

## 2022-23 HLWW School Calendar

### Options to eliminate the “one-day week” at the end of the school year... we don’t want a one-day week

- Move one of the four teacher work shop days to the Friday before President’s day – move that student day to the last week of school (creating a two-day week) – more days in June...

~~– Flex the teacher work day scheduled for March 17, during the spring break and move the June 5 student day to March 17 (Last student day would be June 2)~~

~~Flex the teacher work day just for MS/HS and have school for MS/HS students on March 17, but have the work day for Elementary teachers and no school for elementary students (have one less student day for elementary in 2022-23)~~

- Move June 5 student day to November 23 or December 23 – Staff Survey – 111 staff responded to survey (about 50%) – **95** said have school on November 23; **11** said have school on December 23

- Early spring break – we would want at least one full week of instruction prior to finals week (HS) – Is President’s Day week too early??? Anything prior to normal dates would impact end of season or state tourney for sports

- Late spring break – put it with Easter – but is that then too late...??? – would impact the first week of competition for sports
