

Activities Board Report

July 20, 2026

New Activities Web Platform

The Activities Office has been working diligently to implement our new web-based activities platform, **Bound**. Developed by former Activities Directors, Bound is a comprehensive platform designed specifically to meet the needs of school activities programs.

At Foley, Bound will serve as our central hub for activities scheduling, student registration, and event ticketing. By housing all activities information within one system, coaches and advisors will have immediate access to important student information, allowing them to respond more effectively in the event of scheduling conflicts or emergencies.

Looking ahead, we anticipate expanding our use of Bound to include communication with families, social media management, content creation, fundraising, and concessions management. Bound will also integrate with **ARUX**, our Community Education platform, streamlining facility scheduling by eliminating duplicate data entry and improving coordination between school and community events.

Staffing Update

The Activities Office is currently recruiting qualified candidates for the positions of **Head Girls Swim & Dive Coach** and **Head Girls Track & Field Coach**. In addition, postings for **Middle School Football Coaches** and **High School Girls Basketball Assistant Coaches** will be released in the coming weeks.

I have been working closely with our varsity head coaches to identify staffing needs, evaluate program priorities, and begin recruiting individuals who will positively impact our student-athletes and activities programs.

Activities Registration

Registration for all Foley activities opened on **Tuesday, July 14**. This marked our first opportunity for families to utilize the new Bound registration system.

Prior to the public launch, several families participated in a pilot registration process to help identify any potential issues. We are pleased to report that those families successfully completed registration without experiencing any significant concerns, giving us confidence as we transitioned the entire community to the new platform.

While any new system comes with a learning curve, the initial rollout has been very positive. We will continue to monitor the registration process, provide support to families as needed, and work with Bound to ensure a smooth experience throughout the school year.

Fall Activities Start Dates

Cross Country

7-12 - August 17th

Football

9-12 - August 17th
