Re: High School Updated Graduation Requirements for Localized Pathways 2026

Please see the 3 localized pathways for HHS.

Localized pathways are structured frameworks designed to help students align their secondary education--including core courses, electives, and extracurriculars--with their specific postsecondary goals. By creating these pathways, LEAs ensure that graduation milestones are responsive to the modern workforce and personal to the student's educational journey.

By June 30, all LEAs must develop and post a Pathways Opportunity Directory and two Localized Pathways. While LEAs have the autonomy to determine the specific framework, the goal is to bridge the gap between high school credits and real-world outcomes.
