Termination of NMSAA

This report outlines the recent dissolution of the Northern Middle School Athletic Association and the resulting challenges facing our middle school athletic programs. The withdrawal of all 1B schools and the formation of a separate conference has created immediate and long-term concerns regarding scheduling, equity, and program sustainability.

1B schools in our surrounding area have established their own independent conference and we are not included. As a result, we no longer have access to their established master schedules, divisional tourneys, or coordinated league.

This change significantly affects our volleyball and basketball programs. Traditionally, our middle school operates with 2 teams per grade level, allowing for broader student participation and development. In contrast, the newly formed 1B conference structures participation with only two teams per entire middle school.

This discrepancy creates a major scheduling imbalance. When games are scheduled against 1B schools, those contests will only accommodate one of our teams per grade level. Consequently, one team will have the opportunity to compete while the other will be left without a scheduled game. This leads to inconsistent participation and potential inequities between teams.

In response to these challenges, efforts are underway to contact as many middle schools as possible to explore alternative scheduling opportunities for the upcoming year. The goal is to build a functional schedule that maximizes participation for all student athletes while maintaining program integrity.

Solution 1

Games: We do a random schedule for each team per grade and hope for the best regarding travel, competition, and availability.

Practice: Practice will remain the same as we do it now with A & B teams per grade and practicing together. 3 time slots for 3 grades- 6th,7th,8th.

Coaches: 6 coaches all together, 2 per grade.

This year will be a trial run as we work our sports and events without a conference. If this does

not workout, we will make adjustments to start inner city play.

In the meantime of SY 26-27, we aligned our sports to be able to play our old rivals in the 1B. Girls basketball will be at the same time as boys basketball which will make for crowded gym space.

High School Athletics

All sports ended.

Off Season is finishing and Fall Sports are right around the corner. The first day of practice is August 13th for Golf and August 14 for all other sports.

Student Activities

Eekahkimaht:

Eekahkimaht is actively working to establish intramural programs and collaborate with coaches to develop structured 1 day leagues for each sport offered within Browning Schools. Rather than hosting open gyms, the focus will be on fundamental development and skill progression.

We will start with an open gym to see where the numbers are at for the program and announce when we will start doing intramurals.

Weightroom time will be established to work on the various sports specific types of training such as absorption training, velocity training, plyometric training, weight training and more.

Our Goal is to create intentional training opportunities that strengthen core fundamentals, provide all students with meaningful experiences, and directly support the long term success of our sports programs. If we can get 80-90% of our athletes utilizing the weight room and facilities, we will build a confident, athletic, and extremely scary moving force to all our competitors when they face the Browning Indians.

We collaborated with Joey Potter Missions and Fellowship of Christian Athletics to have a Football camp and an All Sport camp. They have brought in ex NFL linebacker Dannell Ellerbe who is a 2 time Superbowl Champion to help coach the camps. This camp also brought in other numerous coaches while also making it free to our youth with breakfast and lunch provided.

New Flyers attached.
