This includes but is not limited to data and communications regarding students, parents/guardians, law enforcement personnel, social service agencies, in regular and special education settings are all subject to these rules and regulations. Violations of this provision may result in disciplinary action by the School District. Questions regarding this topic should be forwarded to the Administration for clarification if necessary.

COMMUNICATION

Communication is a key to success. Here are some of the expectations for communication:

Email:

Set up your email account to have an automatic signature with your name, title, and work hours. Set up a “vacation responder” if you are out so anyone who emails you will be automatically notified of your absence.
Check your email often; at a minimum first thing in the morning, midafternoon, and about 2:15 in case there is something urgent regarding a student(s).
Make sure to respond to emails within 24 hours or a reasonable amount of time. If you don’t have an answer for a question, at least respond that you are checking into it and give them an expected response time.

Calendars:

There is a shared district Google calendar. Please keep it updated with your class events such as trips where you’ll be taking students out of the building or for events that you are an advisor for (plays, pep rallies, class meetings, etc.) to help all be informed. This will help the AD in sport event planning, the custodians and cook, Office Staff with the daily announcements, and accidental overlapping of events. If you are not able to see the district calendar or have any questions, please make sure to ask.

Phone:

Set up your voicemail for all of the various responses (busy signal, after hours, no answer, etc.)
Check for messages often; at a minimum of first thing in the morning, midafternoon, and about 2:15 in case there is something urgent regarding a student(s).
Make sure to respond to phone calls within a reasonable amount of time, meaning the same day or first thing the next day. If it is something you don’t have an answer to and there will be a delay, make sure to call back or have administration call back to give them an expected response time.

Conversations with students and the public:

It is crucial to be professional when communicating with students, the public, and fellow staff members. Talking to students about being unhappy with another staff member or with your employment is an example of unprofessionalism and is grounds for dismissal. We are a team. If you have a problem, talk to the individual directly or pull in administration to help resolve the issue. Direct communication often resolves misunderstandings.

Facebook, Twitter, Website, etc.: (see “Social Media” section for more information)

We have an established website and Facebook account for the district. Do not create another school district account without administrative approval. You may create a teacher account however make sure it is professional.

Please make sure that your personal Facebook account is professional and/or that the privacy is such that Floodwood students cannot view it. “Friending” students on your personal account is not recommended.

Positive Promotions:

We are all responsible for promoting the Floodwood School District. If you have things you would like to celebrate or highlight, you are encouraged to share on Thrillshare to the district website, Facebook account and Instagram.

DAILY ANNOUNCEMENTS/BULLETIN

Daily announcements will be made at the beginning of each day shortly after the beginning of the first hour. The daily bulletin will be posted to the district website. All notices to be announced and/or printed in the daily bulletin MUST be submitted via email to the office by 8:00 AM in writing at office@isd698.org. Please email exactly what you would like announced and added to the bulletin.

This source of information shall be considered the primary and most direct/accurate source of communication from the school District for school closing information. It is the employee’s responsibility to maintain accurate contact information to ensure that you are contacted via this system. In addition to the Campus System the school District will continue to use regular regional media sources for emergency school announcements. Please see below for that information.

RESTRICTIVE PROCEDURES

The Floodwood School District promotes the use of positive approaches for behavioral interventions for all students. When restrictive procedures are employed in an emergency situation with any student, the School District will adhere to the standards and requirements of Minnesota Statutes 125A.094 and 125A.0942 with respect to Restrictive Procedures for Children with Disabilities.

A. Definitions

The following terms have the meanings given them.

1. **"Emergency"** means a situation where immediate intervention is needed to protect a child or other individual from physical injury. Emergency does not mean circumstances such as: a child who does not respond to a task or request and instead places his or her head on a desk or hides under a desk or table; a child who does not respond to a staff person's request unless failing to respond would result in physical injury to the child or other individual; or an emergency incident has already occurred and no threat of physical injury currently exists. Minn. Stat. 125A.0941 (b)
2. **"Physical holding"** means physical intervention intended to hold a child immobile or limit a child's movement and where body contact is the only source of physical restraint, and where immobilization is used to effectively gain control of a child in order to protect a child or other individual from physical injury. Minn. Stat. 125A.0941(c). The term "physical holding" does not mean physical contact that:
 - (a) Helps a child respond or complete a task;
 - (b) Assists a child without restricting the child's movement
 - (c) Is needed to administer an authorized health-related service or procedure; or
 - (d) Is needed to physically escort a child when the child does not resist or the child's resistance is minimal.
3. **"Positive behavioral interventions and supports"** means interventions and strategies to improve the school environment and teach children the skills to behave appropriately. Minn. Stat. 125A.0941(d)
4. **"Restrictive procedures"** means the use of physical holding or seclusion in an emergency. Restrictive procedures must not be used to punish or otherwise discipline a child. Minn. Stat. 125A.0941(f)
5. **"Seclusion"** means confining a child in a room from which egress is barred. Egress may be barred by an adult locking or closing the door in the room or preventing the child from leaving the room. Minn. Stat. 125A.0941(g) (Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.)
6. **"CPI Team Control Position"** is a physical hold that is used to manage students who have become dangerous to themselves or others. Two staff hold the individual and additional members assess the student for signs of distress and take other safety measures as necessary.
7. **"CPI Children's Control Position"** is a physical hold that is designed to be used with a student that is a head size or smaller than the adult. Additional members need to be present to assist the adult, monitor safety of the student and take other safety precautions as necessary.
8. **"CPI Transport Position"** is a physical hold that is an upright position that is used when the student is calm and needs to be moved to a safer place. Two staff assist with this position, one on either side of the student, with additional staff as needed.
9. **"CPI Interim Control Position"** is a physical hold that is a temporary, upright position that allows staff to maintain control of both of the individual's arms for a short period of time. One staff is needed for this position; however, additional staff are necessary to monitor the student and assist with any other safety precautions.
10. **"Outcome of A Personal Safety Technique"** is a physical hold used when a student engages in a grab with peers/staff and the adult needs to immobilize a part of the student's body to minimize damage to the student, peers and/or school staff.

The District will monitor and review the use of restrictive procedures, including conducting post-use debriefings and convening an oversight committee.

The use of restrictive procedures in behavioral intervention plans will be documented in the learner's file. Reviews will be conducted in accordance with the plan. In the case of a student with a disability, due process and documentation requirements will be followed. Record retention will be in accordance with administrative policies on student records.

F. Emergency Situations – Use of Restrictive Procedures

The Floodwood School District shall make reasonable efforts to notify the parent/guardian on the same day by phone when restrictive procedures are used in an emergency. If the school is unable to provide same-day notice, notice will be sent by written or electronic means or as otherwise indicated by the parent.

District administration will receive written notification when restrictive procedures are used in emergency situations. Records will be reviewed quarterly.

PROTOCOL FOR USING PHYSICAL HOLDING

Physical holding should only be used in an emergency. Notify parents the same day a restrictive intervention is used. Provide written or electronic notice within two days if unable to notify parents the same day. Staff must directly monitor the student to ensure that the student is safe. End the intervention when the threat of harm ends and staff determine if the student can safely return to his/her routine activities, education setting, intervention, and/or site determined by the team, Positive Behavior Intervention and Support Plan (PBISP) and/or administrator.

Complete the **Critical Incident Form for Restrictive Procedures** (Appendix A-1 page) (see administration for a copy). Document the date, type of intervention, starting and ending time, and the location of the incident. If a physical hold is used, document the type of hold used. These following physical holds are the only ones adopted by the Floodwood School District #698: CPI Children's Control Position, CPI Team Control Position, CPI Transport Position, and CPI Interim Transport Position. Summarize the student's behavioral and physical status during the intervention. Record names of staff present and involved in the intervention. Record the removal of shoes, belt and contents of pockets. Provide an explanation if scheduled meals are delayed. Record the date and time of parent notification as well as who made the contact, and a brief summary of parent comments. Record if law enforcement was contacted regarding the incident, who called, and the outcome of the call.

Complete the **Critical Incident Form for Restrictive Procedures – Staff Debrief** (Appendix B-2 pages) (see administration for a copy). Document the attendees, date and time of debriefing. Note the person who is facilitating the debriefing and if the student is on an IEP and/or has a PBISP. Completely describe the incident, answering all the questions included on the form. Describe specific actions that both helped the situation and did not help the situation. Describe the procedure used to return the child to his/her routine activities. Note if the behavior is likely to occur again. Note if the PBISP was followed, and if not, what circumstances prevented it. Describe the action plan to assist the prevention of future incidents. Note if restrictive procedures have been used on two separate school days within the last 30 calendar days. If yes, note if an IEP meeting has been scheduled within 10 calendar days.

Provide a copy of the Critical Incident Forms (Appendix A and B) (see Administration for a copy) to the Special Education Director and the building Administration. and also place a copy in the student's special education file. The Director of Special Education, building Administrator, Special Education Coordinator, School Psychologist and

as appropriate, ASD Consultant, special education teacher, school mental health provider, will serve as the district oversight committee and will review all restrictive procedures quarterly.

If a restrictive intervention is used on two separate school days within 30 calendar days or when a pattern of behavior emerges, the district must hold a team meeting within 10 calendar days after the use of restrictive procedures. In the case of a nondisabled student, the team should develop an intervention plan. In the case of a student with a disability, the district must hold an IEP or 504 team meeting, conduct or review a functional behavioral analysis (FBA), review data, consider developing additional procedures, and modify the IEP, PBISP, or 504 plan. The district may use restrictive procedures in emergencies until the team meets, provided the emergency measures are deemed necessary by the district to protect the individual pupil or others from harm.

Before incorporating physical holding into the IEP or PBISP, the IEP team should ensure that an FBA has been completed. The team should use the FBA information along with the present levels of performance, needs, goals, and objectives to develop a PBISP.

- (a) Include positive behavior supports, de-escalation procedures, instruction in appropriate behavior, and other preventative measures in the PBISP.
- (b) Document which restrictive procedure is being included and why it is the least restrictive effective intervention. The PBISP must identify the frequency and severity of target behaviors for which the regulated intervention is being considered; and anticipated criteria for returning the pupil to the routine activities and regular education environment if the intervention is used.
- (c) Document that the physical health and psychological assessments determined that seclusion is not contraindicated because of psychological or physical health reasons. The licensed school nurse can conduct the physical health assessment or review and the mental health facilitator can conduct the psychological assessment or review, restrictive procedure is used.
- (d) Document how the parent wants to be notified when a restrictive procedure is used.

Schools that intend to use restrictive procedures are required to maintain and make publicly accessible a restrictive procedures plan for children.

Restrictive procedures may be used only in response to behavior that constitutes an emergency, even if written into a child's individual education plan (IEP) or positive behavior intervention support plan (PBISP).

Floodwood School shall take all practical steps to safeguard employees and students from accidents and to maintain an effective safety program. All district employees are responsible to help maintain a safe environment.

The Floodwood School has a Facilities Committee that meets periodically with Safety as an item of discussion. Safety concerns should be brought to the attention of Administration to be reviewed at the committee meeting.

SECURITY SYSTEM

The building has a security system that can monitor the activities of any and all persons in the building. Please be aware of this, as the actions on tape may be your own. It is not our intent to monitor the activities of all persons; only those who are causing problems.

SOCIAL MEDIA

This policy provides guidance for employee use of social media, which should be broadly understood for purposes of this policy to include Facebook, twitter, blogs, message boards, chat rooms, electronic newsletters, online forums, Facebook and any other social networking sites, and other sites and services that permit users to share information with others in a contemporaneous manner.

The following principles apply to professional use of social media on behalf of Floodwood School as well as personal use of social media when referencing Floodwood School:

- Employees need to know and adhere to the district's Code of Conduct and other district policies when using social media in reference to Floodwood School.
- Employees should be aware of the effect their actions may have on their image, as well as the Floodwood School's image. The information that employees post or publish may be public information for a long time.
- Employees should be aware that Floodwood School may observe content and information made available by employees through social media. Employees should use their best judgment in posting material that is neither inappropriate nor harmful to Floodwood School, its employees, or students.
- Although not an exclusive list, some specific examples of prohibited social media conduct include posting commentary, content, or images that are defamatory, pornographic, proprietary, harassing, libelous, or that can create a hostile work environment.
- Employees are not to publish, post or release any information that is considered confidential or not public. If there are questions about what is considered confidential, employees should check with the administration.
- Social media networks, blogs and other types of online content sometimes generate press and media attention or legal questions. Employees should refer these inquiries to administration.

- It is highly recommended that employees keep school related social media accounts separate from personal accounts.

SOLICITATION IN THE SCHOOL

Any solicitation in the school of faculty or students requires administrative approval in advance.

STAFF DRESS

Staff should wear attire that is clean and appropriate.

****Staff and students of Floodwood School District will wear face covering when in the building, if it is voted into place by the Floodwood School Board to keep students and staff safe. That may include a face mask. Face masks and shields will be provided, along with instructions on proper use and cleaning.**

STAFF INJURY

Any staff member injured while on duty should contact the office immediately. Be sure to complete an Accident Report Form; they are in the office. This report must be filled out within 24 hours of suffering the injury and turned in to the office.

STUDENT ACCIDENT REPORTING

Recent trends in legal cases make it a virtual necessity that all student injuries and accidents be promptly reported. Fill out an accident report and turn it in to Administration on the day the injury occurred.

TECHNOLOGY USE

The technology equipment is intended for the purpose of educating students and assisting the staff to that end. It is not intended for your personal pleasure. We expect that each employee will abide by the policies established by the school board related to personal use of school equipment as outlined in the Technology Plan. Remember that this equipment is owned by the District and can be monitored by the personnel of the District at any time. The use of this equipment and its contents are not protected by data privacy. Staff will be required to sign an Appropriate Use Policy Agreement form at the beginning of each school year.

TELEPHONE USE

Each classroom and instructional space has a telephone for your use as an employee of the district. Please limit the use of telephones for personal use as we have only limited lines into the building. Personal faxes sent or received on the school fax machine will be charged at a \$.50 per page rate. The telephones also have voice mail capabilities so you can receive messages when you are not available to answer calls. Remember that the use of voice mail and telephones can be monitored by District personnel and is not protected by the same level of privacy as is the US Mail.

Students will be called from class to answer phone calls only in the case of an emergency. If staff members allow students to use the telephone in their rooms, they are to monitor the calls.

TIME OFF - FRONT LOAD PROCEDURES

All employee time off (Personal time, sick time, vacation time) will be front loaded and available at the start of each contract year. In the event an employee ends their employment mid year, time off will be prorated based on hours worked. If more time off has been utilized than earned, the employee will be responsible for repayment of time off from their last paycheck.

TIMECARDS

All non exempt employees are required to track hours worked by clocking in and out, ~~utilizing the timecard system that is located in the office work room.~~ Non exempt staff will submit a biweekly timecard utilizing the punch clock system to the business office to calculate payroll. If a punch is missed, employees need to contact administration to confirm time of arrival or departure and allow a manual entry of hours on a timecard. Employees are prohibited from punching other employees in or out. If a punch is missed, employees need to contact administration to confirm time of arrival or departure and allow a manual entry of hours on a timecard.

TOBACCO FREE

We are a Tobacco Free school. There is to be no use or possession of tobacco products in any part of the building or on school grounds at any time. This includes the e-cigarette and tobacco or nicotine pouches.

VOLUNTEERS

Often coaches/advisors use volunteers in their program. Any volunteers that work with students must have a background check **prior to** working with students. The school district will pay for these background checks for volunteers. In order to monitor the number of volunteers and who is volunteering, all volunteers **must** be approved by the Administration for school activities or the Community Education Director for Community Education activities. The responsibility falls on the coaches/advisors to ensure this approval has been granted from the respective school administrator.

CERTIFIED STAFF

ARRIVAL AND DEPARTURE OF FACULTY/WORKDAY

The basic school day for teachers shall be from 8:00 a.m. to 3:30 p.m or 7:45 to 3:15, but may be asked to adjust if a meeting is needed.

In the event of after school programs such as parent-teacher conferences, open houses, winter concert, academic ceremony if held in the evening or other programs and activities which all teachers are required to attend, teachers will receive compensatory time equal to the amount of time they are in actual participation in the program. The compensatory time will be granted to all teachers in a block of time. Parent Teacher Conference time will be given in a "Conference Comp Day" on the district calendar.

AUDIOVISUAL AND MULTIMEDIA

When films/VCR tapes/DVDs/CD ROMs/streaming are used in the classroom, they should be used for an educational experience. If you have not viewed the films/tapes before, please preview them. If the content is questionable, it is recommended that the teacher send a parent permission slip home prior to showing the film/DVD/tape/streamed content.

CELL PHONES/PERSONAL DEVICES

Staff who need to use their cell phone for personal business during work hours are expected to do this during their prep time, break time, or lunch break. While teaching/supervising students it is expected that staff cell phones are out of sight.

Cell phone expectations for students are as follows:

The only time personal tech devices may be used is before school, during lunch, in between class periods, and after school. There will be no use of cell phones or cameras inside the locker rooms or bathrooms. ~~Personal electronic communication devices may include cell phones, wearable devices such as smart watches, personal headphones, earbuds or pods, laptops, tablets, virtual reality devices, and other personal electronic communication devices with the abovementioned characteristics.~~ Each student (~~K~~ 1-12th grade) has ~~access to shared a-l-l~~ devices. They will be able to complete class assignments on this device. The school office takes parent/guardian calls and passes on the message to students.

Consequences for hearing/seeing personal tech devices in the classroom:

- 1st offense: Phone will be taken to the office for remainder of the school day
- 2nd Offense: A parent/guardian will be called to come in and pick up the phone
- 3rd offense: the student will not be allowed to bring the cell phone or device into the building for a period of time as determined by the principal.

Failure to give up a phone to a staff member will result in further disciplinary measures. This policy could become more restrictive at any time if the administration and Floodwood board of education deem it necessary for the successful conducting of the educational process.

Staff are expected to hold students accountable. If cell phone use is allowed in the classroom a meeting with administration may occur.

CLASS ACTIVITIES

All class or organizational activities must be supervised by the advisor(s). Class advisors are responsible for class meetings, class activities and class funds. Meetings, practice, planning, etc., of all activities must take place during the noon hour or after school unless other arrangements are made with Administration. Post activities on the district Google calendar and hall TV to help keep all informed.

Students are not to be excused from curricular classes for extra-curricular activities except in rare instances and then only with clearance from Administration.

No school activities, practices, or meetings are to be scheduled after 6:00 PM on Wednesday evenings.

EVALUATIONS

Each faculty member will be evaluated once a year. New staff will be formally evaluated three times a year.

FACULTY MEETINGS

There will be Faculty meetings as needed either at 7:45 am or 3:05 pm when school is in session. All teachers are to be present at these meetings unless excused by the administration. If excused, it is the teacher's responsibility to find out what information was covered.

FIELD TRIP RULES (to also include athletic trips other than normal athletic event trips – example: overnight playoff competitions)

Field trips provide additional learning experiences for students beyond the confines of the classroom. To make a field trip meaningful, the responsibilities of planning, preparation and follow-up are to be assumed by the individual teacher/coach.

Field trips will be limited to those trips that have administrative approval. The "end of year" elementary field trips will remain in effect; this includes the sixth grade trip to the Capitol. Any other trips other than the elementary level "traditional end of year trips" will not be allowed unless approved by the school Administration. *Any trips that would be approved other than those stated here would require that they be completely funded by some means other than School District general funds.

All field trips must comply with the following:

- All field trips shall have **prior** approval with a trip itinerary on file **prior** to formal approval. (The itinerary shall include departure and return times and all scheduled activities for the trip – usually included on district van or bus request.)
- Post all trips on the district Google calendar to help keep all informed.
- All students shall have parent permission slips on file prior to the event. Slips sent home should specify where the group will be going, the date of the trip, and the return time.
- **NO STUDENT WILL BE ALLOWED TO GO WITHOUT PARENT PERMISSION.** Parent permission forms are available on the district website
- All students shall have teacher/administrative approval to attend.
- Students shall not be allowed to separate into "groups" without supervision except as part of planned activities.

OVERNIGHT FIELD TRIPS

In addition to the above rules, the following shall apply if the trip includes any overnight stays:

- When timelines allow, overnight field trips shall have permission from the school board.
- Overnight field trips shall have chaperones approved by the administration. (See background checks also.)
- In the event both boys and girls are on an overnight trip, both male and female chaperones shall accompany the students.
- Chaperones shall conduct room checks and/or attendance checks on a regular basis.

FUNDRAISERS

All employees intending to hold a fundraiser must obtain approval from Administration prior to scheduling any fundraisers. No fundraising project will be allowed unless it receives this approval. Participation in a non-approved activity shall be considered a violation of school district policy. Any activity that involves soliciting from local merchants must have prior approval from Administration.

Sale of merchandise by school groups in competition with local merchants shall be kept at a minimum. Each group, organization, sports activity, and class will be allowed a limited number of fundraisers per year.

GRADUATION

Students must have met all graduation requirements in order to participate in the graduation ceremony. In special circumstances, Administration may allow a student to participate in the ceremony even if all graduation requirements have not been met; however a diploma will not be issued until all graduation requirements are met.

HALL PASSES

Students should have a pass if they are in the hallway during class time. Classrooms should have a general hall pass for students to use **one at a time**.

HOUSEKEEPING

Each teacher is responsible for the daily condition of their room. The District has a big investment in the equipment, furnishings, and technology in each room. Please take care of the items in your rooms and in the rest of the building. All repairs, special cleaning requirements due to spills, etc., should be reported immediately to allow the custodial staff to maintain a clean, healthy environment. Please refrain from bringing your own personal furniture, equipment, etc., into the building. The district can be held liable for injuries due to equipment that does not meet various codes established for school buildings. Upholstered furniture increases fire risk as well as transmission of illness and lice. Moving large furniture is an increased safety and injury risk for custodial staff during summer cleaning. If there is a need for equipment and furniture in your classroom, bring this need to the attention of Administration. Keep free of clutter; if you haven't used something in the past year, please discard it.

Housekeeping needs should be shared between the teacher and the custodial staff. It should not be expected that custodians clean up classroom litter. A few minutes at the close of each day should be used to have students pick up waste paper, pencils, or objects which may be on the floor. We do not have enough custodians to clean every space in the building without students' and teachers' assistance.

At the end of the day, make sure that windows are shut and the door is locked. Instructors in rooms with tables and chairs should see that the chairs are put on the top of the tables at the end of the day. Classroom garbages should be bagged up and placed in larger garbage cans in the hallways.

LEAVING BUILDING DURING WORK HOURS

Teachers are allowed to leave the building during their prep hours for reasons related to class preparation. They must email or call the front office to inform them they will be out during their prep hour.

LOUNGE AND WORKROOM

The staff lounge is reserved for the staff only; no students. The staff work rooms are intended as staff areas only; please do not send students to work in these rooms unless you have completely trained the student on how to use the equipment and to respect confidentiality.

COPYING - The use of the copy machines for instructional purposes is available for all staff members. Personal copies are \$.10 per black & white copy, and \$.25 per color copy. The school or district secretary should be asked for help should an emergency arise with the machine, such as a jam. Please treat these machines as if they were your own. Do not run construction paper or other non-copier-friendly paper through the copiers. Service calls are often required due to harsh operation of these machines.

FAXING – A fax machine is available for school business use by all staff members. To send a personal fax the cost is \$.50 per page received or sent, including the cover sheet.

MANDATORY REPORTING

All Staff are mandated to report child abuse and can be held liable for failure to do so. The report should be made as soon as possible. To make a report call the St. Louis County Initial Intervention at 218-726-2012. (See policies #414 and 415 under Mandatory Notifications for more information on mandatory reporting.)

PARENT/GUARDIAN / TEACHER COMPACT

See student handbook for a copy of compact.

PERSONAL DAYS/STAFF DEVELOPMENT DAYS

Teachers are encouraged to use their personal days/staff development days prior to the last two weeks of school. This is a critical time to the efficient running of the building. Consistency is important at this time of the school year.

PREPARATIONARY PERIOD

In the event a teacher is needed to substitute for another teacher due to substitute shortage, teachers will complete appropriate paperwork and submit to the business office within 48 hours.

PROGRESS REPORTS

The school has developed a program to inform parents of the progress that their child is making in each of his/her classes. Any student who is experiencing difficulty in a class shall be given a progress report that explains the difficulties by the teacher. Parents should be encouraged to schedule an appointment with teachers at any time to discuss their student's progress in school. The timeline, when progress reports are issued, is found in the Student Handbook, school calendar, and the district Google calendar. Teachers are required to update their gradebook for the Campus Portal system to provide parents with the academic progress of their students during the course of the school year. **Grades must be updated by 8:25AM every Monday, or whatever day is the first school day of the week.** If a non-passing grade (F) is given, the teachers need to explain why in the comment area; explain what the teacher has done in order to prevent the F, what assignments the student is missing, if it's the absences, tardies, poor attitude/participation and anything else that may help the parent, student, and administration understand.

RECYCLING

Every classroom should have a bin for recycling paper. Every effort to recycle paper shall be encouraged by students and adults.

SAFETY DRILLS

Please refer to your CRISIS MANUAL for additional guidance.

STUDENT AWARDS

Each year an Academic Award Ceremony is held to honor students in grades 7-12 for academic and student organizational accomplishments. The date is set each year and posted on the school calendar. Administration and advisors present the awards.

Generally the Sports Boosters sponsor an athletic banquet throughout the school year. These banquets will be advertised by the school in advance after the date has been selected.

The elementary students have an awards ceremony **at the end of the school year. following track and field days**

STUDENT DISCIPLINE

Teachers must familiarize themselves with the discipline policy and other information in the student handbook. If at any time, the conduct of a student cannot be corrected by the classroom teacher, please refer to the Polar Pride matrix for further instructions. The PBIS Manual, which includes the Polar Pride matrices can be found at the end of this handbook.

STUDENT ILLNESS

Floodwood School District follows the current guidance set forth by the Minnesota Department of Health and Centers for Disease Control. Please contact the district office to obtain a copy of the most up to date guidance.

We encourage families to always reach out to your child's health care provider for guidance when your child is experiencing an illness. Thank you for helping us keep the school illness free and please call the school office if you have any questions or concerns. 218-476-2285 or attendance@isd698.org

~~The student handbook states: Should a student become ill while at school and unable to attend classes, they are to inform their teacher and report to the school office. Determination will be made at that time whether the student needs to go home. The parents/guardians or designated emergency contact must be contacted before a student may leave school because of illness.~~

ELEMENTARY

In the event of student illness the teacher should use their discretion as to which procedure to follow. The student should be sent to see the school nurse. The nurse should be alerted by a telephone call that the student is on their way. If the student needs to be escorted to the nurse's office, you may call the nurse or the office for an adult escort. On days when the nurse is not available, office staff will assist with assessing students and notifying parents/guardians as needed. If the student cannot remain in the classroom until their parent/guardian arrives, the student may be sent to the office to wait. On days when the nurse is not available, and parents/guardians are not able to pick up their ill student, the student may be sent to the office to lie down in the nurse's office. Over the counter medications will not be distributed without a completed medication administration form and medication supplied by parent/guardian. The Floodwood School district will not supply over the counter medications for students.

SECONDARY

The student should be sent to see the school nurse. The nurse should be alerted by a telephone call that the student is on their way and send the student with a nurse pass completed by the teacher sending them. Students will not be accepted by the nurse's office without a pass from a teacher. Students may not come to the nurse's office during passing times without a pass from a teacher. If the student needs to be escorted to the nurse's office, you may call the nurse or the office for an adult escort. On days when the nurse is not available, ill students are to be sent to the office where office personnel will care for them. Over the counter medications will not be distributed without a completed medication administration form and medication supplied by parent/guardian. The Floodwood School district will not supply over the counter medications for students.

REMINDER THAT ONLY AUTHORIZED SCHOOL PERSONNEL ARE TO ADMINISTER MEDICATIONS TO ANY STUDENT.

STUDENTS LEAVING SCHOOL

Under no circumstances will a teacher allow a student to leave school without Administration approval. Students who wish to leave school during class hours will be allowed to do so if their parent/guardian has given their approval to the office and has secured Administration's approval.

If a student needs to leave the building for a class, but without the teacher, parental/guardian permission and an excuse from the office must be secured.

On occasion a teacher may need to take students out of the building. Students are required to have prior permission from parents/guardians so parents/guardians are aware that their student will be out of the school building. Also, teachers must supervise students at all times while out of the building. Parent/Guardian permission will not be obtained for being out of the building on school grounds and school forest trail.

STUDENT HANDBOOK

All teachers are to familiarize themselves with the rules and regulations found in the Student Handbook. The policies stated in the handbook are to be carried out.

STUDENT RECORDS

Student records are kept on file in the office. Each record has valuable information concerning the individual student. This information may assist the teacher in daily interaction with the student.

STUDENT SUPERVISION

Teachers should never leave students without adult supervision. If an emergency occurs and a teacher must leave the classroom, another teacher or staff member should be asked to supervise the students.

Teachers should escort their students to assemblies and continue to supervise them by sitting with them during the program.

We all share the responsibility of supervising student behavior in the building and on school grounds. Each teacher is to be present at the door of their classroom during the passing of classes. Any behaviors considered "major" on the office discipline referral, should be referred to Administration as soon as possible.

SUBSTITUTE TEACHERS

Teachers and paraprofessionals must initiate the substitute calling system at their earliest opportunity. The substitute calling system can be accessed by the InstaSub system at <https://instasublogin.tcpsoftware.com/>. If you need assistance with the InstaSub system, please contact the office. If a teacher or paraprofessional expects to be absent for reasons other than illness, arrangements must be made in advance with prior approval from Administration.

SUPPLIES

There are general supplies in the office for staff use. Although usually teachers requisition and receive these supplies before school begins, occasionally there is a need for general supplies during the school year. If a staff member needs supplies, they must contact the Business Manager.

TESTS

Teachers are to bear in mind, when making out regular tests during the year those tests are not to last longer than one class period. Students coming late to their next class cause problems for both students and teachers.

TEXTBOOKS

Textbooks are to be issued to each student by number. The number of the textbook will be recorded in the teacher's record book. Students are to enter their names in the form found on the inside cover of each textbook. Students are not to mark or tear books. Each teacher will note the condition of each book at the time of issue. Teachers are responsible for maintaining an up to date text inventory.

High school teachers are to document fines assessed for textbooks (or other equipment damage) and turn in the list of the fines to the office on check out day.

Indoor Air Quality Notice

Floodwood School District has an Indoor Air Quality (IAQ) management plan. The management plan outlines specific policies and procedures that will be used in the district to address indoor air quality issues. IEA, the District’s health and safety consultant, completes annual IAQ assessments within the school to ensure proper air quality.

If you have any questions concerning IAQ, or would like to use the EPA Tools for Schools checklists, please contact the District IAQ coordinator: ~~Al Clark~~ 218-476-2285

Lead-in-Water Annual Notice

Minnesota Statute 121A.335 requires public school buildings serving prekindergarten through grade 12 to test for lead in water every 5 years. This statute also requires school districts to make the results of the testing available to the public for review and to notify parents/guardians of the availability of the information. Notification may be accomplished by publishing a statement in the “Back to School” newsletter or publication that is available to staff, students, parents/guardians and the public.

Floodwood School is committed to providing a safe working and learning environment for employees and students. The district has developed a lead in water management plan and testing program that complies with Minnesota Statute 121A.335, as well as recommendations from the Environmental Protection Agency’s (EPA’s) Lead Contamination Control Act (LCCA) of 1988 and the Minnesota Department of Health (MDH), and Minnesota Department of Education (MDE).

For more information on Floodwood School's lead reduction and testing program, please contact ~~Al Clark~~ Head of Maintenance, at 218-476-2285 ext. 70224 or visit <https://www.isd698.org/page/lead-in-water-information>.

Pesticide General Notice

All Minnesota schools are required to inform parents/guardians and school employees that they may request to be notified prior to pesticide application on school property. Pesticides include chemicals which are used to control insects, weeds, rodents or other pests as defined by the law (M.S. 123B.575, Subd. 9).

In order to provide the required information, schools must maintain a list of parents/guardians and school employees who request notification. Schools must also provide information about individual pesticide applications upon request, including the name of the pesticide product, and the time and location of the planned application. An estimated schedule of pesticide applications is available for review or copying at the District office.

Pesticides and non-chemical treatments may be used in combination in and around schools for a variety of reasons, including the control of pests which have the potential to bite, sting, spread disease, cause asthma, and/or trigger an allergic reaction. Pesticides may also be used to prevent or control damage to materials within the school building or to the school building itself, or to control pests or weeds that are seen as a nuisance.

The long-term health effects on children from the application of such pesticides or the class of chemicals to which they belong may not be fully understood. Children may be more susceptible to pesticides than adults due to their smaller size and rapid growth and development. Also their playful behavior may expose them to more pesticide residue.

To limit the potential pesticide exposure, this school follows safety regulations to ensure pesticides are applied properly. All pesticide products, which are used in and around school buildings, are required to be registered with the Minnesota Department of Agriculture and the U.S. Environmental Protection Agency. In addition, school employees and certified and licensed applicators are required by state and federal law to comply with all requirements of the pesticide label, including building sites, application rates, re-entry intervals, posting, use of personal protective equipment, use restrictions, and disposal on the product label.

To be notified about pesticide applications or the management plan, please contact ~~Al Clark at the~~ Floodwood School District, 218-476-2285.

Floodwood Activities

MISSION

The mission of the Floodwood athletic department is to encourage student participation and to allow students to experience the benefits of competitive interscholastic sports in which they have the opportunity to have fun and to learn cooperation, mental and physical toughness, sportsmanship, personal sacrifice, discipline, and accomplishment, along with many other character-building assets which enhance the total development of students.

PHILOSOPHY

The major purpose is to provide wholesome opportunities for students to develop from their experiences, favorable habits and attitudes of social and group living in a democratic world. The secondary purpose of the activities program is to provide an opportunity for the community to participate, as a spectator, in these activities and develop positive school/community relationships.

The leadership should be of the highest quality so as to exemplify to the participants the desired type of individual to be developed from the athletic program. Measurement of success of the leadership should not be in terms of the tangible evidence of the victory and defeat record, but in the intangible personality development factors that are an outgrowth of the major objectives of the athletic program.

The athletic program shall always be in conformity with the general objective of the school and the athletic department shall be in line with the general policies of the institution. At no time, shall the program place the education curriculum secondary in emphasis; the program shall function as part of the whole curriculum and shall constantly strive for the development of a well-rounded individual, capable of taking her/his place in modern society.

CODE OF ETHICS

It is the duty of all concerned with school athletics:

1. To emphasize the proper ideals of sportsmanship, ethical conduct and fair play.
2. To eliminate all possibilities which tend to destroy the best values of the game:
 - a. To stress the values derived from playing the game fairly.
 - b. To show cordial courtesy to visiting teams and officials.
 - c. To establish a positive relationship between visitors and hosts.
 - d. To respect the integrity and judgment of sport officials.
 - e. To achieve a thorough understanding and acceptance of the rules of the game and standards of eligibility.
 - f. To encourage leadership, use initiative and good judgment by the players on the team.

- g. To recognize that the purpose of athletics is to promote fun, physical, mental, moral, social and emotional well-being of the individual players.
- h. To remember that an athletic contest is only a game - not a matter of life or death for the player, coach, school, fan or community.

GOALS FOR STUDENTS:

To fulfill the mission of the district, students will be provided with opportunities to identify non-academic areas of interest and opportunities to succeed where they have the potential to do so. To this end, students will be encouraged to do the following:

1. Have fun, pursue special interests and develop wise use of leisure time;
2. Improve their abilities to communicate and interact with other people and to develop a respect for the talents and interests of others;
3. Develop an awareness of individual differences in ability, cultural values and other areas of individuality;
4. Assume the responsibilities of citizenship, responsibility, loyalty, and respect;
5. Develop sound physical and mental health;
6. Develop an appreciation for and interest in fine arts activities;
7. Develop attitudes of sportsmanship and fair play both in competition and recreation;
8. Learn from their experiences with success and failure;
9. Give and receive recognition consistent with their abilities and performance
10. Be part of an organization larger than themselves with common goals that can be achieved only by cooperation, dedication, and teamwork;
11. Experience the self-confidence and positive self-worth that can serve as cornerstones for future achievements.

ATHLETICS

See all coaching job descriptions under “Schedule C Job Descriptions.” JV/Assistant Coaches are Junior High and Junior Varsity Coaches.

At the Junior High level the board expects a philosophy of development while using as many players as possible. The expectation will not be, nor should be, that just because a player is suited for a game that they will play or receive proportional playing time. The board recognizes that many of the lessons learned in athletics are taught in practice, not in games, and herein lay many of the benefits in athletics.

ACCELERATION OF ATHLETES

There are situations where it is appropriate for a 7th or 8th grade athlete to be moved up to compete at a higher level. In order for an athlete to be accelerated the following procedures must be followed:

1. Any coach who plans to accelerate an athlete in grades 7 & 8 must meet with the Activities Director before any suggestion to the athlete or their parent/guardian is made and any action is taken.
2. If a 7th or 8th grade athlete is accelerated, the coach must give the athlete and their parents/guardians the advancement form (found on the back page of this handbook) which the parent/guardian must sign and the coach have in possession before the advancement can take place.
3. Acceleration of an athlete on an emergency basis (ineligibilities or injuries) can take place but only if the parent/guardian of the athlete approves and the other members of the teams involved are informed, before the move, of the rationale for the movement.
4. Once a student is accelerated to a higher level, the status of the player shall be reviewed with the AD to determine what the player's appropriate playing level should be. MSHSL rules do not allow student-athletes to move from the JH level to JV/Varsity and back. If a JH athlete is accelerated they have to stay at the level above.
5. Athletes should be moved up for playing purposes, not to ride the bench.

ADVISORS

See job descriptions at the end of this handbook for details of expectations. All activities need to be cleared by Administration at least one month in advance of the event.

Dances

School dances are scheduled on the district Google calendar. Any school organization desiring to sponsor a dance must first receive permission from their advisor. All dances must be approved by administration no less than 30 days before the dance is scheduled to take place with the exception of Homecoming which requires no less than a 14 day notice due to the school year start date. Final arrangements including the required building permit must be made no less than two weeks before the dance is scheduled to take place.

To ensure these functions will be well organized and will provide wholesome entertainment for the student body some regulations are necessary:

1. School dances are for Floodwood students in grades 7-12. Students wishing to bring guests to the dance must seek prior approval from administration who will then notify the dance chaperones. It is in the students' best interest to ask for approval well in advance of the dance, as there is a required form for the guest to complete, which requires their school principal to sign.
2. All students and guests attending school organization sponsored dances MUST complete the Behavior Contract for Floodwood School Dances.
3. All chaperones must complete a Chaperone Agreement to chaperone events.
4. No one will be allowed to enter 30 minutes after the dance has begun. If a student has left the dance they will not be allowed to re-enter. If a student does leave the dance prior to 30 minutes before the end time of the dance, parents/guardians will be notified immediately by chaperones.
5. School dances will be terminated no later than 12:00 midnight.
6. At least one faculty member and two additional adults are to chaperone each dance. The organization sponsoring the dance will be responsible for arranging for these people and the expense of background checks needed. There should be at least one chaperone of each sex for bathroom checks.
7. Student committees will see that concessions and dance areas are cleaned as soon after 12:00 midnight as possible.
8. Dances are special occasions and students are expected to be clean and presentable and conduct themselves in accordance with district policies.
9. Admission charge at dances will be set by the organization sponsoring the dance but must be approved by administration.
10. All persons attending the dance must remain in the cafeteria or main hall. All other areas in the school are off-limits.
11. The organization sponsoring the dance may sell tickets in advance.
12. Privilege based attendance eligibility will take place Wednesday prior to the dance by district administration.

 - b. Each student is eligible on Monday of the week following the end of the suspension period. Three or more teaching days shall constitute a week.
 5. Appeals: Under unusual circumstances, such as extreme hardships, students may appeal the discipline measures resulting from these academic eligibility requirements to the Administration.

It is our goal to provide students with a strong learning environment as well as offer a variety of extracurricular opportunities to students. We expect all student athletes to be in good academic standing. An essential belief is that extracurricular activities are secondary to academic programs. As such, failure in academics results in ineligibility to participate in activities.

To encourage the development of responsibility, it is important to make certain that stakeholders understand that extracurricular and co-curricular activities are privileges, not rights, and while all students begin the year with the opportunity to participate in these privileges, they can be revoked as a result of irresponsible behavior, irresponsible attendance, or irresponsible punctuality.

The following is the process followed by the Activities Director regarding Athletic Scholastic Eligibility:

- 1 Unexcused Absence (1 Period or More): The student will be ineligible to participate in the next practice or event scheduled for that day.
- 3 Tardies in a season: The student will be ineligible to participate in the next practice or event when they reach three (3) tardies in a season and this will be the case for each succeeding tardy.
- Grade of F in One or More Classes: Students will be ineligible to compete in events, games, or performances for the remainder of the week. A list of unsatisfactory grades (F) will be generated each Monday for all classes (current semester and quarter), and this period of ineligibility will begin on Tuesday and run through Sunday. If the student completes the "Eligibility Reinstatement Form," which is signed by teachers verifying the grade(s) is up to passing, the student will immediately regain eligibility.
- One time per season: Students may petition the Administration to substitute completing a one (1) hour community service project to regain eligibility for a practice, event or game. This petition must be preapproved by Administration.
- Administration has the right to create individual contracts with students as long as the contracts meet MSHSL guidelines.

 - c. Permission granted by Administration
 - d. All parents/guardians of varsity players must be informed
 - e. No players are penalized for non-participation

PRACTICE AND VOLUNTEER COACHES

1. Any college students who wish to serve their practicum at the Floodwood School must first get permission from the Activities Director. Coaches are not authorized to accept practicum students for their programs.
2. Practicum students will be assigned to a program by the Activities Director. Varsity coaches are responsible for assigning the responsibilities to the student but it is mandatory that if at any level of their program (7-12) there is an overload of students the practicum student must be assigned to that level.
3. Volunteer coaches may be used at the discretion of the Varsity coach. They must have a background check through MBCA. The background check must be complete prior to participation. The Varsity coach must obtain prior permission from the Activities Director for all volunteer coaches.

HOW TO AVOID LIABILITY IN SPORTS

1. Medical Exam - the school should be reasonably aware of the health status of each athlete. There should be a thorough medical exam when a student enters the athletic program and three year updates supplemented by observation and referral exams when warranted.
2. Acceptance of Risk - a "waiver of responsibility" by athletes should be based on a full understanding by them of the risks involved. This emphasizes that the student shares responsibility for preventative measures.
3. Planning and supervision - those responsible for sports programs know where, when, and to whom an athletic injury could occur, and they should plan for any anticipated problems.
4. Competitive preparation - pre-season practices should protect participants from "the full rigors of the sport". In-season practices should help them be fully prepared and "follow the spirit of the rules" for that sport.
5. Equipment - appropriate equipment recommended by rules or authoritative groups must be used by all participants in practice as well as in games.
6. Facility - there should be regular checks on the facilities, including warm-up and adjacent areas to make sure the conditions are safe.
7. Emergency care - each practice or competition should have a person immediately available to give first aid, planned access to a physician for prompt medical evaluation, planned access to a medical facility, and a thorough understanding by all persons, including the leadership of visiting teams, or the personnel available and procedures.
8. Record - documentation is evidence that "you care". This should include data on participation, injury records, and waiver forms.
9. Justification - if the sport is to be defended adequately, its benefits and its risks must be thoroughly justified and accepted by all participants.

SCHEDULING AND OFFICIALS

1. Make recommendations to the Activities Director as to opponents.
2. Make recommendations to the Activities Director as to officials.

SCOUTING

Shall be done on an individual basis of need and level of competition. School vehicles are not available for scouting purposes. Personal vehicles must be used and you may be reimbursed by the district. Coaches are encouraged to exchange video via the internet.

TEAM TRANSPORTATION

1. The Activities Director will provide the bus times monthly for each activity. The Activities Director will check with the transportation supervisor and Varsity of the activity on all needs for the loading time and departure time. The Activities Director will list load times and departure times. Leave on time. Please let the Activities Director know if there needs to be an adjustment. **DO NOT TALK TO THE TRANSPORTATION SUPERVISOR ABOUT CHANGES, ALL ADJUSTMENTS NEED TO BE MADE THROUGH THE ACTIVITIES DIRECTOR.**
2. Use of school vehicles - it is your responsibility to make sure that the vehicle that you have used is filled with gas and cleaned up at the end of the activity. The drivers have been directed to keep small garbage bags in all of the school vehicles. They will be in the very back of the vans. Please have your students put their materials and containers in these garbage bags and drop them in the school receptacle when you return from your activity. In addition, please refuel the vehicle if possible. Otherwise leave a note or let someone know to fill it. If you would assume responsibility for having most of these things done, it would facilitate the people using the vehicle the next day in getting on their way so they do not have to wait for the custodians to clean the vehicles and fill them with gas. All keys must be returned to the office by 7:00am on the following school day after the use of a school vehicle.
3. When teams travel by bus, each coach is responsible to see that someone is in charge to inspect the bus prior to the trip and after the trip. And make sure that "spikes" or other inappropriate shoes are not worn on the bus. This protects you and your players from false accusations. To assist in holding students accountable, and to make your job easier, it is suggested that you have assigned seats. It makes it easier for the AD and Administration to support you if you are thorough. It makes it easier for the district to defend you in court if you are thorough.
4. The school district's practice regarding the transportation of students to co-curricular activities is:
 - a. Students are transferred from the Floodwood School site to the co-curricular activity and back to the school site. They are not to be dropped off at any other site unless the parent/guardian of the student contacts the coach or supervisor and takes custody of the student in the presence of the coach or supervisor.
 - b. Only the parent/guardian of the student can take custody of the student. Parents/guardians should sign the release form that each coach should have along.
 - c. Prior arrangements may be made through the Activities Director for alternate transportation on a case by case basis.

- d. Students are **never** allowed to drive other students.
5. Coaches are always the last ones to leave the school building, do not leave athletes outside or inside the school building after practices, scrimmages or games.
6. Parents/guardians and other adults should not be allowed to ride team buses unless the parent/guardian or other adult is employed or a volunteer acting in an approved capacity by the school district.
7. All coaches must ride the team bus. The only exceptions would be emergencies and very rare occasions which would benefit the students and were authorized in advance by the Administration/Athletic Director.

The Activities Director will do all of the ordering of equipment.
5. List each item separately with the number needed and description. Also give the unit cost and total cost of items.
6. All ordering of materials for athletics shall be done by the Activities Director. In special cases where it becomes necessary for a coach to pick up needed materials, they must first contact the Activities Director and secure a purchase order and number. You may not purchase any item without a proper purchase order.
7. If you purchase anything for your personal needs, or if you are ordering items for the athletes on a personal basis, have the company bill you at your home address.
8. Policy Law

RUNNING IN THE HALLS

4. Be ethical in your dealings with opponents, players and the public.
5. Submit a copy of your special rules to the Activities Director at the beginning of your season.
6. Before dismissing a player from your program, check with the Activities Director and Administration. Also, the parents/guardians shall be informed before any action is taken.
7. If you consider moving a younger player in your sport to a higher level of competition, please refer to the acceleration procedure on page 4.

USE OF OTHER SCHOOLS LOCKER ROOM FACILITIES

2. In the event of inclement weather prior to the start of an activity, the Activities Director will communicate with the opposing Activities Director to determine the status of the activity.
3. In the event of inclement weather during the activity, the Activities Director will conference with the officials and both the home and visiting coaches to determine the continuation of the activity.

Heat Stress Risk Temperature and Humidity Graph
 Reprinted with permission from Kulka T.J. Kenney WJ. Heat balance limits in football uniforms: how different uniform ensembles alter the equation. *Phys Sportsmed* 2002;30(7):29-39.

- **GREEN LINE:** Regular practices with full practice gear can be conducted for conditions that plot to the left of the green line.
- **RED LINE:** Cancel all practices when the temperature and relative humidity plot to the right of the red line; practices may be moved into air-conditioned spaces.
- **BETWEEN RED AND YELLOW LINES:** Increase rest to work ratio with breaks every 20 minutes and all protective equipment should be removed to practice in shorts only when the temperature and relative humidity plot between the red and yellow lines.
- **BETWEEN YELLOW AND GREEN LINES:** Increase rest to work ratio with breaks every 30 minutes and wear shorts with helmets and shoulder pads only when the temperature and relative humidity plot between the yellow and green lines.
- Heat risk rises with increasing heat and relative humidity. Fluid breaks should be scheduled for all practices and increased as the heat stress rises.
- Add 5 degrees to temperature between 10 AM & 4 PM from mid May to mid September on bright, sunny days.
- Practices should be modified to reflect the conditions for the safety of the athletes.

4. Outdoor activities should be suspended when the heat index reaches to the red line on the graph below or higher and the wind chill index is -10 or less.

STUDENT OR ATHLETE USE OF PHY-ED FACILITIES DURING THE SCHOOL DAY

1. Students or athletes shall not be permitted the use of physical education facilities during the school day unless under the direct supervision of a coach. Direct supervision means the coach and athlete are in the same room at the same time. Students must never be taken from a class for practice. Student performance is the highest priority we have after student safety.
2. Coaches and athletes are not to use the physical education equipment for athletic purposes. Sharing equipment can be done but only at the permission of the physical education department. Coaches are not to assume physical education equipment can be used in their programs. Physical education instructors can use athletic equipment during the instructional day as they see fit.

USE OF PRACTICE FACILITIES AND EQUIPMENT (SAFETY)

1. Before using facilities or equipment, check to see that there are no safety hazards to the participants. This includes road ways for track athletes. If so, report them to the Activities Director.
2. After a practice session is over, make sure that all equipment is put away and that all lights are turned off and all doors are locked. It makes it easier for the AD and Administration to support you if you are thorough. It makes it easier for the district to defend you in court if you are thorough.
3. Coaches shall inform their players that use of facilities prior to the start of their first practice will not be permitted. Safety is our top priority. Coaches must be the first to enter the facility and the last to leave. Coaches must clearly communicate to participants what the start time of practice is and what the earliest time they will be allowed in the building. (If you arrive to open the building and students are already in the building, they are to be sent home and they are not allowed to practice. The Administration must be notified. (No student is ever allowed in the building unsupervised, this is a violation of school rules and the Administration will take corrective action.) Students in the building, immediately after school, will be an exception to this procedure. Please communicate clearly to your participants what door they are allowed to use to gain access to the building. Unlock that door from the inside using an Allen wrench or key. These are school

issued. Once your deadline for arrival is past then you need to relock the doors as you are personally responsible for all students who enter during that time. It is your responsibility to be the last one out of the building. It is your responsibility to check each door that your actions could have allowed access to the building. If your actions allowed access to the entire building then you must ensure that each door is checked and secure. If a student is waiting for a ride it is your responsibility to supervise that student until the parent/guardian arrives.

4. **“Captain’s Practice”**

- It is believed that the words “captain’s practice” originated years ago as a description of the spontaneous gatherings of students for the purpose of preparing themselves for a level of physical conditioning prior to the start of a school’s sport season. These were physical conditioning meetings. The activities were usually led by the captains and included calisthenics and running, hence the term “captain’s practice”. Member schools have subscribed to the rules and regulations governing the start and close of each sport season. Their athletes should be permitted to choose their activities in the “off season” providing they do so without direction from school coaches. No school may engage in any game or games, practice, training, or other activities between the close of one season and the opening of the next season. Group and individual physical development programs opened to all students between the close of one season and the opening of the next season are encouraged. This does not include “captain’s practice”. Our school policy or personnel do not offer “captain’s practice.” The use of high school gymnasiums and other athletic facilities during this same period is also encouraged. There shall be no compulsion of athletes to participate in any pre-season training as a qualification of being on a high school team. When using school facilities students must be supervised. However the school district cannot in any way be involved in a “Captain’s Practice.” If the school is fined by the MSHSL and your actions are responsible you will reimburse the district for that fine.

5. **“OPEN GYMS”**

- a. Members of the school's coaching staff will not be allowed to set up open gyms outside of their season or the summer waiver period.
- b. Members of the school's coaching staff will not be allowed to supervise open gyms outside of their season or the summer waiver period.
- c. Open gyms during the school year must be set up by adults who are not a part of the school's coaching staff, and they may not be directed to do so by members of the school's coaching staff.
- d. If the adult who set up the open gym is unable to supervise they must notify the activities director/facilities scheduler and notify them of the replacement.
- e. Members of the school's coaching staffs will not be allowed to notify student-athletes of open gyms that are held outside of their season or the summer waiver period by phone, text, email or other social media.

(Note: The reason for these changes is to protect the school, our coaches, and our student-athletes from accusations of coaches putting undue influence on kids to participate, and to protect us from accusations from coaches coaching student athletes out of season.)

6. **All facilities, gym, weight room, locker rooms, fields, etc. must be supervised at all times before any formal or informal activity can be conducted in the area.**

GYMNASIUM

1. Gymnasium doors should be locked after practice.
2. Coaches should check the gymnasium area each day for possible hazards.
3. Players are not allowed in the gymnasium unless the coach is present.
4. Players are not allowed to use the equipment until the coach has given permission.
5. Players are to leave the gymnasium in an orderly manner.
6. Gymnasium doors are to be opened carefully when leaving the gym (doors open out).
7. Players are instructed to walk in the center of the hall by the gymnasium area, and to stay away from the gymnasium doors.
8. Coaches or managers shall be the only ones to turn lights on or off.
9. Bleachers shall not be opened or closed by players without proper supervision.

OUTDOOR FACILITIES

1. Athletic fields are maintained by the groundskeeper, Varsity Coach and the Activities Director. Observation of the fields by both the coaching staff and grounds keeper result in repairs as needed.
2. Players are instructed to watch for vehicles when crossing the streets and walking to and from the field.
3. Players are instructed to wait for the coaches to open gates. They are instructed not to climb fences.
4. Players are instructed to walk on the street, not on personal property, to and from the athletic field. Students need to be instructed to walk or run no more than two abreast and they need to ensure traffic is not impeded.

EQUIPMENT

1. Coaches shall check equipment prior to use. It is the responsibility of each coach at each level to not use unsafe facilities or equipment. The coach is liable if he or she elects to use equipment or facilities that they believe is unsafe. Coaches should electronically report to the Activities Director to request any repairs needed.
2. Care of equipment and use of equipment is discussed in detail with players for each activity.
3. Safety precautions are discussed with players pertaining to the use of equipment - not only the player’s safety, but that of their team members.

UNEXCUSED ABSENCE

1. Students who are absent from school without an excused absence will not be permitted to participate in any school sponsored activity, including practice, the day of their absence, or on Saturday, if the violation occurs on Friday.
2. Any absence on the day of an activity will result in the student not being allowed to participate/attend the activity that day or evening. This does not relate to absences such as appointments (medical, dental, counselor, and legal, driving tests), funerals, religious instruction, or absences that have prior approval by the Administration. If a student is in a situation where they feel there should be an exception to the rule and an afternoon class must be missed, that student should clear the absence ahead of time with Administration. Verification may be requested if it is deemed these exceptions are being abused by the parent/guardian and/or the student. Also, any unexcused absence for the day (or any part of the day) of an activity will result in ineligibility for that day’s activity. This would include unexcused absences for missed school or either in or out of school suspension.
3. Athletic contests on school nights do not excuse students from being in school promptly the following morning and parents/guardians cannot excuse an athlete for their morning absence or tardy following a late night without a medical note.

UNIFORMS

1. Teams and individuals must wear the uniforms and warm-ups provided by the athletic department. Any special situations or additions to uniforms or warm-ups must be approved by the activities director.

- Coaches at any level cannot accept or solicit from outside sources contributions of or for uniforms, warm-ups, or any other apparel that can be taken as part of the team outfit. Coaches cannot purchase for resale any equipment.
- Teams who wish to order from source items for the personal use by and purchased by the individual members can do so but cannot be part of the team uniform unless provisions are made for those wishing to not purchase such items. i.e.--Team sweatshirts, jackets, shooter shirts, etc. Design for such items must be approved by the Activities Director.
- Uniforms should be good quality and meet all requirements set by the MSHSL.

Uniform Rotation

SPORT	ROTATION	NEXT PURCHASE
Boys Basketball	2026-2027	2032-2033
Girls Basketball	2027-2028	2033-2034
Softball	2029-2030	2036-2037

Volleyball	2028-2029	2035-2036
Golf	2025-2026 2031-2032	2031-2032 2038-2029

If teams would like to purchase uniforms before their scheduled rotation, they may do so by using funds from their activity account. They may also look into students purchasing their own uniform with their names on them if they wish.

SPECIAL RULES WHICH PERTAIN TO YOUR PARTICULAR ACTIVITY

- If you have special rules for your sport, make sure they are written and gone over with the team members, and they must be approved by the AD and Administration.
 - Give a copy to the Activities Director so they also have a record of your rules.
 - Punishment should not be as harsh for a first offense, as for continuous violations. In some cases, involvement of parents/guardians may be necessary before action is taken.
 - Never do or take any punitive action in the heat of disappointment or anger.
 - Punitive action for a violation of your rules shall be constructive. Never use a sport activity for punishment.
- Floodwood High School will abide by Minnesota State High School League rules with the exception of those that have been made more restrictive and adopted by the Floodwood school board.

REPORTING GAME RESULTS

- Email score to the Activities Director's Office prior to 8:00 a.m. the morning succeeding an activity to be put in the announcements. It is the coach's responsibility to inform members of the media and office staff for announcements.
- The following media should receive end of game scores and stats: MSHSL.org, Channel 6, Channel 10, Duluth News Tribune, Minnesota-scores.net, The Floodwood Forum, and the Voyageur Press.
- The Duluth News Tribune should also receive end of season stats.

WEIGHT MACHINE, FREE WEIGHT AND GENERAL AREA

- If any unavoidable damage occurs to the weight equipment, free weights or general area through use, you are to report it to the coach or Activities Director so repairs may be made.
- If any undue damage to the weight equipment, free weights or general area occurs, it may be closed and only limited lifting under direct supervision would be permitted.
- No pop or food will be permitted in the weight room at any time.
- The weight equipment and free weights are to be used only as designated and prescribed by the posted rules and lifting charts and not in a manner that is unsafe or injurious for pre-lift warm-up exercises and proper lifts. (No less than two people shall be in the weight room at one time during the day).
- Students must be properly dressed in gym clothes before being permitted to use the weights.
- The weight room is for general use by the students and public (*with permission from the Activities Director*). Athletic teams cannot reserve it for just their use, but as always, they may use it with the proper supervision when it is not scheduled and coaches may send athletes there when it is scheduled to be opened.

SCHEDULING OF EVENTS

- As soon as the Activities Director has finished scheduling athletic events, these shall be made available to Administration and the Music Department.
- The Music Department will give the Activities Director a list of event dates by March for the ensuing year.
- Events scheduled after that date will have to clear the master schedule which is to be kept in the district office. Official sub-section, and state additions or corrections should take precedence over non-conference and locally scheduled events.

4. Both the Activities Director and the Music Department are to check the master schedule with Administration on proposed dates for events that are scheduled after the initial schedule is drawn up.
5. The original schedule will take priority over all late schedule events.
6. All junior high level activities will take priority over high school activity for the junior high level student who might be participating in a high school sport or activity.
7. When it becomes necessary to reschedule a sport or music activity that has been postponed due to weather conditions, each coach or director must check the existing school schedule before rescheduling the event. If there is a possible conflict, the change must be approved by the Activities Director and Music Department.
8. All other departments and organizations that need to schedule events must check with the Activities Director and the master schedule for open dates. These departments and organizations must also abide by the guides that are set for the athletic and music departments.

PROCEDURE FOR HANDLING POSSIBLE CONFLICTS IN THE SCHEDULE

1. School activities that have been scheduled and appear on the Events Calendar on the district website take priority over rescheduled inter-school activities, unless the normal progress for advancement may be affected. First consideration will be given to the activity that may have its advancement affected.
 - a. Where conflicts seem to be unavoidable, the following regulations will prevail. Every attempt should be made so that the students need not be asked to make a choice, nor be penalized to be outside of a decision stemming from these policies.
 - All performances (games, concerts, or meets) take priority over a practice or rehearsal.
 - A concert will take priority over a JV or "B" squad game or meet.
 - A JV or "B" squad game or meet will take priority over a practice or rehearsal.
 - All Polar League or Great Northern Conference tournaments where a conference championship is determined, sub-sectional, sectional or state activities will take priority over any other scheduled activities or practices.
2. When a conflict appears, the following procedures should be followed:
 - a. Notify the Activities Director as to the possible conflict.
 - b. The Activities Director and Music Department will meet to see if the adopted rules can handle the alleged problem.
 - c. If the adopted rules do not apply or when an agreement on the interpretation cannot be reached, then the Activities Director and Music Department will call a meeting with the two coaches and/or directors to resolve the conflict. Administration will be called in as a fifth party only if needed.
3. When rescheduling events, the Activities Director will try to minimize time away from the classroom.

MISCELLANEOUS SALARIES

Miscellaneous Salaries will be paid to those individuals wishing to be paid for their time. The person performing the activity is responsible for requesting the salary. Salaries will be paid for home events only. Requests must be made within 2 weeks after the last regularly scheduled home game.

In addition to the previous statement, each student must fulfill one of the two of the following requirements. Only one of these must be fulfilled in order to qualify for academic lettering.

1. Participate in a non-mandatory performance. This could include JAMD as a solo or small group act (must be playing instruments and not singing) or participating in BOTH parades for the year (Catfish Days and Christmas City of the North Parade). In order for the Floodwood Catfish Days Parade to count for lettering it must be done the summer before the academic year starts. In the case of a parade being canceled the student may find an alternate assignment approved by the Instructional Music Director to fulfill this requirement. Other non-mandatory performances may include honor bands or any function where you will be playing your instrument for an official performance that goes above and beyond the basics of playing in the ensemble at school. (Pep Bands are mandatory and therefore do not count toward this)
2. Play for the Instructional Music Director a solo or in a small group outside of the basics required by the class. This performance will be for the Instructional Music Director alone and does not have to be performed at a concert or another venue in order to count. Students may also record themselves at home and submit their recording to the Instructional Music Director via email to achieve this goal. Any solo or small group must have pre-approved music for this to count. Students may submit their piece of choice to the Instructional Music Director for approval at any time or the Instructional Music Director will help the student find a piece to play if desired. Solos must be performed in full and at an appropriate level based on the Minnesota State High School League adjudication form. A rating of excellent or higher is required for the solo to count.

The successful completion of all lettering requirements is at the discretion of the Instructional Music Director.

COACH, PARENT/GUARDIAN AND STUDENT MEETINGS

1. All coaches of Floodwood School athletic teams are encouraged to have a parental/guardian information meeting which includes both parents/guardians and students. The following are the guidelines for these meetings:
2. Parents/guardians are to be given a handout with a brief explanation of the coaches' guidelines for their activity. These guidelines should cover such items as:
 - a. Practice Schedules
 - b. Game Schedules
 - c. Coaches Rules and Penalties for:
 1. Missing practices
 2. Missing games
 3. Participation policy
 4. Any other team rules
 5. Goals and expectations

6. School's rule for attendance
7. Each coach/advisor is to review the Floodwood School Eligibility Information, which includes the Minnesota State High School League material. It is suggested that you read it to all who are in attendance. A copy of this information can be obtained in the activities director's office.
8. It is suggested that each coach have their meeting at the same time that they have a practice. It is not practical to have it any other time since athletes must attend. It may not be the best time for parents/guardians but for the majority of the people involved, it makes for a better situation. For example: if you have a scheduled practice at 3:30 p.m. to 5:30 p.m., schedule the meeting at your practice facility for 4:30 to 5:30 p.m. You are free to conduct this meeting when you like and the activities director's office will do what they can to assist you.

DEALING WITH CONFLICT

Procedure for handling athletic complaints

1. In order to allow an expression of differences that often occur in athletics, a procedure has been developed for establishing a line of communication between school, parent/guardian, students and coaches. This procedure should follow an orderly process.
2. No conflict between a parent/guardian, student, official or coach should be addressed during or immediately following a game. The game site, practice field, lobby or locker rooms are not appropriate places to handle conflict. Coaches are not to meet or deal with conflict at these times or places. Most conflicts are better resolved with an appropriate cooling down period.
3. If you are upset, please call or arrange a meeting the following work day.
4. The following steps should be taken in order for conflict to be resolved.
 - Step 1. Student athlete asks the coach to meet to discuss the issue.
 - Step 2. The parent/guardian or student-athlete contacts the AD to arrange a meeting to talk about the issue. After talking with the parent/guardian and/or student athlete, the AD will decide whether or not the coach needs to be brought into the conversation.
 - Step 3. If needed (issue not resolved,) the coach will be brought into the conversation with the parent(s)/guardian(s), student athlete, and AD. The student athlete does not need to be involved, but is recommended.
 - Step 4. If needed (issue not resolved), Administration will act as a mediator to resolve the issue.
5. Group conflict -- No parent/guardian or booster group shall meet at Floodwood School to discuss team problems without representatives from School which will include the Activities Director, coach or both. Actions or concerns addressed by such groups at any other meetings where School representatives are not present will not be officially acted upon by officials and coaches are not required to attend unofficial meetings.

ENFORCING RULES AND REGULATIONS OF THE MSHSL

Guidelines for Compliance with MSHSL Rules and Regulations

1. Any and all reported violations of Minnesota State High School League Rules and Regulations must be reported to the Activities Director.
 - a. Coaches, directors, or advisors cannot declare a participant ineligible.
 - b. Coaches, directors, or advisors are directed to inform people who report violations to them to take their allegations to the Activities Director.
 - c. Coaches, directors, or advisors shall check with the Activities Director to ensure that the allegation has been reported.
 - d. Coaches, directors, or advisors will be informed of any violations by participants.
2. A coach, director or advisor who directly witnesses a violation or who has a confession of a violation given to him/her is directed to report such an incident to the Activities Director
3. Coaches, directors and advisors are expected to know the school policies regarding the evaluation and suspicion of chemical abuse problems.
4. Coaches, directors and advisors are expected to act according to their professional judgment at all times.
5. Coaches, directors and advisors will be informed by a list each Wednesday when a participant is academically ineligible. All dates in the letter are to be adhered to regardless of cancellations, etc. Any student who does not follow the guidelines stated in the letter will not have their eligibility restored until the guidelines are fulfilled. Coaches must know that in order for a student to serve the ineligibility, he or she must complete the season of the activity where the ineligibility was served. Please explain to students in your program who are ineligible for a period that if they do not come to practices or finish the season after they become eligible, they will again be declared ineligible.

6. Ejection of a player or coach from MSHSL events.
 - a. Ejections must be immediately reported to the Activities Director.
 - b. Coaches are required to know the procedure for dealing with an ejection as outlined in the MSHSL handbook.
 - c. The Floodwood School Athletic Department will not tolerate coaches getting ejected from a contest. A written explanation of an ejection must be filed with the Activities Director and a conference with the director must take place before such coach can resume any of his or her coaching activities.

MINNESOTA STATE HIGH SCHOOL LEAGUE SUMMER COACHING WAIVER

1. Each Varsity coach must meet with their 9 - 12 assistants and distribute a Summer Coaching Waiver Request form. This should be done by the third Friday in May. This also applies to coaches who anticipate working at a camp that Floodwood School athletes may attend. Only Coaches need to sign a waiver request.
2. Summer is defined as the time starting the 4th Saturday in May and ending on July 31st. With one week of no contact in July, dates for the no contact period will change from year to year but are there to provide athletes a break during the July 4th celebration.
3. DURING THE SCHOOL YEAR, COACHES MAY NOT COACH THEIR STUDENTS IN ANY CAPACITY OTHER THAN DURING THEIR RESPECTIVE SEASONS.

This handbook has been developed to align with the PBIS approach to school discipline. PBIS is a research and evidence-based multi-tiered framework used in District 698, across the state, nation and world. The framework guides schools in creating and sustaining positive, effective and culturally inclusive environments that support academic and social-emotional success for all students. The framework allows schools to continually build upon and refine systems and practices to meet the challenging needs of their school community.

Key Components of PBIS

- Identify goals and desired academic and social-emotional outcomes
- Establish and develop school-wide systems
- Select and implement evidence-based practices
- Collect and use data to guide decision making

School teams use the multi-tiered framework to design a three-tiered system of equitable support for all students. Emphasis is placed on prevention of problem behavior, development of prosocial skills, and the use of data based problem solving for addressing existing behavior concerns.

Tier 1 focus is on the prevention of problem behavior through these core practices:

1. Teach expected behaviors for school
2. Acknowledge the use of expected behaviors
3. Identify and use effective error correction
4. Collect and use data to make decisions that will improve outcomes for students

Tiers 2 & 3 add intervention and support for students who are not responding to Tier 1 Prevention.

Support

Tier 3—Intensive Individualized

Approximately 0-5% of Students Tier 3 is effective if there is progress (i.e., gap is closing, decrease in frequency, intensity, duration of behaviors that interfere with learning)

Tier 2—Supplemental/Target

Approximately 15-20% of Students Tier 2 is effective if at least 70-80% of students receiving intervention improve performance (i.e., gap is closing towards benchmark, decrease in frequency of behaviors that interfere with learning)

Tier 1—Core Instruction/Core Prevention

All Students Tier 1 is effective if 80-85% of students respond to core instruction (i.e., meet benchmark assessments with only access to the core and demonstrate school wide behavioral expectations)

I. PURPOSE

The purpose of this policy is to provide for family and medical leave to school district employees in accordance with the Family and Medical Leave Act of 1993 (FMLA).

II. GENERAL STATEMENT OF POLICY

The following procedures and policies regarding family and medical leave are adopted by the Floodwood School district, pursuant to the requirements of the FMLA.

III. DEFINITIONS

A. “Covered active duty” means:

1. in the case of a member of a regular component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country; and
2. in the case of a member of a reserve component of the Armed Forces, duty during the deployment of the member with the Armed Forces to a foreign country under a call or order to active duty under a provision of law referred to in 10 United States Code section 101(a)(13)(B).

B. “Covered servicemember” means:

1. a member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness; or
2. a covered veteran who is undergoing medical treatment, recuperation, or therapy for a serious injury or illness and who was a member of the Armed Forces, including a member of the National Guard or Reserves, and was discharged or released under conditions other than dishonorable, at any time during the period of five years preceding the first date the eligible employee takes FMLA leave to care for the covered veteran.

C. “Eligible employee” means an employee who has been employed by the school district for a total of at least 12 months and who has been employed for at least 1,250 hours of service during the 12-month period immediately preceding the commencement of the leave. An employee returning from fulfilling his or her Uniformed Services Employment and Reemployment Rights Act (USERRA)-covered service obligation shall be credited with the hours of service that would have been performed but for the period of absence from work due to or necessitated by USERRA-covered service. In determining whether the employee met the hours of service requirement, and to determine the hours that would have been worked during the period of absence from work due to or necessitated by USERRA-covered service, the employee’s pre-service work schedule can generally be used for calculations. While the 12 months of employment need not be consecutive, employment periods prior to a break in service of seven years or more may not be counted unless: (1) the break is occasioned by the employee’s fulfillment of his or her USERRA-covered service obligation; or (2) a written agreement, including a collective bargaining agreement, exists concerning the school district’s intention to rehire the employee after the break in service.

D. “Military caregiver leave” means leave taken to care for a covered servicemember with a serious injury or illness.

E. “Next of kin of a covered servicemember” means the nearest blood relative other than the covered servicemember’s spouse, parent, son, or daughter, in the following order of priority: blood relatives who have been granted legal custody of the covered servicemember by court decree or statutory provisions, brothers and sisters, grandparents, aunts and uncles, and first cousins, unless the covered servicemember has specifically designated in writing another blood relative as his or her nearest blood relative for purposes of military caregiver leave under the FMLA. When no such designation is made and there are multiple family members with the same level of relationship to the covered servicemember, all such family members shall be considered the covered servicemember’s next of kin, and the employee may take FMLA leave to provide care to the covered servicemember, either consecutively or simultaneously. When such designation has been made, the designated individual shall be deemed to be the covered servicemember’s only next of kin.

F. “Outpatient status” means, with respect to a covered servicemember who is a current member of the Armed Forces, the status of a member of the Armed Forces assigned to:

1. a military medical treatment facility as an outpatient; or
2. a unit established for the purpose of providing command and control of members of the Armed Forces receiving care as outpatients.

G. “Qualifying exigency” means a situation where the eligible employee seeks leave for one or more of the following reasons:

1. to address any issues that arise from a short-notice deployment (seven calendar days or less) of a covered military member;
2. to attend military events and related activities of a covered military member;
3. to address issues related to childcare and school activities of a covered military member’s child;
4. to address financial and legal arrangements for a covered military member;
5. to attend counseling provided by someone other than a health care provider for oneself, a covered military member, or his/her child;

6. to spend up to 15 calendar days with a covered military member who is on short-term, temporary rest and recuperation leave during a period of deployment;
7. to attend post-deployment activities related to a covered military member;
8. to address care needs of a covered military member's parent who is incapable of self-care; and
9. to address other events related to a covered military member that both the employee and school district agree is a qualifying exigency.

H. "Serious health condition" means an illness, injury, impairment, or physical or mental condition that involves:

1. inpatient care in a hospital, hospice, or residential medical care facility; or
2. continuing treatment by a health care provider.

I. "Spouse" means a husband or wife. For purposes of this definition, husband or wife refers to the other person with whom an individual entered into marriage as defined or recognized under state law for purposes of marriage in the state in which the marriage was entered into or, in the case of a marriage entered into outside of any state, if the marriage is valid in the place where entered into and could have been entered into in at least one state. This definition includes an individual in a same-sex or common law marriage that either: (1) was entered into in a state that recognizes such marriages; or (2) if entered into outside of any state, is valid in the place where entered into and could have been entered into in at least one state.

J. "Veteran" has the meaning given in 38 United States Code section 101.

IV. LEAVE ENTITLEMENT

A. Twelve-week Leave under Federal Law

1. Eligible employees are entitled to a total of 12 work weeks of unpaid family or medical leave during the applicable 12-month period as defined below, plus any additional leave as required by law. Leave may be taken for one or more of the following reasons in accordance with applicable law:
 - a. birth of the employee's child and to care for such child;
 - b. placement of an adopted or foster child with the employee;
 - c. to care for the employee's spouse, son, daughter, or parent with a serious health condition;
 - d. the employee's serious health condition makes the employee unable to perform the functions of the employee's job; and/or
 - e. any qualifying exigency arising from the employee's spouse, son, daughter, or parent being on covered active duty, or notified of an impending call or order to covered active duty in the Armed Forces.
2. For the purposes of this policy, "year" is defined as a rolling 12-month period measured backward from the date an employee's leave is to commence.
3. An employee's entitlement to FMLA leave for the birth, adoption, or foster care of a child expires at the end of the 12-month period beginning on the date of the birth or placement.
4. A "serious health condition" typically requires either inpatient care or continuing treatment by or under the supervision of a health care provider, as defined by applicable law. Family and medical leave generally is not intended to cover short-term conditions for which treatment and recovery are very brief.
5. A "serious injury or illness," in the case of a member of the Armed Forces, including a member of the National Guard or Reserves, means:
 - a. injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces or that existed before the beginning of the member's active duty and was aggravated by service in the line of duty on active duty in the Armed Forces and that may render the member medically unfit to perform the duties of the member's office, grade, rank, or rating; and
 - b. in the case of a covered veteran who was a member of the Armed Forces, including a member of the National Guard or Reserves, at any time, during the period of five years preceding the date on which the veteran undergoes the medical treatment, recuperation, or therapy, means a qualifying injury or illness that was incurred by the member in the line of duty on active duty in the Armed Forces or that existed before the beginning of the member's active duty and was aggravated by service in the line of duty in the Armed Forces and that manifested itself before or after the member became a veteran, and is:
 - (i) a continuation of a serious injury or illness that was incurred or aggravated when the covered veteran was a member of the Armed Forces and rendered the servicemember unable to perform the duties of the servicemember's office, grade, rank, or rating; or
 - (ii) a physical or mental condition for which the covered veteran has received a U.S. Department of Veterans Affairs Service-Related Disability (VASRD) rating of 50 percent or greater and such VASRD rating is based, in whole or in

part, on the condition precipitating the need for military caregiver leave; or

- (iii) a physical or mental condition that substantially impairs the covered veteran's ability to secure or follow a substantially gainful occupation by reason of a disability or disabilities related to military service, or would do so absent treatment; or
 - (iv) an injury, including a psychological injury, on the basis of which the covered veteran has been enrolled in the Department of Veterans Affairs Program of Comprehensive Assistance for Family Caregivers.
6. Eligible spouses employed by the school district are limited to an aggregate of 12 weeks of leave during any 12-month period for the birth and care of a newborn child or adoption of a child, the placement of a child for foster care, or to care for a parent. This limitation for spouses employed by the school district does not apply to leave taken: by one spouse to care for the other spouse who is seriously ill; to care for a child with a serious health condition; because of the employee's own serious health condition; or pursuant to Paragraph IV.A.1.e. above.
 7. Depending on the type of leave, intermittent or reduced schedule leave may be granted in the discretion of the school district or when medically necessary. However, part-time employees are only eligible for a pro-rata portion of leave to be used on an intermittent or reduced schedule basis, based on their average hours worked per week. Where an intermittent or reduced schedule leave is foreseeable based on planned medical treatment, the school district may transfer the employee temporarily to an available alternative position for which the employee is qualified and which better accommodates recurring periods of leave than does the employee's regular position, and which has equivalent pay and benefits.
 8. If an employee requests a leave for the serious health condition of the employee or the employee's spouse, child, or parent, the employee will be required to submit sufficient medical certification. In such a case, the employee must submit the medical certification within 15 days from the date of the request or as soon as practicable under the circumstances.
 9. If the school district has reason to doubt the validity of a health care provider's certification, it may require a second opinion at the school district's expense. If the opinions of the first and second health care providers differ, the school district may require certification from a third health care provider at the school district's expense. An employee may also be required to present a certification from a health care provider indicating that the employee is able to return to work.
 10. Requests for leave shall be made to the school district. When leave relates to an employee's spouse, son, daughter, parent, or covered servicemember being on covered active duty, or notified of an impending call or order to covered active duty pursuant to Paragraph IV.A.1.e. above, and such leave is foreseeable, the employee shall provide reasonable and practical notice to the school district of the need for leave. For all other leaves, employees must give 30 days' written notice of a leave of absence where practicable. The failure to provide the required notice may result in a delay of the requested leave. Employees are expected to make a reasonable effort to schedule leaves resulting from planned medical treatment so as not to disrupt unduly the operations of the school district, subject to and in coordination with the health care provider.
 11. The school district may require that a request for leave under Paragraph IV.A.1.e. above be supported by a copy of the covered military member's active duty orders or other documentation issued by the military indicating active duty or a call to active duty status and the dates of active duty service. In addition, the school district may require the employee to provide sufficient certification supporting the qualifying exigency for which leave is requested.
 12. During the period of a leave permitted under this policy, the school district will provide health insurance under its group health plan under the same conditions coverage would have been provided had the employee not taken the leave. The employee will be responsible for payment of the employee contribution to continue group health insurance coverage during the leave. An employee's failure to make necessary and timely contributions may result in termination of coverage. An employee who does not return to work after the leave may be required, in some situations, to reimburse the school district for the cost of the health plan premiums paid by it.
 13. The school district may request or require the employee to substitute accrued paid leave for any part of the 12-week period. Employees may be allowed to substitute paid leave for unpaid leave by meeting the requirements set out in the administrative directives and guidelines established for the implementation of this policy, if any. Employees eligible for leave must comply with the family and medical leave directives and guidelines prior to starting leave. The superintendent shall be responsible to develop directives and guidelines as necessary to implement this policy. Such directives and guidelines shall be submitted to the school board for annual review.

The school district shall comply with written notice requirements as set forth in federal regulations.
 14. Employees returning from a leave permitted under this policy are eligible for reinstatement in the same or an equivalent position as provided by law. However, the employee has no greater right to reinstatement or to other benefits and conditions of employment than if the employee had been continuously employed during the leave.

B. Twenty-six-week Servicemember Family Military Leave

1. An eligible employee who is the spouse, son, daughter, parent, or next of kin of a covered servicemember shall be entitled to a total of 26 work weeks of leave during a 12-month period to care for the servicemember. The leave described in this paragraph shall be available only during a single 12-month period. For purposes of this leave, the need to care for a servicemember includes both physical and psychological care.
2. During a single 12-month period, an employee shall be entitled to a combined total of 26 work weeks of leave under Paragraphs IV.A. and IV.C. above.

3. The 12-month period referred to in this section begins on the first day the eligible employee takes leave to care for a covered servicemember and ends 12 months after that date.
4. Eligible spouses employed by the school district are limited to an aggregate of 26 weeks of leave during any 12-month period if leave is taken for birth of the employee's child or to care for the child after birth; for placement of a child with the employee for adoption or foster care or to care for the child after placement; to care for the employee's parent with a serious health condition; or to care for a covered servicemember with a serious injury or illness.
5. The school district may request or require the employee to substitute accrued paid leave for any part of the 26-week period. Employees may be allowed to substitute paid leave for unpaid leave by meeting the requirements set out in the administrative directives and guidelines established for the implementation of this policy, if any. Employees eligible for leave must comply with the family and medical leave directives and guidelines prior to starting leave.
6. An employee will be required to submit sufficient medical certification issued by the health care provider of the covered servicemember and other information in support of requested leave and eligibility for such leave under this section within 15 days from the date of the request or as soon as practicable under the circumstances.
7. The provisions of Paragraphs IV.A.7., IV.A.10., IV.A.12., IV.A.13., and IV.A.14. above shall apply to leaves under this section.

 2. If the instructional employee begins leave for a purpose other than the employee's own serious health condition during the last five weeks of a semester, the school district may require that the leave be continued until the end of the semester if the leave will last more than two weeks or if the employee's return from leave would occur during the last two weeks of the semester.
 3. If the instructional employee begins leave for a purpose other than the employee's own serious health condition during the last three weeks of the semester and the leave will last more than five working days, school district may require the employee to continue taking leave until the end of the semester.

MROs will verify a drug test confirmed as positive, even if a driver claims to have only used non intoxicating cannabinoids or edible cannabinoid products.

H. Testing Requirements

1. Pre-Employment Testing

- a. A driver applicant shall undergo testing for [alcohol and] controlled substances, including medical cannabis, before the first time the driver performs safety-sensitive functions for the school district.
- b. Tests shall be conducted only after the applicant has received a conditional offer of employment.
- c. To be hired, the applicant must test negative and must sign an agreement in the form of Attachment B to this policy, authorizing former employers to release to the school district all information on the applicant's alcohol tests with results of blood alcohol concentration of 0.04 or higher, or verified positive results for controlled substances, including medical cannabis, or refusals to be tested (including verified adulterated or substituted drug test results), or any other violations of

DOT agency drug and alcohol testing regulations, or, if the applicant violated the testing regulations, documentation of the applicant's successful completion of DOT return-to-duty requirements (including follow-up tests), within the preceding two (2) years.

- d. The applicant also must be asked whether he or she has tested positive, or refused to test, on any pre-employment drug or alcohol test administered by an employer to which the employee, during the last two (2) years, applied for, but did not obtain, safety-sensitive transportation work covered by DOT testing rules.
- e. Before employing a driver subject to controlled substances and alcohol testing, the school district must conduct a full pre-employment query of the federal Commercial Driver's License (CDL) Drug and Alcohol Clearinghouse ("Clearinghouse") to obtain information about whether the driver (1) has a verified positive, adulterated, or substituted controlled substances test result; (2) has an alcohol confirmation test with a concentration of 0.04 or higher; (3) has refused to submit to a test in violation of federal law; or (4) that an employer has reported actual knowledge that the driver used alcohol on duty, before duty, or following an accident in violation of federal law or used a controlled substance in violation of federal law. The applicant must give specific written or electronic consent for the school district to conduct the Clearinghouse full query. (See attachment C to this policy) The school district shall retain the consent for three (3) years from the date of the query.

2. Post-Accident Testing

- a. As soon as practicable following an accident involving a CMV, the school district shall test the driver for alcohol and controlled substances, including medical cannabis, if the accident involved the loss of human life or if the driver receives a citation for a moving traffic violation arising from an accident which results in bodily injury or disabling damage to a motor vehicle.
- b. Drivers should be tested for alcohol use within two (2) hours and no later than eight (8) hours after the accident.
- c. Drivers should be tested for controlled substances, including medical cannabis, no later than thirty-two (32) hours after the accident.

- d. A driver subject to post-accident testing must remain available for testing, or shall be considered to have refused to submit to the test.
- e. If a post-accident alcohol test is not administered within two (2) hours following the accident, the school district shall prepare and maintain on file a record stating the reasons the test was not promptly administered and continue to attempt to administer the alcohol test within eight (8) hours.
- f. If a post-accident alcohol test is not administered within eight (8) hours following the accident or a post-accident controlled substances test is not administered within thirty-two (32) hours following the accident, the school district shall cease attempts to administer the test, and prepare and maintain on file a record stating the reasons for not administering the test.
- g. The school district shall report drug and alcohol program violations to the Clearinghouse as required under federal law.

3. Random Testing

- a. The school district shall conduct tests on a random basis at unannounced times throughout the year, as required by the federal regulations.
- b. The school district shall test for alcohol at a minimum annual percentage rate of 10% of the average number of driver positions, and for controlled substances, including medical cannabis, at a minimum annual percentage of 50%.
- c. The school district shall adopt a scientifically valid method for selecting drivers for testing, such as random number table or a computer-based random number generator that is matched with identifying numbers of the drivers. Each driver shall have an equal chance of being tested each time selections are made. Each driver selected for testing shall be tested during the selection period.
- d. Random tests shall be unannounced. Dates for administering random tests shall be spread reasonably throughout the calendar year.
- e. Drivers shall proceed immediately to the collection site upon notification of selection; provided, however, that if the driver is performing a safety-sensitive function, other than driving, at the time of notification, the driver shall cease to perform the function and proceed to the collection site as soon as possible.

4. Reasonable Suspicion Testing

- a. The school district shall require a driver to submit to an alcohol test and/or controlled substances, including medical cannabis, test when a supervisor or school district official, who has been trained in accordance with the regulations, has reasonable suspicion to believe that the driver has used alcohol and/or controlled substances, including medical cannabis, on duty within four (4) hours before coming on duty or just after the period of the work day. The test shall be done as soon as practicable following the observation of the behavior indicative of the use of controlled substances or alcohol.
- b. The reasonable suspicion determination must be based on specific, contemporaneous, articulable observations concerning the driver's appearance, behavior, speech, or body odors. The required observations for reasonable suspicion of a controlled substances violation may include indications of the chronic and withdrawal effects of controlled substances.
- c. Alcohol testing shall be administered within two (2) hours following a determination of reasonable suspicion. If it is not done within two (2) hours, the school district shall prepare and maintain a record explaining why it was not promptly administered and continue to attempt to administer the alcohol test within eight (8) hours. If an alcohol test is not administered within eight (8) hours following the determination of reasonable suspicion, the school district shall cease attempts to administer the test and state in the record the reasons for not administering the test.
- d. The supervisor or school district official who makes observations leading to a controlled substances reasonable suspicion test shall make and sign a written record of the observations within twenty-four (24) hours of the observed behavior or before the results of the drug test are released, whichever is earlier.

5. Return-To-Duty Testing. A driver found to have violated this policy shall not return to work until a SAP has determined the employee has successfully complied with prescribed education and/or treatment and until undergoing return-to-duty tests indicating an alcohol concentration of less than 0.02 and a confirmed negative result for the use of controlled substances. The school district is not required to return a driver to safety-sensitive duties because the driver has met these conditions; this is a personnel decision subject to collective bargaining agreements or other legal requirements.

6. Follow-Up Testing. When a SAP has determined that a driver is in need of assistance in resolving problems with alcohol and/or controlled substances, the driver shall be subject to unannounced follow-up testing as directed by the SAP for up to sixty (60) months after completing a treatment program.

7. Refusal to Submit and Attendant Consequences

- a. A driver or driver applicant may refuse to submit to drug and alcohol testing.
- b. Refusal to submit to a required drug or alcohol test subjects the driver or driver applicant to the consequences specified in federal regulations as well as the civil and/or criminal penalty provisions of 49 United States Code section 521(b). In addition, a refusal to submit to testing establishes a presumption that the driver or driver applicant would test positive if a test were conducted and makes the driver or driver applicant subject to discipline or disqualification under this policy.

- c. A driver applicant who refuses to submit to testing shall be disqualified from further consideration for the conditionally offered position.
- d. An employee who refuses to submit to testing shall not be permitted to perform safety-sensitive functions and will be considered insubordinate and subject to disciplinary action, up to and including dismissal. If an employee is offered an opportunity to return to a DOT safety-sensitive duty, the employee will be evaluated by a SAP and must submit to a return-to-duty test prior to being considered for reassignment to safety-sensitive functions.
- e. Drivers or driver applicants who refuse to submit to required testing will be required to sign Attachment C to this policy.

I. Testing Procedures

1. Drug Testing

- a. Drug testing is conducted by analyzing a donor's urine specimen. Split urine samples will be collected in accordance with federal regulations. The donor will provide a urine sample at a designated collection site. The collection site personnel will then pour the sample into two sample bottles, labeled "primary" and "split," seal the specimen bottles, complete the chain of custody form, and prepare the specimen bottles for shipment to the testing laboratory for analysis. The specimen preparation shall be conducted in sight of the donor.
- b. If the donor is unable to provide the appropriate quantity of urine, the collection site person shall instruct the individual to drink up to forty (40) ounces of fluid distributed reasonably through a period of up to three (3) hours to attempt to provide a sample. If the individual is still unable to provide a complete sample, the test shall be discontinued and the school district notified. The DER shall refer the donor for a medical evaluation to determine if the donor's inability to provide a specimen is genuine or constitutes a refusal to test. For pre-employment testing, the school district may elect to not have a referral made, and revoke the employment offer.
- c. Drug test results are reported directly to the MRO by the testing laboratory. The MRO reports the results to the DER. If the results are negative, the school district is informed and no further action is necessary. If the test result is confirmed positive, adulterated, substituted, or invalid, the MRO shall give the donor an opportunity to discuss the test result. The MRO will contact the donor directly, on a confidential basis, to determine whether the donor wishes to discuss the test result. The MRO shall notify each donor that the donor has seventy-two (72) hours from the time of notification in which to request a test of the split specimen at the donor's expense. No split specimen testing is done for an invalid result.
- d. If the donor requests an analysis of the split specimen within seventy-two (72) hours of having been informed of a confirmed positive test, the MRO shall direct, in writing, the laboratory to provide the split specimen to another Department of Health and Human Services – SAMHSA certified laboratory for analysis. If the donor has not contacted the MRO within seventy-two (72) hours, the donor may present the MRO information documenting that serious illness, injury, inability to contact the MRO, lack of actual notice of the confirmed positive test, or other circumstances unavoidably prevented the donor from timely making contact. If the MRO concludes that a legitimate explanation for the donor's failure to contact him/her within seventy-two (72) hours exists, the MRO shall direct the analysis of the split specimen. The MRO will review the confirmed positive test result to determine whether an acceptable medical reason for the positive result. The MRO shall confirm and report a positive test result to the DER and the employee when no legitimate medical reason for a positive test result as received from the testing laboratory exists.

If, after making reasonable efforts and documenting those efforts, the MRO is unable to reach the donor directly, the MRO must contact the DER who will direct the donor to contact the MRO. If the DER is unable to contact the donor, the donor will be suspended from performing safety-sensitive functions.

- f. The MRO may confirm the test as a positive without having communicated directly with the donor about the test results under the following circumstances:
 - (1) The donor expressly declines the opportunity to discuss the test results;
 - (2) The donor has not contacted the MRO within seventy-two (72) hours of being instructed to do so by the DER; or
 - (3) The MRO and the DER, after making and documenting all reasonable efforts, have not been able to contact the donor with ten (10) days of the date the confirmed test result was received from the laboratory.

2. Alcohol Testing

- a. The federal alcohol testing regulations require testing to be administered by a BAT using an Evidential Breath Testing Device (EBT) or a STT using an (ASD). EBTs and ASDs can be used for screening tests but only EBTs can be used for confirmation tests.
- b. Any test result less than 0.02 alcohol concentration is considered a "negative" test.
- a. If the donor is unable to provide sufficient saliva for an ASD, the DER will immediately arrange to use an Evidential Breath Testing Device. If the donor attempts and fails to provide an adequate amount of breath, the school district will direct the donor to obtain a written evaluation from a licensed physician to determine if the donor's inability to provide a breath sample is genuine or constitutes a refusal to test.
- d. If the screening test results show alcohol concentration of 0.02 or higher, a confirmatory test conducted on an EBT will be required to be performed between fifteen (15) and thirty (30) minutes after the completion of the screening test.
- e. Alcohol tests are reported directly to the DER.

J. Driver/Driver Applicant Rights

1. All drivers and driver applicants subject to the controlled substances testing provisions of this policy who receive a confirmed positive test result for the use of controlled substances have the right to request, at the driver's or driver applicant's expense, a confirming retest of the split urine sample. If the confirming retest is negative, no adverse action will be taken against the driver, and a driver applicant will be considered for employment.
2. The school district will not discharge a driver who, for the first time, receives a confirmed positive drug or alcohol test UNLESS:
 - a. The school district has first given the employee an opportunity to participate in, at the employee's own expense or pursuant to coverage under an employee benefit plan, either a drug or alcohol counseling or rehabilitation program, whichever is more appropriate, as determined by the school district after consultation with the SAP; and
 - b. The employee refuses to participate in the recommended program, or fails to successfully complete the program as evidenced by withdrawal before its completion or by a positive test result on a confirmatory test after completion of the program.
 - c. This limitation on employee discharge does not bar discharge of an employee for reasons independent of the first confirmed positive test result.

K. Testing Laboratory

The testing laboratory for controlled substances will be MacNeil Environmental, PO Box 2278, Burnsville, MN 55337-8868, 1-800-642-6730, which is a laboratory certified by the Department of Health and Human Services – SAMHSA to perform controlled substances testing pursuant to federal regulations.

L. Confidentiality of Test Results

All alcohol and controlled substances test results and required records of the drug and alcohol testing program are considered confidential information under federal law and private data on individuals as that phrase is defined in Minnesota Statutes chapter 13. Any information concerning the individual's test results and records shall not be released without written permission of the individual, except as provided for by regulation or law.

M. Recordkeeping Requirements and Retention of Records

1. The school district shall keep and maintain records in accordance with the federal regulations in a secure location with controlled access.
2. The required records shall be retained for the following minimum periods:

Basic records	5 years
---------------	---------

"Basic records" includes records of: (a) alcohol test results with concentration of 0.02 or greater; (b) verified positive drug test results; (c) refusals to submit to required tests (including substituted or adulterated drug test results); (d) SAP reports; (e) all follow-up tests and schedules for follow-up tests; (f) calibration documentation; (g) administration of the testing programs; and (h) each annual calendar year summary.

Information obtained from previous employers	3 years
Alcohol and controlled substance collection procedures	2 years
Negative and canceled controlled substances tests	1 year
Alcohol tests with less than 0.02 concentration	1 year
Education and training records	indefinite

"Education and training records" must be maintained while the individuals perform the functions which require training and for the two (2) years after ceasing to perform those functions.

3. Personal Information

Personal information about all individuals who undergo any required testing under this policy will be shared with the U.S. DOT Drug & Alcohol Clearinghouse ("Clearinghouse") as required under federal law, including:

- a. The name of the person tested;
- b. Any verified positive, adulterated, or substituted drug test result;
- c. Any alcohol confirmation test with a BAC concentration of 0.04 or higher;
- d. Any refusal to submit to any test required hereunder;

- e. Any report by a supervisor of actual knowledge of use as follows
 - i. Any on-duty alcohol use;
 - ii. Any pre-duty alcohol use;
 - iii. Any alcohol use following an accident; and
 - iv. Any controlled substance use.
- f. Any report from a substance abuse professional certifying successful completion of the return-to-work process;
- g. Any negative return-to-duty test; and
- h. Any employer's report of completion of follow-up testing.

N. Training

The school district shall ensure all persons designated to supervise drivers receive training. The designated employees shall receive at least sixty (60) minutes of training on alcohol misuse and at least sixty (60) minutes of training on controlled substances use. The training shall include physical, behavioral, speech, and performance indicators of probable misuse of alcohol and use of controlled substances. The training will be used by the supervisors to make determinations of reasonable suspicion.

O. Consequences of Prohibited Conduct and Enforcement

1. Removal.

The school district shall remove a driver who has engaged in prohibited conduct from safety-sensitive functions. A driver shall not be permitted to return to safety-sensitive functions until and unless the return-to-duty requirements of federal DOT regulations have been completed.

2. Referral, Evaluation, and Treatment

- a. A driver or driver applicant who has engaged in prohibited conduct shall be provided a listing of SAPs readily available to the driver or applicant and acceptable to the school district.
- b. If the school district offers a driver an opportunity to return to a DOT safety-sensitive duty following a violation, the driver must be evaluated by a SAP and the driver is required to successfully comply with the SAP's evaluation recommendations (education, treatment, follow-up evaluation(s), and/or ongoing services). The school district is not required to provide a SAP evaluation or any subsequent recommended education or treatment.
- c. Drivers are responsible for payment for SAP evaluations and services unless a collective bargaining agreement or employee benefit plan provides otherwise.
- d. Drivers who engage in prohibited conduct also are required to comply with follow-up testing requirements.

3. Disciplinary Action

- a. Any driver who refuses to submit to post-accident, random, reasonable suspicion, or follow-up testing not only shall not perform or continue to perform safety-sensitive functions, but also may be subject to disciplinary action, which may include immediate suspension without pay and/or immediate discharge.
- b. Drivers who test positive with verification of a confirmatory test or are otherwise found to be in violation of this policy or the federal regulations shall be subject to disciplinary action, which may include immediate suspension without pay and/or immediate discharge.
- c. Nothing in this policy limits or restricts the right of the school district to discipline or discharge a driver for conduct which not only constitutes prohibited conduct under this policy but also violates the school district's other rules or policies.

P. Other Testing

The school district may request or require that drivers submit to cannabis testing or drug and alcohol testing other than that required by federal law. For example, drivers may be requested or required to undergo cannabis testing or drug and alcohol testing on an annual basis as part of a routine physical examination. Such additional testing of drivers will be conducted only in accordance with the provisions of this policy and as provided in Minnesota Statutes sections 181.950-181.957. For purposes of such additional, non-mandatory testing, drivers fall within the definition of "other employees" covered by Section IV. of this policy.

Q. Report to Clearinghouse

The school district shall promptly submit to the Clearinghouse any record generated of an individual who refuses to take an alcohol or controlled substance test required under Title 49, Code of Federal Regulations, tests positive for alcohol or a controlled substance in violation of federal regulations, or violates subpart B of Part 382 of Title 49, Code of Federal Regulations (or any subsequent corresponding regulations).

R. Annual Clearinghouse Query

1. The school district must conduct a query of the Clearinghouse record at least once per year for information for all employees subject to controlled substance and alcohol testing related to CMV operation to determine whether information exists in the Clearinghouse about those employees. In lieu of a full query, the school district may obtain the individual driver's consent to conduct a limited query to satisfy the annual query requirement. The limited query will tell the employer whether there is information about the driver in the Clearinghouse but will not release that information to the employer. If the limited query shows that information exists in the Clearinghouse about the driver, the school district must conduct a full query within twenty-four (24) hours or must not allow the driver to continue to perform any safety-sensitive function until the employee conducts the full query and the results confirm the driver's Clearinghouse record contains no prohibitions showing the driver has a verified positive, adulterated or substitute controlled substance test, no alcohol confirmation test with a concentration of 0.04 or higher, refuses to submit to a test, or was reported to have used alcohol on duty, before duty, following an accident or otherwise used a controlled substance in violation of the regulations except where the driver completed the SAP evaluation, referral and education/treatment process as required by the regulations. The school district shall comply with the query requirements set forth in 49 Code of Federal Regulations 382.701.
2. The school district may not access an individual's Clearinghouse record unless the school district (1) obtains the individual's prior written or electronic consent for access to the record; and (2) submits proof of the individual's consent to the Clearinghouse. The school district must retain the consent for three (3) years from the date of the last query. The school district shall retain for three (3) years a record of each request for records from the Clearinghouse and the information received pursuant to the request.
3. The school district shall protect the individual's privacy and confidentiality of each Clearinghouse record it receives. The school district shall ensure that information contained in a Clearinghouse record is not divulged to a person or entity not directly involved in assessing and evaluating whether a prohibition applies with respect to the individual to operate a CMV for the school district.
4. The school district may use an individual's Clearinghouse record only to assess and evaluate whether a prohibition applies with respect to the individual to operate a CMV for the school district.

IV. CANNABIS TESTING OR DRUG AND ALCOHOL TESTING FOR OTHER EMPLOYEES

The school district may request or require drug and alcohol testing or cannabis testing for other school district personnel, i.e., employees who are not school bus drivers, or job applicants for such positions. The school district does not have a legal duty to request or require any employee or job applicant to undergo drug and alcohol testing or cannabis testing as authorized in this policy, except for school bus drivers and other drivers of CMV who are subject to federally mandated testing. (See Section III. of this policy.) If a school bus driver is requested or required to submit to drug or alcohol testing beyond that mandated by federal law, the provisions of Section IV. of this policy will be applicable to such testing.

A. Definitions

1. "Cannabis testing" means the analysis of a body component sample according to the standards established under one of the programs listed in Minnesota Statutes, section 181.953, subdivision 1, for the purpose of measuring the presence or absence of cannabis flower, as defined in Minnesota Statutes, section 342.01, subdivision 16, cannabis products, as defined in section 342.01, subdivision 20, lower-potency hemp edibles as defined in section 342.01, subdivision 50, hemp-derived consumer products as defined in section 342.01, subdivision 37, or cannabis metabolites in the sample tested. The definitions in this section apply to cannabis testing unless stated otherwise.
2. "Confirmatory test" and "confirmatory retest" mean a drug or alcohol test that uses a method of analysis allowed under one of the programs listed in Minnesota Statutes, section 181.953, subdivision 1.
3. "Drug" means a controlled substance as defined in Minnesota Statutes, section 152.01, subdivision 4, but does not include marijuana, tetrahydrocannabinols, cannabis flower as defined in section 342.01, subdivision 16, cannabis products as defined in section 342.01, subdivision 20, lower-potency hemp edibles as defined in section 342.01, subdivision 50, and hemp-derived consumer products as defined in section 342.01, subdivision 37.
4. "Drug and Alcohol Testing," "Drug or Alcohol Testing," and "Drug or Alcohol Test" mean analysis of a body component sample by a testing laboratory that meets one of the criteria listed in Minnesota Statutes, section 181.953, subdivision 1, for the purpose of measuring the presence or absence of drugs, alcohol, or their metabolites in the sample tested. "Drug and alcohol testing," "drug or alcohol testing," and "drug or alcohol test" do not include cannabis or cannabis testing, unless stated otherwise.
5. "Employee" means a person, independent contractor, or person working for an independent contractor who performs services for compensation, in whatever form, for an employer.
6. "Initial screening test" means a drug or alcohol test or cannabis test which uses a method of analysis under one of the programs listed in Minnesota Statutes, section 181.953, subdivision 1.
7. "Job Applicant" means a person, independent contractor, or person working for an independent contractor who applies to become an employee of the charter school in a position that does not require a commercial driver's license, and includes a person who has received a job offer made contingent on the person's passing drug or alcohol testing. Job applicants for positions requiring a commercial driver's license are governed by the provisions of the charter school's drug and alcohol testing policy relating to school bus drivers (Section III.).

8. "Oral fluid test" means analysis of a saliva sample for the purpose of measuring the presence of the same substances as drug and alcohol testing and cannabis testing that:
- can detect drugs, alcohol, cannabis, or their metabolites in levels at or above the threshold detection levels contained in the standards of one of the programs listed in Minnesota Statutes, section 181.953, subdivision 1; and
 - does not require the services of a testing laboratory under section 181.953, subdivision 1.
9. "Other Employees" means any persons, independent contractors, or persons working for an independent contractor who perform services for the charter school for compensation, either full time or part time, in whatever form, except for persons whose positions require a commercial driver's license, and includes both professional and nonprofessional personnel. Persons whose positions require a commercial driver's license are primarily governed by the provisions of the charter school's drug and alcohol testing policy relating to school bus drivers (Section III.). To the extent that the drug and alcohol testing of persons whose positions require a commercial driver's license is not mandated by federal law and regulations, such testing shall be governed by Section IV. of this policy and the drivers shall fall within this definition of "other employees."
10. "Positive Test Result" means a finding of the presence of drugs, alcohol, or their metabolites in the sample tested in levels at or above the threshold detection levels contained in the standards of one of the programs listed in Minnesota Statutes, section 181.953, subdivision 1.
11. "Random Selection Basis" means a mechanism for selection of employees that:
- results in an equal probability that any employee from a group of employees subject to the selection mechanism will be selected; and
 - does not give the charter school discretion to waive the selection of any employee selected under the mechanism.
12. "Reasonable Suspicion" means a basis for forming a belief based on specific facts and rational inferences drawn from those facts.
13. "Safety-Sensitive Position" means a job, including any supervisory or management position, in which an impairment caused by drug, alcohol, or cannabis usage would threaten the health or safety of any person.

B. Circumstances Under Which Cannabis testing or Drug or Alcohol Testing May Be Requested or Required; Exceptions

1. General Limitations

- The school district may not request or require an employee or job applicant whose position does not require a commercial driver's license to undergo drug or alcohol testing or cannabis testing, unless the testing is done pursuant to this policy; and is either (1) conducted by a testing laboratory which participates in one of the programs listed in Minnesota Statutes section 181.953, Subdivision 1; or (2) complies with the oral fluid test procedures under section 181.953, subdivision 5a.
- The school district will not request or require an employee or job applicant whose position does not require a commercial driver's license to undergo drug and alcohol testing or cannabis testing on an arbitrary and capricious basis.

2. Cannabis Testing Exceptions

For the following positions, cannabis and its metabolites are considered a drug and subject to the drug and alcohol testing provisions in Minnesota Statutes, sections 181.950 to 181.957:

- a safety-sensitive position, as defined in Minnesota Statutes, section 181.950, subdivision 13;
- a position requiring face-to-face care, training, education, supervision, counseling, consultation, or medical assistance to children;
- a position requiring a commercial driver's license or requiring an employee to operate a motor vehicle for which state or federal law requires drug or alcohol testing of a job applicant or an employee;
- a position of employment funded by a federal grant; or
- any other position for which state or federal law requires testing of a job applicant or an employee for cannabis.

3. Job Applicant Testing

The school district may request or require any job applicant whose position does not require a commercial driver's license to undergo drug and alcohol testing, provided a job offer has been made to the applicant and the same test is requested or required of all job applicants conditionally

offered employment for that position. If a job applicant has received a job offer that is contingent on the applicant's passing drug and alcohol testing, the school district may not withdraw the offer based on a positive test result from an initial screening test that has not been verified by a confirmatory test. In the event the job offer is subsequently withdrawn, the school district shall notify the job applicant of the reason for its action.

- a. The school district must not request or require a job applicant to undergo cannabis testing solely for the purpose of determining the presence or absence of cannabis as a condition of employment unless otherwise required by state or federal law.
- b. Unless otherwise required by state or federal law, the school district must not refuse to hire a job applicant solely because the job applicant submits to a cannabis test or a drug and alcohol test authorized by Minnesota law and the results of the test indicate the presence of cannabis.
- c. The school district must not request or require an employee or job applicant to undergo cannabis testing on an arbitrary or capricious basis.
- d. Cannabis testing authorized under paragraph (d) must comply with the safeguards for testing employees provided in Minnesota Statutes, sections 181.953 and 181.954.

4. Oral fluid testing

- a. When drug and alcohol testing or cannabis testing is otherwise authorized under Minnesota Statutes, section 181.951, the school district may request an employee or job applicant to undergo oral fluid testing according to the procedures under Minnesota Statutes, section 181.953, subdivision 5a as an alternative to using the services of a testing laboratory under Minnesota Statutes, section 181.953, subdivision 1.
- b. The employee must be informed of the test result at the time of the oral fluid test. Within 48 hours of an oral fluid test that indicates a positive test result or that is inconclusive or invalid, the employee or job applicant may request drug or alcohol testing or cannabis testing at no cost to the employee or job applicant using the services of a testing laboratory under Minnesota Statutes, section 181.953, subdivision 1, and according to the existing laboratory testing standards in subdivisions 1 to 5. The rights, notice, and limitations in Minnesota Statutes, section 181.953, subdivision 6, paragraph (b), and subdivisions 7 to 8 and 10 to 11 apply to an employee or job applicant and a laboratory test conducted pursuant to this paragraph.
- c. If the laboratory test under paragraph (b) above indicates a positive result, any subsequent confirmatory retest, if requested by the employee or job applicant, must be conducted following the retest procedures provided in Minnesota Statutes, section 181.953, subdivision 6, paragraph (c), and subdivision 9 at the employee's or job applicant's own expense.
- d. Nothing in this subdivision is intended to modify the existing requirements for drug and alcohol testing or cannabis testing in the workplace under Minnesota Statutes, sections 181.950 to 18.957, unless stated otherwise.

5. Random Testing

The school district may request or require "other employees" to undergo cannabis testing or drug and alcohol testing on a random selection basis only if they are employed in safety-sensitive positions.

6. Reasonable Suspicion Testing

The school district may request or require any employee to undergo cannabis testing or drug and alcohol testing if the school district has a reasonable suspicion that the employee:

- a. is under the influence of cannabis, drugs or alcohol;
- b. has violated the school district's written work rules prohibiting the use, possession, sale, or transfer of drugs or alcohol, cannabis flower, cannabis products, lower-potency hemp edibles, or hemp derived consumer products while the employee is working or while the employee is on the school district's premises or operating the school district's vehicles, machinery, or equipment;
- c. has sustained a personal injury, as that term is defined in Minnesota Statutes section 176.011, Subdivision 16, or has caused another employee to sustain a personal injury; or
- d. has caused a work-related accident or was operating or helping to operate machinery, equipment, or vehicles involved in a work-related accident.

7. Treatment Program Testing

The school district may request or require any employee to undergo cannabis testing drug and alcohol testing if the employee has been referred by the school district for chemical dependency treatment or evaluation or is participating in a chemical dependency treatment program under an employee benefit plan, in which case the employee may be requested or required to undergo cannabis testing and drug and alcohol testing without prior notice during the evaluation or treatment period and for a period of up to two (2) years following completion of any prescribed chemical dependency treatment program.

8. Routine Physical Examination Testing

- d. Use of nonintoxicating cannabinoids or edible cannabinoid products is not a legitimate medical explanation for a confirmed positive test result for cannabis. MROs will verify a drug test confirmed as positive, even if an employee claims to have only used nonintoxicating cannabinoids or edible cannabinoid products.
- e. Within three (3) working days after notice of a positive test result on a confirmatory test, an employee or job applicant may submit information (in addition to any information already submitted) to the school district to explain that result.

The original testing laboratory shall ensure that appropriate chain-of-custody procedures are followed during transfer of the sample to the other laboratory. The confirmatory retest must use the same drug, alcohol, or cannabis threshold detection levels as used in the original confirmatory test. If the confirmatory retest does not confirm the original positive test result, no adverse personnel action based on the original confirmatory test may be taken against the employee or job applicant.
6. If an employee or job applicant has a positive test result on a confirmatory test, the school district, at the time of providing notice of the test results, shall also provide written notice to inform the individual of other rights provided under Sections F. or G., below, whichever is applicable.

3. The school district may not discharge an employee for whom a positive test result on a confirmatory test was the first such result for the employee on a drug or alcohol test or cannabis test requested by the school district, unless the following conditions have been met:
 - a. The school district has first given the employee an opportunity to participate in, at the employee's own expense or pursuant to coverage under an employee benefit plan, either a drug, alcohol, or cannabis counseling or rehabilitation program, whichever is more appropriate, as determined by the school district after consultation with a certified chemical abuse counselor or a physician trained in the diagnosis and treatment of chemical dependency; and

An employee who has been suspended without pay must be reinstated with back pay if the outcome of the confirmatory test or requested confirmatory retest is negative.
5. The school district may not discharge, discipline, discriminate against, request, or require rehabilitation of an employee on the basis of medical history information or the employee's status as a patient enrolled in the medical cannabis registry program revealed to the school district, unless the employee was under an affirmative duty to provide the information before, upon or after hire, or failing to do so would violate federal law or regulations or cause the school district to lose money or licensing-related benefits under federal law regulations.
6. The school district may not discriminate against any employee in termination, discharge, or any term of condition of employment or otherwise penalize an employee based upon an employee registered patient's positive drug test for cannabis components or metabolites, unless the employee used, possessed, or was impaired by medical cannabis on school district property during the hours of employment.

In the case of a positive test result on a confirmatory test, the school district may withdraw the job offer.

H. Chain-of-Custody Procedures

The school district has established its own reliable chain-of-custody procedures to ensure proper record keeping, handling, labeling, and identification of the samples to be tested. The procedures require the following:

1. Possession of a sample must be traceable to the employee from whom the sample is collected, from the time the sample is collected through the time the sample is delivered to the laboratory;
2. The sample must always be in the possession of, must always be in view of, or must be placed in

a secure area by a person authorized to handle the sample;

3. A sample must be accompanied by a written chain-of-custody record; and
4. Individuals relinquishing or accepting possession of the sample must record the time the possession of the sample was transferred and must sign and date the chain-of-custody record at the time of transfer.

I. Privacy, Confidentiality and Privilege Safeguards

1. Privacy Limitations

A laboratory may only disclose to the school district test result data regarding the presence or absence of drugs, alcohol or their metabolites in a sample tested.

2. Confidentiality Limitations

With respect to employees and job applicants, test result reports and other information acquired in the drug or alcohol testing process are private data on individuals as that phrase is defined in Minnesota Statutes chapter 13, and may not be disclosed by the school district or laboratory to another employer or to a third-party individual, governmental agency, or private organization without the written consent of the employee or job applicant tested.

3. Exceptions to Privacy and Confidentiality Disclosure Limitations

Notwithstanding Paragraphs 1. And 2., evidence of a positive test result on a confirmatory test may be: (1) used in an arbitration proceeding pursuant to a collective bargaining agreement, an administrative hearing under Minnesota Statutes Chapter 43A or other applicable state or local law, or a judicial proceeding, provided that information is relevant to the hearing or proceeding; (2) disclosed to any federal agency or other unit of the United States government as required under federal law, regulation or order, or in accordance with compliance requirements of a federal government contract; and (3) disclosed to a substance abuse treatment facility for the purpose of evaluation or treatment of the employee.

4. Privilege

Positive test results from the school district drug or alcohol testing program may not be used as evidence in a criminal action against the employee or job applicant tested.

J. Notice of Testing Policy to Affected Employees

The school district shall provide written notice of this drug, alcohol, or cannabis testing policy to all affected employees upon adoption of the policy, to a previously non-affected employee upon transfer to an affected position under the policy, and to a job applicant upon hire and before any testing of the applicant if the job offer is made contingent on the applicant's passing drug and alcohol testing. Affected employees and applicants will acknowledge receipt of this written notice in the form of Attachment G to this policy.

V. **POSTING**

Chemical use and abuse also creates significant problems for society in general. The school board believes that the public school has a role in education, intervention, and prevention of chemical use and abuse. The purpose of this policy is to assist the school district in its goal to prevent chemical use and abuse by providing procedures for education and intervention.

514 BULLYING PROHIBITION POLICY

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The

Floodwood School district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited:
1. on the school premises, at the school functions or activities, on the school transportation;
 2. by the use of electronic technology and communications on the school premises, during the school functions or activities, on the school transportation, or on the school computers, networks, forums, and mailing lists; or
 3. by use of electronic technology and communications off the school premises to the extent such use substantially and materially disrupts student learning or the school environment.
- B. A school-aged child who voluntarily participates in a public school activity, such as a cocurricular or extracurricular activity, is subject to the policy provisions applicable to the public school students participating in the activity.
- C. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources. This policy also applies to sexual exploitation.
- D. Malicious and sadistic conduct involving race, color, creed, national origin, sex, age, marital status, status with regard to public assistance, disability, religion, sexual harassment, and sexual orientation and gender identity as defined in Minnesota Statutes, chapter 363A is prohibited. This prohibition applies to students, independent contractors, teachers, administrators, and other school personnel.
- Malicious and sadistic conduct and sexual exploitation by a school district or school staff member, independent contractor, or enrolled student against a staff member, independent contractor, or student that occurs as described in Article II.A above is prohibited.
- E. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
- F. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- G. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- H. False accusations or reports of bullying against another student are prohibited.
- I. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:
1. The developmental ages and maturity levels of the parties involved;
 2. The levels of harm, surrounding circumstances, and nature of the behavior;
 3. Past incidences or past or continuing patterns of behavior;
 4. The relationship between the parties involved; and
 5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

- J. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

- A. “Bullying” means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:

- C. “Immediately” means as soon as possible but in no event longer than 24 hours.
- D. “Intimidating, threatening, abusive, or harming conduct” means, but is not limited to, conduct that does the following:
1. Causes physical harm to a student or a student’s property or causes a student to be in reasonable fear of harm to person or property;

However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.
- E. “Malicious and sadistic conduct” means creating a hostile learning environment by acting with the intent to cause harm by intentionally injuring another without just cause or reason or engaging in extreme or excessive cruelty or delighting in cruelty.

School district property also may mean a student’s walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.
- G. “Prohibited conduct” means bullying, cyberbullying, malicious and sadistic conduct, sexual exploitation, or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about prohibited conduct.

- I. “Student” means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

- A. Any person who believes they have been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.
- C. The building principal, the principal’s designee, or the building supervisor (hereinafter the “building report taker”) is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

- D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three school days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See MSBA/MASA Model Policy 506) and other applicable school district policies; and applicable regulations.
- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. Consistent with its applicable policies and practices, the school district must discuss this policy with students, school personnel and volunteers and provide appropriate training for all school district personnel to prevent, identify, and respond to prohibited conduct. The school district must establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.
- B. The school district shall require ongoing professional development, consistent with Minnesota Statutes section 122A.60, to build the skills of all

school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:

1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 4. The incidence and nature of cyberbullying; and
 5. Internet safety and cyberbullying.
- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment;
 2. Partner with parents and other community members to develop and implement prevention and intervention programs;
 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
 5. Teach students to advocate for themselves and others;
 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
- G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See MSBA/MASA Model Policy 515) in the student handbook.

VIII. NOTICE

- A. The school district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.
- B. Article II, paragraph D, regarding malicious and sadistic conduct must be conspicuously posted throughout each school building.
- C. This policy shall be conspicuously posted in the administrative offices of the school and school district in summary form.
- D. This policy must be distributed to each school district or school employee and independent contractor, if the contractor regularly interacts with students, at the time of employment with the district or the school.
- E. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See MSBA/MASA Model Policy 506) distributed to parents at the beginning of each school year.
- F. This policy shall be available to all parents and other school community members in an electronic format in the languages appearing on the school district's or a school's website consistent with the district policies or practices.

G. The school district shall provide an electronic copy of its most recently amended policy to the Commissioner of Education.

IX. POLICY REVIEW

To the extent practicable, the school board shall, on a cycle consistent with other school district policies, review and revise this policy. The policy shall be made consistent with Minnesota Statutes, sections 121A.031 and 121A.0312 and other applicable law. Revisions shall be made in consultation with students, parents, and community organizations.

I. PURPOSE

The purpose of this policy is to protect students with disabilities from discrimination on the basis of disability and to identify and evaluate learners who, within the intent of Section 504 of the Rehabilitation Act of 1973 (Section 504), need services, accommodations, or programs in order that such learners may receive a free appropriate public education.

II. GENERAL STATEMENT OF POLICY

- A. Students with disabilities who meet the criteria of Paragraph C. below are protected from discrimination on the basis of a disability.
- B. The responsibility of the Floodwood School district is to identify and evaluate learners who, within the intent of Section 504, need services, accommodations, or programs in order that such learners may receive a free appropriate public education.
- C. For this policy, a learner who is protected under Section 504 is one who:

1. has a physical or mental impairment that substantially limits one or more of such person's major life activities; or
 2. has a record of such an impairment; or
 3. is regarded as having such an impairment.
 4. has an impairment that is episodic or in remission and would materially limit a major life activity when active.
- D. Learners may be protected from disability discrimination and be eligible for services, accommodations, or programs under the provisions of Section 504 even though they are not eligible for special education pursuant to the Individuals with Disabilities Education Act.

III. COORDINATOR

APPENDIX P PROCESS

522 TITLE IX SEX NONDISCRIMINATION POLICY, GRIEVANCE PROCEDURE AND

I. GENERAL STATEMENT OF POLICY

- A. The school district does not discriminate on the basis of sex in its education programs or activities, and it is required by Title IX of the Education Amendments Act of 1972, and its implementing regulations, not to discriminate in such a manner. The requirement not to discriminate in its education program or activity extends to admission and employment. The school district is committed to maintaining an education and work environment that is free from discrimination based on sex, including sexual harassment.
- B. The school district prohibits sexual harassment that occurs within its education programs and activities. When the school district has actual knowledge of sexual harassment in its education program or activity against a person in the United States, it shall promptly respond in a manner that is not deliberately indifferent.
- C. This policy applies to sexual harassment that occurs within the school district's education programs and activities and that is committed by a school district employee, student, or other members of the school community. This policy does not apply to sexual harassment that occurs off school grounds, in a private setting, and outside the scope of the school district's education programs and activities. This policy does not apply to sexual harassment that occurs outside the geographic boundaries of the United States, even if the sexual harassment

occurs in the school district's education programs or activities.

- D. Any student, parent, or guardian having questions regarding the application of Title IX and its regulations and/or this policy and grievance process should discuss them with the Title IX Coordinator. The school district's Title IX Coordinator(s) is/are:

Frank Bartsch, Activities Director, Floodwood School, 115 West 4th Ave, Floodwood, MN 55736 218-476-2285.

Questions relating solely to Title IX and its regulations may be referred to the Title IX Coordinator(s), the Assistant Secretary for Civil Rights of the United States Department of Education, or both.

- E. The effective date of this policy is August 14, 2020, and applies to alleged violations of this policy occurring on or after August 14, 2020.

II. DEFINITIONS

- A. "Actual knowledge" means notice of sexual harassment or allegations of sexual harassment to the school district's Title IX Coordinator or to any employee of the school district. Imputation of knowledge based solely on vicarious liability or constructive notice is insufficient to constitute actual knowledge. This standard is not met when the only official of the school district with actual knowledge is the respondent.
- B. "Complainant" means a person who is alleged to be the victim of conduct that could constitute sexual harassment under Title IX. A Title IX Coordinator who signs a formal complaint is not a complainant unless the Title IX Coordinator is alleged to be the victim of the conduct described in the formal complaint.
- C. "Day" or "days" means, unless expressly stated otherwise, business days (i.e. day(s) that the school district office is open for normal operating hours, Monday - Friday, excluding State-recognized holidays).
- D. "Deliberately indifferent" means clearly unreasonable in light of the known circumstances. The school district is deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances.
- E. "Education program or activity" means locations, events, or circumstances for which the school district exercises substantial control over both the respondent and the context in which the sexual harassment occurs and includes school district education programs or activities that occur on or off of school district property.
- F. "Formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the school district investigate the allegation of sexual harassment.
1. A formal complaint filed by a complainant must be a physical document or an electronic submission. The formal complaint must contain the complainant's physical or digital signature, or otherwise indicate that the complainant is the person filing the formal complaint, and must be submitted to the Title IX Coordinator in person, by mail, or by email.
 2. A formal complaint shall state that, at the time of filing the formal complaint, the complainant was participating in, or attempting to participate in, an education program or activity of the school district with which the formal complaint is filed.
- G. "Informal resolution" means options for resolving a formal complaint that do not involve a full investigation and adjudication. Informal resolution may encompass a broad range of conflict resolution strategies, including mediation or restorative justice.
- H. "Relevant questions" and "relevant evidence" are questions, documents, statements, or information that are related to the allegations raised in a formal complaint. Relevant evidence includes evidence that is both inculpatory and exculpatory. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.
- I. "Remedies" means actions designed to restore or preserve the complainant's equal access to education after a respondent is found responsible. Remedies may include the same individualized services that constitute supportive measures, but need not be non-punitive or non-disciplinary, nor must they avoid burdening the respondent.
- J. "Respondent" means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment under Title IX.
- K. "Sexual harassment" means any of three types of misconduct on the basis of sex that occurs in a school district education program or activity and is committed against a person in the United States:
1. Quid pro quo harassment by a school district employee (conditioning the provision of an aid, benefit, or service of the school district on an individual's participation in unwelcome sexual conduct);
 2. Unwelcome conduct that a reasonable person would find so severe, pervasive, and objectively offensive that it denies a person equal educational access; or

3. Any instance of sexual assault (as defined in the Clery Act, 20 United States Code, section 1092(f)(6)(A)(v)), dating violence, domestic violence, or stalking (as defined in the Violence Against Women Act, 34 United States Code, section 12291).
- L. “Supportive measures” means individualized services provided to the complainant or respondent without fee or charge that are reasonably available, non-punitive, non-disciplinary, not unreasonably burdensome to the other party, and designed to ensure equal educational access, protect safety, and deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, alternative educational services as defined under Minnesota Statutes, section 121A.41, as amended, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the school district buildings or property, and other similar measures.
- M. “Title IX Personnel” means any person who addresses, works on, or assists with the school district’s response to a report of sexual harassment or formal complaint, and includes persons who facilitate informal resolutions. The following are considered Title IX Personnel:
1. “Title IX Coordinator” means an employee of the school district that coordinates the school district’s efforts to comply with and carry out its responsibilities under Title IX. The Title IX Coordinator is responsible for acting as the primary contact for the parties and ensuring that the parties are provided with all notices, evidence, reports, and written determinations to which they are entitled under this policy and grievance process. The Title IX Coordinator is also responsible for effective implementation of any supportive measures or remedies. The Title IX Coordinator must be free from conflicts of interest and bias when administering the grievance process.
 2. “Investigator” means a person who investigates a formal complaint. The investigator of a formal complaint may not be the same person as the Decision-maker or the Appellate Decision-maker. The Investigator may be a school district employee, school district official, or a third party designated by the school district.
 3. “Decision-maker” means a person who makes a determination regarding responsibility after the investigation has concluded. The Decision-maker cannot be the same person as the Title IX Coordinator, the Investigator, or the Appellate Decision-maker.
 4. “Appellate Decision-maker” means a person who considers and decides appeals of determinations regarding responsibility and dismissals of formal complaints. The Appellate Decision-maker cannot be the same person as the Title IX Coordinator, Investigator, or Decision-maker. The Appellate Decision-maker may be a school district employee, or a third party designated by the school district.
 5. The superintendent of the school district may delegate functions assigned to a specific school district employee under this policy, including but not limited to the functions assigned to the Title IX Coordinator, Investigator, Decision-maker, Appellate Decision-maker, and facilitator of informal resolution processes, to any suitably qualified individual and such delegation may be rescinded by the superintendent at any time. The school district may also, in its discretion, appoint suitably qualified persons who are not school district employees to fulfill any function under this policy, including, but not limited to, Investigator, Decision-maker, Appellate Decision-maker, and facilitator of informal resolution processes.

III. BASIC REQUIREMENTS FOR GRIEVANCE PROCESS

- A. Equitable Treatment
1. The school district shall treat complainants and respondents equitably. However, equality or parity with respect to supportive measures provided to complainants and respondents is not required.
 2. The school district will not impose any disciplinary sanctions or take any other actions against a respondent that do not constitute supportive measures until it has completed this grievance process and the respondent has been found responsible.
 3. The school district will provide appropriate remedies to the complainant any time a respondent is found responsible.
- B. Objective and Unbiased Evaluation of Complaints
1. Title IX Personnel, including the Title IX Coordinator, Investigator, Decision-maker, and Appellate Decision-maker, shall be free from conflicts of interest or bias for or against complainants or respondents generally or a specific complainant or respondent.
 2. Throughout the grievance process, Title IX Personnel will objectively evaluate all relevant evidence, inculpatory and exculpatory, and shall avoid credibility determinations based solely on a person’s status as a complainant, respondent, or witness.
- C. Title IX Personnel will presume that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.
- D. Confidentiality

The school district will keep confidential the identity of any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment, any complainant, any individual who has been reported to be the perpetrator of sex discrimination, any respondent, and any witness, except as may be permitted by the Family

Educational Rights and Privacy Act (FERPA), 20 United States Code, section 1232g, FERPA regulations, 34 Code of Federal Regulations, part 99, Minnesota law under Minnesota Statutes section 13.32, or as required by law, or to carry out the purposes of 34 Code of Federal Regulations, part 106, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder (i.e., the school district's obligation to maintain confidentiality shall not impair or otherwise affect the complainants and respondents receipt of the information to which they are entitled with respect to the investigative record and determination of responsibility).

E. Right to an Advisor; Right to a Support Person

Complainants and respondents have the right, at their own expense, to be assisted by an advisor of their choice during all stages of any grievance proceeding, including all meetings and investigative interviews. The advisor may be, but is not required to be, an attorney. In general, an advisor is not permitted to speak for or on behalf of a complainant or respondent, appear in lieu of complainant or respondent, participate as a witness, or participate directly in any other manner during any phase of the grievance process.

A complainant or respondent with a disability may be assisted by a support person throughout the grievance process, including all meetings and investigative interviews, if such accommodation is necessary. A support person may be a friend, family member, or any individual who is not otherwise a potential witness. The support person is not permitted to speak for or on behalf of a complainant or respondent, appear in lieu of complainant or respondent, participate as a witness, or participate directly in any other manner during any phase of the grievance process.

F. Notice

The school district will send written notice of any investigative interviews or meetings to any party whose participation is invited or expected. The written notice will include the date, time, location, participants, and purpose of the meeting or interview, and will be provided to allow sufficient time for the party to prepare to participate.

G. Consolidation

The school district may, in its discretion, consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by more than one complainant against one or more respondents, or by one party against the other party, where the allegations of sexual harassment arise out of the same facts or circumstances.

H. Evidence

1. During the grievance process, the school district will not require, allow, rely upon, or otherwise use questions or evidence that constitute or seek disclosure of information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

2. The school district shall not access, consider, disclose, or otherwise use a party's medical, psychological, and similar treatment records unless the school district obtains the party's voluntary, written consent.

I. Burden of Proof

1. The burden of gathering evidence and the burden of proof shall remain upon the school district and not upon the parties.

2. The grievance process shall use a preponderance of the evidence standard (i.e. whether it is more likely than not that the respondent engaged in sexual harassment) for all formal complaints of sexual harassment, including when school district employees are respondents.

J. Timelines

1. Any informal resolution process must be completed within thirty (30) calendar days following the parties' agreement to participate in such informal process.

2. An appeal of a determination of responsibility or of a decision dismissing a formal complaint must be received by the school district within five (5) days of the date the determination of responsibility or dismissal was provided to the parties.

3. Any appeal of a determination of responsibility or of a dismissal will be decided within thirty (30) calendar days of the day the appeal was received by the school district.

4. The school district will seek to conclude the grievance process, including any appeal, within 120 calendar days of the date the formal complaint was received by the school district.

5. Although the school district strives to adhere to the timelines described above, in each case, the school district may extend the time frames for good cause. Good cause may include, without limitation: the complexity of the allegations; the severity and extent of the alleged misconduct; the number of parties, witnesses, and the types of other evidence (e.g., forensic evidence) involved; the availability of the parties, advisors, witnesses, and evidence (e.g., forensic evidence); concurrent law enforcement activity; intervening school district holidays, breaks, or other closures; the need for language assistance or accommodation of disabilities; and/or other unforeseen circumstances.

K. Potential Remedies and Disciplinary Sanctions

1. The following is the range of possible remedies that the school district may provide a complainant and disciplinary sanctions that the school district might impose upon a respondent, following determination of responsibility: counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual or unilateral restrictions on contact between the parties, changes in work locations, leaves of absence, monitoring of certain areas of the school district buildings or property, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge.
2. If the Decision-maker determines a student-respondent is responsible for violating this policy, the Decision-maker will recommend appropriate remedies, including disciplinary sanctions/consequences. The Title IX Coordinator will notify the superintendent of the recommended remedies, such that an authorized administrator can consider the recommendation(s) and implement appropriate remedies in compliance with MSBA Model Policy 506 – Student Discipline. The discipline of a student-respondent must comply with the applicable provisions of Minnesota Pupil Fair Dismissal Act, the Individuals with Disabilities Education Improvement Act (IDEA) and/or Section 504 of the Rehabilitation Act of 1972, and their respective implementing regulations.

IV. REPORTING PROHIBITED CONDUCT

- A. Any student who believes they have been the victim of unlawful sex discrimination or sexual harassment, or any person (including the parent of a student) with actual knowledge of conduct which may constitute unlawful sex discrimination or sexual harassment toward a student should report the alleged acts as soon as possible to the Title IX Coordinator.
- B. Any employee of the school district who has experienced, has actual knowledge of, or has witnessed unlawful sex discrimination, including sexual harassment, or who otherwise becomes aware of unlawful sex discrimination, including sexual harassment, must promptly report the allegations to the Title IX Coordinator without screening or investigating the report or allegations.
- C. A report of unlawful sex discrimination or sexual harassment may be made at any time, including during non-business hours, and may be made in person, by mail, by telephone, or by e-mail using the Title IX Coordinator's contact information. A report may also be made by any other means that results in the Title IX Coordinator receiving the person's verbal or written report.
- D. Sexual harassment may constitute both a violation of this policy and criminal law. To the extent the alleged conduct may constitute a crime, the School District may report the alleged conduct to law enforcement authorities. The school district encourages complainants to report criminal behavior to the police immediately.

V. INITIAL RESPONSE AND ASSESSMENT BY THE TITLE IX COORDINATOR

- A. When the Title IX Coordinator receives a report, the Title IX Coordinator shall promptly contact the complainant confidentially to discuss the availability of supportive measures, consider the complainant's wishes with respect to supportive measures, inform the complainant of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.
- B. The school district will offer supportive measures to the complainant whether or not the complainant decides to make a formal complaint. The school district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the school district's ability to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.
- C. If the complainant does not wish to file a formal complaint, the allegations will not be investigated by the school district unless the Title IX Coordinator determines that signing a formal complaint to initiate an investigation over the complainant's wishes is not clearly unreasonable in light of the known circumstances.
- D. Upon receipt of a formal complaint, the school district must provide written notice of the formal complaint to the known parties with sufficient time to prepare a response before any initial interview. This written notice must contain:
 1. The allegations of sexual harassment, including sufficient details known at the time, the identities of the parties involved in the incident (if known), the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident, if known;
 2. A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made at the conclusion of the grievance process;
 3. A statement explaining that the parties may have an advisor of their choice, who may be, but is not required to be, an attorney;
 4. A statement that the parties may inspect and review evidence gathered pursuant to this policy;
 5. A statement informing the parties of any code of conduct provision that prohibits knowingly making false statements or knowingly submitting false information; and
 6. A copy of this policy.

VI. STATUS OF RESPONDENT DURING PENDENCY OF FORMAL COMPLAINT

A. Emergency Removal of a Student

1. The school district may remove a student-respondent from an education program or activity of the school district on an emergency basis before a determination regarding responsibility is made if:

- a. The school district undertakes an individualized safety and risk analysis;
- b. The school district determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal of the student-respondent; and
- c. The school district determines the student-respondent poses such a threat, it will so notify the student-respondent and the student-respondent will have an opportunity to challenge the decision immediately following the removal. In determining whether to impose emergency removal measures, the Title IX Coordinator shall consult related school district policies, including MSBA Model Policy 506 – Student Discipline. The school district must take into consideration applicable requirements of the Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973, prior to removing a special education student or Section 504 student on an emergency basis.

B. Employee Administrative Leave

The school district may place a non-student employee on administrative leave during the pendency of the grievance process of a formal complaint. Such leave will typically be paid leave unless circumstances justify unpaid leave in compliance with legal requirements. The school district must take into consideration applicable requirements of Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act prior to removing an individual with a qualifying disability.

VII. INFORMAL RESOLUTION OF A FORMAL COMPLAINT

- A. At any time prior to reaching a determination of responsibility, informal resolution may be offered and facilitated by the school district at the school district's discretion, but only after a formal complaint has been received by the school district.
- B. The school district may not require as a condition of enrollment or continued enrollment, or of employment or continued employment, or enjoyment of any other right, waiver of the right to a formal investigation and adjudication of formal complaints of sexual harassment.
- C. The informal resolution process may not be used to resolve allegations that a school district employee sexually harassed a student.
- D. The school district will not facilitate an informal resolution process without both parties' agreement, and will obtain their voluntary, written consent. The school district will provide to the parties a written notice disclosing the allegations, the requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations, the parties' right to withdraw from the informal resolution process, and any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.
- E. At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint.

VIII. Dismissal of a Formal Complaint

- A. Under federal law, the school district must dismiss a Title IX complaint, or a portion thereof, if the conduct alleged in a formal complaint or a portion thereof:
 1. Would not meet the definition of sexual harassment, even if proven;
 2. Did not occur in the school district's education program or activity; or
 3. Did not occur against a person in the United States.
- B. The school district may, in its discretion, dismiss a formal complaint or allegations therein if:
 1. The complainant informs the Title IX Coordinator in writing that the complainant desires to withdraw the formal complaint or allegations therein;
 2. The respondent is no longer enrolled or employed by the school district; or
 3. Specific circumstances prevent the school district from gathering sufficient evidence to reach a determination.
- C. The school district shall provide written notice to both parties of a dismissal. The notice must include the reasons for the dismissal.

- D. Dismissal of a formal complaint or a portion thereof does not preclude the school district from addressing the underlying conduct in any manner that the school district deems appropriate.

IX. INVESTIGATION OF A FORMAL COMPLAINT

- A. If a formal complaint is received by the School District, the school district will assign or designate an Investigator to investigate the allegations set forth in the formal complaint.
- B. If during the course of the investigation the school district decides to investigate any allegations about the complainant or respondent that were not included in the written notice of a formal complaint provided to the parties, the school district must provide notice of the additional allegations to the known parties.
- C. When a party's participation is invited or expected in an investigative interview, the Investigator will coordinate with the Title IX Coordinator to provide written notice to the party of the date, time, location, participants, and purposes of the investigative interview with sufficient time for the party to prepare.
- D. During the investigation, the Investigator must provide the parties with an equal opportunity to present witnesses for interviews, including fact witnesses and expert witnesses, and other inculpatory and exculpatory evidence.
- E. Prior to the completion of the investigative report, the Investigator, through the Title IX Coordinator, will provide the parties and their advisors (if any) with an equal opportunity to inspect and review any evidence directly related to the allegations. The evidence shall be provided in electronic format or hard copy and shall include all relevant evidence, evidence upon which the school district does not intend to rely in reaching a determination regarding responsibility, and any inculpatory or exculpatory evidence whether obtained from a party or another source. The parties will have ten (10) days to submit a written response, which the Investigator will consider prior to completion of the investigative report.
- F. The Investigator will prepare a written investigative report that fairly summarizes the relevant evidence. The investigative report may include credibility determinations that are not based on a person's status as a complainant, respondent or witness. The school district will send the parties and their advisors (if any) a copy of the report in electronic format or hard copy, for their review and written response at least ten (10) days prior to a determination of responsibility.

X. DETERMINATION REGARDING RESPONSIBILITY

- A. After the school district has sent the investigative report to both parties and before the school district has reached a determination regarding responsibility, the Decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness.
- B. The Decision-maker must provide the relevant questions submitted by the parties to the other parties or witnesses to whom the questions are offered, and then provide each party with the answers, and allow for additional, limited follow-up questions from each party.
- C. The Decision-maker must explain to the party proposing the questions any decision to exclude a question as not relevant.
- D. When the exchange of questions and answers has concluded, the Decision-maker must issue a written determination regarding responsibility that applies the preponderance of the evidence standard to the facts and circumstances of the formal complaint. The written determination of responsibility must include the following:
 - 1. Identification of the allegations potentially constituting sexual harassment;
 - 2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, and methods used to gather other evidence;
 - 3. Findings of fact supporting the determination;
 - 4. Conclusions regarding the application of the school district's code of conduct to the facts;
 - 5. A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions the school district imposes on the respondent, and whether remedies designed to restore or preserve equal access to the recipient's education program or activity will be provided by the school district to the complainant; and
 - 6. The school district's procedures and permissible bases for the complainant and respondent to appeal and the date by which an appeal must be made.
- E. In determining appropriate disciplinary sanctions, the Decision-maker should consider the surrounding circumstances, the nature of the behavior, past incidents or past or continuing patterns of behavior, the relationships between the parties involved, and the context in which the alleged incident occurred.

- F. The written determination of responsibility must be provided to the parties simultaneously.
- G. The Title IX Coordinator is responsible for the effective implementation of any remedies.
- H. The determination regarding responsibility becomes final either on the date that the school district provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

XI. APPEALS

- A. The school district shall offer the parties an opportunity to appeal a determination regarding responsibility or the school district's dismissal of a formal complaint or any allegations therein, on the following bases:
 - 1. A procedural irregularity that affected the outcome of the matter (e.g., a material deviation from established procedures);
 - 2. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
 - 3. The Title IX Coordinator, Investigator, or Decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.
- B. If notice of an appeal is timely received by the school district, the school district will notify the parties in writing of the receipt of the appeal, assign or designate the Appellate Decision-maker, and give the parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome.
- C. After reviewing the parties' written statements, the Appellate Decision-maker must issue a written decision describing the result of the appeal and the rationale for the result.
- D. The written decision describing the result of the appeal must be provided simultaneously to the parties.
- E. The decision of the Appellate Decision-maker is final. No further review beyond the appeal is permitted.

XII. RETALIATION PROHIBITED

- A. Neither the school district nor any other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, its implementing regulations, or this policy, or because the individual made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this policy. Intimidation, threats, coercion, or discrimination, including charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX, its implementing regulations, or this policy, constitutes retaliation. Retaliation against a person for making a report of sexual harassment, filing a formal complaint, or participating in an investigation, constitutes a violation of this policy that can result in the imposition of disciplinary sanctions/consequences and/or other appropriate remedies.
- B. Any person may submit a report or formal complaint alleging retaliation in the manner described in this policy and it will be addressed in the same manner as other complaints of sexual harassment or sex discrimination.
- C. Charging an individual with violation of school district policies for making a materially false statement in bad faith in the course of a grievance proceeding under this policy shall not constitute retaliation, provided, however, that a determination regarding responsibility, alone, is not sufficient to conclude that any party made a materially false statement in bad faith.

XIII. TRAINING

- A. The school district shall ensure that Title IX Personnel receive appropriate training. The training shall include instruction on:
 - 1. The Title IX definition of sexual harassment;
 - 2. The scope of the school district's education program or activity;
 - 3. How to conduct an investigation and grievance process, appeals, and informal resolution processes, as applicable;
 - 4. How to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias;
 - 5. For Decision-makers, training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's prior sexual behavior are not relevant; and
 - 6. For Investigators, training on issues of relevance, including the creation of an investigative report that fairly summarizes relevant

evidence.

- B. The training materials will not rely on sex stereotypes and must promote impartial investigations and adjudications of formal complaints.
- C. Materials used to train Title IX Personnel must be posted on the school district's website. If the school district does not have a website, it must make the training materials available for public inspection upon request.

XIV. DISSEMINATION OF POLICY

- A. This policy shall be made available to all students, parents/guardians of students, school district employee, and employee unions.
- B. The school district shall conspicuously post the name of the Title IX Coordinator, including office address, telephone number, and work e-mail address on its website and in each handbook that it makes available to parents, employees, students, unions, or applicants.
- C. The school district must provide applicants for admission and employment, students, parents or legal guardians of secondary school students, employees, and all unions holding collective bargaining agreements with the school district, with the following:
 - 1. The name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator;
 - 2. Notice that the school district does not discriminate on the basis of sex in the education program or activity that it operates, and that it is required by Title IX not to discriminate in such a manner;
 - 3. A statement that the requirement not to discriminate in the education program or activity extends to admission and employment, and that inquiries about the application of Title IX may be referred to the Title IX Coordinator, to the Assistant Secretary for Civil Rights of the United States Department of Education, or both; and
 - 4. Notice of the school district's grievance procedures and grievance process contained in this policy, including how to report or file a complaint of sex discrimination, how to report or file a formal complaint of sexual harassment, and how the school district will respond.

XV. RECORDKEEPING

- A. The school district must create, and maintain for a period of seven calendar years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the school district must document:
 - 1. The basis for the school district's conclusion that its response to the report or formal complaint was not deliberately indifferent;
 - 2. The measures the school district has taken that are designed to restore or preserve equal access to the school district's education program or activity; and
 - 3. If the school district does not provide a complainant with supportive measures, then it must document the reasons why such a response was not clearly unreasonable in light of the known circumstances. Such a record must be maintained for a period of seven years.
 - 4. The documentation of certain bases or measures does not limit the recipient in the future from providing additional explanations or detailing additional measures taken.
- B. The school district must also maintain for a period of seven calendar years records of:
 - 1. Each sexual harassment investigation including any determination regarding responsibility, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the recipient's education program or activity;
 - 2. Any appeal and the result therefrom;
 - 3. Any informal resolution and the result therefrom; and
 - 4. All materials used to train Title IX Personnel.

APPENDIX Q

524 INTERNET, TECHNOLOGY, AND CELL PHONE ACCEPTABLE USE AND SAFETY POLICY

I. PURPOSE

The purpose of this policy is to set forth policies and guidelines for access to the **Floodwood School** district computer system and acceptable and safe use of the Internet, including electronic communications.

II. GENERAL STATEMENT OF POLICY

In making decisions regarding student and employee access to the school district computer system and the Internet, including electronic communications, the school district considers its own stated educational mission, goals, and objectives. Electronic information research skills are now fundamental to preparation of citizens and future employees. Access to the school district computer system and to the Internet enables students and employees to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. The school district expects that faculty will blend thoughtful use of the school district computer system and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

III. LIMITED EDUCATIONAL PURPOSE

The school district is providing students and employees with access to the school district computer system, which includes Internet access. The purpose of the system is more specific than providing students and employees with general access to the Internet. The school district system has a limited educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities. Users are expected to use Internet access through the district system to further educational and personal goals consistent with the mission of the school district and school policies. Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this limited-purpose network.

IV. USE OF SYSTEM IS A PRIVILEGE

The use of the school district technology resources and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the school district system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment; or civil or criminal liability under other applicable laws.

V. UNACCEPTABLE USES

A. The following uses of the school district system and Internet resources or accounts are considered unacceptable:

1. Users will not use the school district system to access, review, upload, download, store, print, post, receive, transmit, or distribute:
 - a. pornographic, obscene, or sexually explicit material or other visual depictions that are harmful to minors;
 - b. obscene, abusive, profane, lewd, vulgar, rude, inflammatory, threatening, disrespectful, or sexually explicit language;
 - c. materials that use language or images that are inappropriate in the education setting or disruptive to the educational process;
 - d. information or materials that could cause damage or danger of disruption to the educational process;
 - e. materials that use language or images that advocate violence or discrimination toward other people (hate literature) or that may constitute harassment or discrimination.
2. Users will not use the school district system to knowingly or recklessly post, transmit, or distribute false or defamatory information about a person or organization. Users will not use the school district system to engage in cyber bullying or harassment of another person, or to engage in personal attacks, including prejudicial or discriminatory attacks. This includes, but is not limited to, social network sites, tweeting, texting, chat rooms, email, or other electronic communications.
3. Users will not use the school district system to engage in any illegal act or violate any local, state, or federal statute or law.
4. Users will not use the school district system to vandalize, damage, or disable the property of another person or organization, will not make deliberate attempts to degrade or disrupt equipment, software, hack into, or system performance by spreading computer viruses or by any other means, will not tamper with, modify, or change the school district system software, hardware, or wiring or take any action to violate the school district's security system, and will not use the school district system in such a way as to disrupt the use of the system by other users.
5. Users will not use the school district system to gain unauthorized access to information resources or to access another person's materials, information, or files without the implied or direct permission of that person.
6. Users will not use the school district system to post private information about another person, personal contact information about themselves or other persons, or other personally identifiable information, including, but not limited to, addresses, telephone numbers, school addresses, work addresses, identification numbers, account numbers, access codes or passwords, labeled photographs, or other information that would make the individual's identity easily traceable, and will not repost a message that was sent to the user privately without permission of the person who sent the message.
 - a. This paragraph does not prohibit the posting of employee contact information on school district webpages or communications between employees and other individuals when such communications are made for education-related purposes (i.e., communications with parents or other staff members related to students).
 - b. Employees creating or posting school-related webpages may include personal contact information about themselves on a webpage. However, employees may not post personal contact information or other personally identifiable information about students unless:
 - (1) such information is classified by the school district as directory information and verification is made that the school district has not received notice from a parent/guardian or eligible student that such information is not to be designated as directory information in accordance with Policy 515; or
 - (2) such information is not classified by the school district as directory information but written consent for release of the information to be posted has been obtained from a parent/guardian or eligible student in accordance with Policy 515.

In addition, prior to posting any personal contact or personally identifiable information on a school-related webpage, employees shall obtain written approval of the content of the postings from the building administrator.
 - c. These prohibitions specifically prohibit a user from utilizing the school district system to post personal information about a user or another individual on social networks, including, but not limited to, social networks such as "Facebook," "Twitter," "Instagram," "Snapchat," and "Reddit", and similar websites or applications.
7. Users must keep all account information and passwords on file with the designated school district official. Users will not attempt to gain unauthorized access to the school district system or any other system through the school district system, attempt to log in through another person's account, or use computer accounts, access codes, or network identification other than those assigned to the user. Messages and records on the school district system may not be encrypted without the permission of appropriate school authorities.
8. Users will not use the school district system to violate copyright laws or usage licensing agreements, or otherwise to use another person's property without the person's prior approval or proper citation, including the downloading or exchanging of pirated software or copying software to or from any school computer, and will not plagiarize works they find on the Internet.

9. Users will not use the school district system for conducting business, for unauthorized commercial purposes, or for financial gain unrelated to the mission of the school district. Users will not use the school district system to offer or provide goods or services or for product advertisement. Users will not use the school district system to purchase goods or services for personal use without authorization from the appropriate school district official.
10. Users will not use the school district system to engage in bullying or cyberbullying in violation of the school district's Bullying Prohibition Policy (MSBA/MASA Model Policy 514). This prohibition includes using any technology or other electronic communication off school premises to the extent that student learning or the school environment is substantially and materially disrupted.
11. Users will not access, download, or use a school district website, application, software, program, or other service (1) to nudyify an image or video; or (2) nudify an image or video on behalf of a user.
 - a. "Identifiable individual" means a person that is identifiable:
 - (1) from the image itself, by the person depicted in the image, or by another person; or
 - (2) from personal information displayed in connection with the image.
 - b. "Intimate part" has the meaning given in Minnesota Statutes, section 609.341, subdivision 5.
 - c. "Nudify" or "nudified" means the process by which:
 - (1) an image or video is altered or generated to depict an intimate part not depicted in an original unaltered image or video of an identifiable individual; and
 - (2) the altered or generated image or video is so realistic that a reasonable person would believe that the intimate part belongs to the identifiable individual.

- B. A student or employee engaging in the foregoing unacceptable uses of the Internet when off school district premises also may be in violation of this policy as well as other school district policies. Examples of such violations include, but are not limited to, situations where the school district system is compromised or if a school district employee or student is negatively impacted. If the school district receives a report of an unacceptable use originating from a non-school computer or resource, the school district may investigate such reports to the best of its ability. Students or employees may be subject to disciplinary action for such conduct, including, but not limited to, suspension or cancellation of the use or access to the school district computer system and the Internet and discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment.
- C. If a user inadvertently accesses unacceptable materials or an unacceptable Internet site, the user shall immediately disclose the inadvertent access to an appropriate school district official. In the case of a school district employee, the immediate disclosure shall be to the employee's immediate supervisor and/or the building administrator. This disclosure may serve as a defense against an allegation that the user has intentionally violated this policy. In certain rare instances, a user also may access otherwise unacceptable materials if necessary to complete an assignment and if done with the prior approval of and with appropriate guidance from the appropriate teacher or, in the case of a school district employee, the building administrator.

VI. FILTER

- A. With respect to any of its computers with Internet access, the school district will monitor the online activities of both minors and adults and employ technology protection measures during any use of such computers by minors and adults. The technology protection measures utilized will block or filter Internet access to any visual depictions that are:
 1. Obscene;
 2. Child pornography; or
 3. Harmful to minors.
- B. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:
 1. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or
 2. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
 3. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
- C. Software filtering technology shall be narrowly tailored and shall not discriminate based on viewpoint.
- D. An administrator, supervisor, or other person authorized by the Superintendent may disable the technology protection measure, during use by an adult, to enable access for bona fide research or other lawful purposes.
- E. The school district will educate students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber-bullying awareness and response.

VII. CONSISTENCY WITH OTHER SCHOOL POLICIES

Use of the school district computer system and use of the Internet shall be consistent with school district policies and the mission of the school district.

VIII. LIMITED EXPECTATION OF PRIVACY

- A. By authorizing use of the school district system, the school district does not relinquish control over materials on the system or contained in files on the system. Users should expect only limited privacy in the contents of personal files on the school district system.
- B. Routine maintenance and monitoring of the school district system may lead to a discovery that a user has violated this policy, another school district policy, or the law.
- C. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or school district policy.
- D. Parents have the right at any time to investigate or review the contents of their child's files and e-mail files. Parents have the right to request the termination of their child's individual account at any time.
- E. School district employees should be aware that the school district retains the right at any time to investigate or review the contents of their files and e-mail files. In addition, school district employees should be aware that data and other materials in files maintained on the school district system may be subject to review, disclosure or discovery under Minn. Stat. Ch. 13 (the Minnesota Government Data Practices Act).

The school district will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with school district policies conducted through the school district

IX. INTERNET USE AGREEMENT

- A. The proper use of the Internet, and the educational value to be gained from proper Internet use, is the joint responsibility of students, parents, and employees of the school district.
- B. This policy requires the permission of and supervision by the school's designated professional staff before a student may use a school account or resource to access the Internet.
- C. The Internet Use Agreement form for students must be read and signed by the user, the parent or guardian, and the supervising teacher. The Internet Use Agreement form for employees must be signed by the employee. The form must then be filed at the school office. As supervising teachers change, the agreement signed by the new teacher shall be attached to the original agreement.

X. LIMITATION ON SCHOOL DISTRICT LIABILITY

Use of the school district system is at the user's own risk. The system is provided on an "as is, as available" basis. The school district will not be responsible for any damage users may suffer, including, but not limited to, loss, damage, or unavailability of data stored on school district diskettes, tapes, hard drives, or servers, or for delays or changes in or interruptions of service or misdeliveries or nondeliveries of information or materials, regardless of the cause. The school district is not responsible for the accuracy or quality of any advice or information obtained through or stored on the school district system. The school district will not be responsible for financial obligations arising through unauthorized use of the school district system or the Internet.

XI. USER NOTIFICATION

- A. All users shall be notified of the school district policies relating to Internet use.
- B. This notification shall include the following:
 - 1. Notification that Internet use is subject to compliance with school district policies.
 - 2. Disclaimers limiting the school district's liability relative to:
 - a. Information stored on school district diskettes, hard drives, or servers.
 - b. Information retrieved through school district computers, networks, or online resources.
 - c. Personal property used to access school district computers, networks, or online resources.
 - d. Unauthorized financial obligations resulting from use of school district resources/accounts to access the Internet.
 - 3. A description of the privacy rights and limitations of school sponsored/managed Internet accounts.
 - 4. Notification that, even though the school district may use technical means to limit student Internet access, these limits do not provide a foolproof means for enforcing the provisions of this acceptable use policy.
 - 5. Notification that goods and services can be purchased over the Internet that could potentially result in unwanted financial obligations and that any financial obligation incurred by a student through the Internet is the sole responsibility of the student and/or the student's parents.

6. Notification that the collection, creation, reception, maintenance, and dissemination of data via the Internet, including electronic communications, is governed by Policy 406, Public and Private Personnel Data, and Policy 515, Protection and Privacy of Pupil Records.
7. Notification that, should the user violate the school district's acceptable use policy, the user's access privileges may be revoked, school disciplinary action may be taken and/or appropriate legal action may be taken.
8. Notification that all provisions of the acceptable use policy are subordinate to local, state, and federal laws.

XII. PARENTS'/GUARDIAN RESPONSIBILITY; NOTIFICATION OF STUDENT INTERNET USE

- A. Outside of school, parents/guardian bear responsibility for the same guidance of Internet use as they exercise with information sources such as television, telephones, radio, movies, and other possibly offensive media. Parents are responsible for monitoring their student's use of the school district system and of the Internet if the student is accessing the school district system from home or a remote location.
- B. Parents will be notified that their students will be using school district resources/accounts to access the Internet and that the school district will provide parents the option to request alternative activities not requiring Internet access. This notification should include:
 1. A copy of the user notification form provided to the student user.
 2. A description of parent/guardian responsibilities.

524.5 PERSONAL ELECTRONIC COMMUNICATION DEVICES

I. PURPOSE

The objective of this policy is to support the school district's focus on learning in alignment with the district's mission to ignite students' passion for learning, cultivate a strong foundation of knowledge, and foster a sense of community within our schools. Possession and use of personal electronic communication devices must be regulated to ensure that such devices do not disrupt or interfere with the education process or school operations, impair the safety, welfare, and privacy of students and staff, or are used as part of an act of academic dishonesty.

II. GENERAL STATEMENT OF POLICY

To minimize the impact of personal electronic communication devices on student behavior, mental health, and academic attainment and to support school environments in which students can engage fully with their classmates, their teachers, and instruction, the school board has determined the use of personal electronic communication devices by students during school hours should be limited.

III. DEFINITIONS

- A. "Bell-to-Bell" means from when the first bell rings at the start of the school day to begin instructional time until the dismissal bell rings at the end of the academic school day. "Bell-to bell" includes lunch and time in between class periods.
- B. "Cell Phone" means a personal device capable of making calls, transmitting pictures or video, or sending or receiving messages through electronic means. The definition of cell phone includes a non-smart phone that is limited to making phone calls or text messages and a smart phone that encompasses the above features.
- C. "Cyberbullying" means bullying using technology or other electronic communication, including but not limited to a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device.

- D. “Instructional Time” means any structured or unstructured learning experiences that occur from when the first bell rings at the start of the school day until the dismissal bell rings at the end of the academic school day.
- E. “Personal Electronic Communication Device” means any personal device capable of connecting to a cell phone, the internet, a cellular or Wi-Fi network, or directly connects to another similar device. Personal electronic communication devices may include cell phones, wearable devices such as smart watches, personal headphones, earbuds or pods, laptops, tablets, virtual reality devices, and other personal electronic communication devices with the abovementioned characteristics.
- F. “Stored” means a cell phone or personal electronic communication device not being carried on the student’s person, including not in the student’s pocket. Storage options may include, but are not limited to, in the student’s backpack, in the student’s locker, in a locked pouch, or in a designated place in the classroom, as determined by school administration.

IV. PERSONAL ELECTRONIC COMMUNICATION DEVICE USE AND STORAGE

A. Personal Electronic Communication Device Use

- 1. Students are prohibited from using personal electronic communication devices during instructional time.
- 2. Elementary Schools (PreK-6)
 - a. Students are prohibited from using personal electronic communication devices on school premises from bell-to-bell, which includes but is not limited to instructional time, lunch periods, recess, school-sponsored programs, events or activities, or any other time during the designated school day.
 - b. All personal electronic communication devices shall be kept in designated areas and turned off.
- 3. High Schools (7-12)
 - a. Students are prohibited from using personal electronic communication devices during instructional time, which includes the entire period of a scheduled class and other times when students are directed to report to and participate in any instructional activity.
 - b. Students may wear smart or electronic watches but may not use any communication applications or features that are prohibited from use on other personal electronic communication devices and all notifications must be turned off.
 - c. All personal electronic communication devices shall be kept in designated areas and turned off during instructional time. Personal electronic communication devices may be used during passing times and lunch periods; however, such use is discouraged.

B. Off-Campus School-Sponsored Activities

School administration may establish guidelines for personal electronic communication device possession and use during off-campus school-sponsored activities, such as extracurricular activities, outdoor and service trips, and school field trips. These guidelines will be provided at pre-activity meetings, activity-specific permission slips, and by other means as appropriate in the circumstances.

V. LIMITATIONS ON USE OF AND STORAGE OF PERSONAL ELECTRONIC COMMUNICATION DEVICES

A. Limitations on Use of Personal Electronic Communication Devices

- 1. Personal electronic communication devices may not be used in any manner that causes or results in disruption of the educational environment or school-sponsored extracurricular activities or events or impairs or interferes with school district operations.
- 2. Devices, including but not limited to personal electronic communication devices, with audio, video, or photo-taking capabilities shall not be used at any time in locker rooms, bathrooms, or other locations where the presence of such devices poses an unreasonable risk to the safety, welfare, or privacy of others. Confiscation and search of such devices will occur if found in these areas.
- 3. Students may not use a device to record, transmit, or post audio, videos,

or photos of a person or persons on school grounds or on a school bus without the express permission of school staff in addition to the express consent of the individual or individuals that are the subjects of the recording.

4. Personal electronic communication devices may not be used to engage in bullying, cyberbullying, harassment, discrimination, or other activity prohibited under federal or state law or under school district policy.
5. Personal electronic communication devices shall not be used during a lockdown drill, a fire drill, or a similar safety drill.

B. Storage of Personal Electronic Communication Devices

Students shall keep their personal electronic communication devices in a secure place, such as the student's locker, a closed backpack, a storage device provided by the school, or an area designated by the classroom teacher at all times when personal electronic communication device use is prohibited.

V. EXCEPTIONS

- A. Nothing in this policy prohibits a student from using a personal electronic communication device for a purpose documented in the student's individualized education program, a plan developed under section 504 of the Rehabilitation Act of 1973, or a health care plan in force regarding the student.
- B. A student may use a personal electronic communication device to monitor or address a health concern or medical condition upon permission granted by school administration.
- C. Students may use a personal electronic communication device when the use is necessary to respond to or report an emergency. For purposes of this policy, "emergency" means an actual or imminent threat to the health or safety of students and/or school personnel, which may result in death, bodily injury, or substantial property damage.
- D. A student may use a personal electronic communication device during a time at which use would otherwise be prohibited when the student has been granted permission from a staff member to use the device. If the school district implements a curriculum that uses technology, students may be allowed to use their own personal electronic communication devices to access the curriculum. Students who are allowed to use their own devices to access the curriculum will be granted access to any application or electronic materials when they are available to students who do not use their own devices, or provided free of charge to students who do not use their own devices for curriculum.
- E. A personal electronic communication device may be stored in student vehicles parked on school district property provided that the device is not removed from the vehicle while on school district property.
- F. Students who need to make a call may request permission to use a telephone in the building office.

VI. DISCIPLINE

If a student violates this policy, a teacher or administrator shall take the following progressively serious disciplinary measures:

- A. Give the student a verbal warning and require the student to store the student's personal electronic communication device in accordance with this policy.
- B. Securely store the student's personal electronic communication device in a teacher- or administrator-controlled locker, bin, or drawer for the duration of the class or period.
- C. Place the student's personal electronic communication device in the school's central office for the remainder of the school day.
- D. Place the student's personal device in the school's central office to be picked up by the student's parent or guardian.
- E. Schedule a conference with the student's parent or guardian to discuss the student's personal device use.
- F. Apply discipline as provided under school district policies and as appropriate.

VII. SCHOOL DISTRICT RESPONSIBILITY

- A. The school district is not responsible for, nor is it required to investigate, any lost, stolen, or damaged personal electronic communication devices brought onto school grounds or the bus or school-sponsored activities or events.
- B. The school board directs the superintendent and school district administration to establish additional rules and procedures regarding student possession and use of personal electronic communication devices in schools as the superintendent and school district administration find appropriate. These rules shall be consistent with this policy and other applicable school district policies. These rules and procedures should seek to minimize the impact of personal electronic communication devices on student behavior, mental health, and academic attainment. These rules and procedures may be designed for specific school buildings, grade levels, or pursuant to similar criteria.

The school board is committed to promoting healthy human relationships and learning environments that are physically and psychologically safe for all members of the school community. - E. The consequences set forth in the school hazing policy (Policy 526) will be imposed upon any student or staff member who commits an act against a student or staff member; or coerces a student or staff member into committing an act, that creates a substantial risk of harm to a person in order for the student or staff member to be initiated into or affiliated with an organization, or for any other purpose.
