To: Aaron Miller <aaron.miller@2cj.k12.or.us>

Dear Superintendent Miller,

Thank you for sharing your restoration planning spreadsheet. As you stated, your data indicates that your district or charter school **did reduce time** and is therefore subject to the requirements of Executive Order 26-06 and OAR 581-022-2323, Preserving Student Instructional Time.

Action Required by July 15, 2026

- **Submit a plan to ODE** detailing how the district or charter school will restore student instructional time to no less than 2024-25 levels. The time shall be restored by no later than the beginning of the 2027-28 school year;

OR

- **Communicate to ODE that you will not be restoring time and will publicly explain the justification of it** and document approval of this choice by the local school board or governing body.

Important: The requirement to restore time applies without exception, and is not dependent on the reason for the reduction. This includes cases in which a reduction may have taken place at only one school or only impacted one grade or grade band. It also includes cases in which time may have been lost due to inclement weather or other unforeseen circumstances.

Next Steps: Restoration Plan

ODE has posted Student Instructional Time Restoration Plan Guidelines to the ODE Instructional Time EO webpage. This guidance includes:

- Step-by-step instructions
- Example Restoration Plans
- Restoration Plan Template

Deadline for Submission: Districts and public charter schools must submit their restoration plans to ODE by **July 15, 2026**, via the Student Instructional Time Restoration Submission Form.
