

**April School Board Report: Clay Olstad, Activities Director/Dean of Students/DAC**

- The Three Rivers Conference is transitioning to the Bound platform, aligning with the majority of Minnesota schools moving away from Arbiter. We have begun the setup process and are actively learning the new system, which will manage game contracts, facility scheduling, community education, and payroll.
- We are currently in the midst of MCA testing, which will continue through the first week of May. A special thank you to Corey Mattson for helping ensure the testing process runs smoothly.
- The Small Music Group is scheduled to perform on April 16th.
- Spring activities are now in full swing, with students actively participating across all programs.
