Re: Lawn Care Recommendation 2026

I would like to recommend Andy's Lawn Care for the 2026 lawn care season for HLWW School District. Andy's is our current vendor and has provided lawn care services for us for several years now. They continue to do a very good job with our facilities. They are a locally based company and support the district with a low-cost alternative to lawn care maintenance and they also employ some of our students for summer work.

I recommend accepting the estimate with Andy's with the increase over last year; which is still a lower cost option overall compared to the other vendor who sent an estimate.

Thank you for your consideration of this request.

Joe McKee
Buildings and Grounds Director
