Work Requested:

Work Performed:

6-2-26 steve
this is the quote for engine replacement and labor of a reman motor with intake and extended 3year 100,000 mile warranty and my engine quote is only good for 45 days though my supplier from 6-10-26 also I am adding addition 1000 dollar extra expense to the quote due to age of the equipment example if the transmission lines go bad or exhaust manifolds are warped all these parts are 20+ years old and are all discontinued by GM so aftermarket parts would have to be found

Action #	Maintenance Code	Vehicle System	Reason for Failure	Action	Action Status	Book Rate	Labor Hours
