scope & sequence

# Teacher Feedback

# Teacher Voice

Rather than just drilling, enVision emphasizes real-world problem solving and thinking, helping students understand why math works — a big plus!

I love that their homework grades feed in from envision to Google to Synergy - it really does empower students and shows them that they make their grade.

It's nice having access to differentiated resources - it has reteaching, extra practice, and mathematical literacy activities that are useful.

Having a digital platform where we have not only have notes and assessments but adaptive practice opportunities for students is great.

Finally, vertical alignment is possible between the three levels of courses!

# Student Voice

## What is one thing you liked about the EnVision materials?

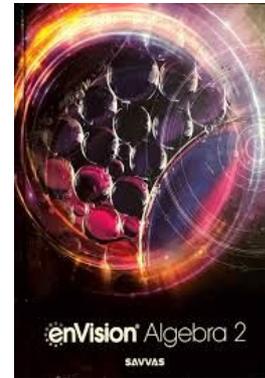

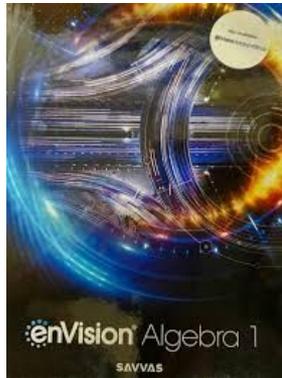

Notes are good, they are clean, and great for when someone's not at class since the notes provide the way to solve an equation without needing the teacher.

I like how detailed the notes are which makes it easy for me. They're really easy to understand. It is also really well-organized.

I like it because it's easy to understand. It has enough examples to learn from."

# Recommended Materials for Adoption

## Savvas enVision Algebra, Geometry, and Algebra 2 (English and Spanish versions)

# Purchase Proposal

<b>Courses: Algebra (MS/HS), Geometry, Algebra 2 Languages: English &amp; Spanish</b>	<b>Total Projected Cost</b>
<b>Teacher's Edition</b>	<b>\$348,657.60 (6 years, covers HS, 4 MS, and Extension Center)</b>
<b>Student's Edition Classroom Set (30) of Hard Copy</b>	
<b>Professional Development</b>	

Annual cost = \$58,109.60
