**ADM**

The current MDE report dated 6-30-2025 has the total AMD for school year 2024-25 at 10 above the revised budget numbers. These number may still change as hours are being finalized for shared time, credit recovery at the high school, and Targeted Services at the elementary school.

**Revenue**

Revenue is currently on track compared to previous years at this time. This year is the first year with our new voter approved operating levy revenue and the first year without any COVID funds.

**Expenditures**

**Superintendent** - We incurred additional expenses related to the superintendent search, as well as the payout of unused leave time.

**Transportation** - Special education and extra routs are currently exceeding the budgeted amounts, primarily due to increased routs and milage for special education transportation. While fuel costs have come in below budget, overall transportation expenses remain over budget.

**Snow Removal** - We ended the season underbudget for snow removal and salting.

**Lawn Care** - Due to ongoing rain and warm weather, lawn care costs have exceeded the budget. However, these overages are offset by savings from lower-than-expected snow removal costs.

**Wall Repair** - The back wall of the middle school has been repaired and the work was fully covered under warranty.

**Fiscal Year 2025 Audit**

We are working on the year end processes to prepare for the audit. We are scheduled to have the auditors here mid September which is a month earlier than in years past.
