**Summary:**

To maintain compliance with the total District budget, the District must make amendments to the official budget prior to surpassing any functional expenditure category. The Annual Financial and Compliance Report serves as a record, showing the adjusted budget amounts and providing a comparative analysis of budgeted versus actual amounts.

The official budget encompasses the General Operating Fund, Debt Service Fund, and Child Nutrition Fund. Below are the key highlights of the final budget amendment for each respective fund:

General Fund

- Local tax revenue, state revenues, and recapture expenditures have been revised to align with the final projections for the current year. These adjustments take into account the latest estimates of student attendance and tax collections, ensuring that the figures accurately reflect the expected outcomes.
- The budgets of other local and federal revenue sources have been revised to accurately reflect the projected revenues.

- Transfers and adjustments have been made among various functions to adequately allocate resources and accommodate the projected final expenditures.

Child Nutrition Budget

- The local and federal revenue budgets, as well as the expenditure budgets, have been adjusted to reflect final projections.

Debt Service Budget

- The local and federal revenue budgets, as well as the expenditure budgets, have been adjusted to reflect final projections.
