

Change in Polling Location

If the district decides to hold an election this fall, we will need to send out a “Change in polling location notification” to all registered voters since we changed our polling location to three sites. We are required to send out this notification no later than 25days prior to the election it is affecting.

We can send the notification to one per household of registered voters to help reduce the cost. We sent out this notification in 2019 when we moved our single polling location to the City of Howard Lake, and that cost was approximately \$1,000. There is most likely an increase in cost and also an increase in the number of registered voters in the past 4 years.

The board has already authorized the three polling locations at the December 2022 meeting.
