

FCCLA

National Champion!

Congratulations to Jamesyn Scull on an incredible accomplishment at the FCCLA National Leadership Conference! Jamesyn earned 1st Place in the Nation in Food Innovations Level 1, competing against 40 of the top junior high teams from across the country.

His award-winning product, Zu Moo Cakes, is a delicious mini chocolate zucchini cake that combines creativity, nutrition, and locally sourced ingredients. What makes his project even more special is that Jamesyn grew the zucchini himself in his own garden, showcasing the journey from garden to finished product while learning valuable skills in food science, product development, marketing, and entrepreneurship.

We are so proud of Jamesyn's hard work, innovation, and dedication. He has represented our community, our chapter, and Texas in an outstanding way.

Congratulations, Jamesyn, on becoming an FCCLA National Champion!
