

Henderson ISD Board Background

Subject: Approval of Interlocal Agreement with Region 10 ESC

Presented for: **Action** X

Report Only _____

Background Information

HISD board policy states in CH (Legal) that all Interlocal contracts must be authorized by the Board of Trustees.

The EdTech Exchange Purchasing Cooperative is a cooperative purchasing program administered by Region 10 Education Service Center. Membership allows school districts to purchase goods and services through competitively procured contracts that satisfy the competitive procurement requirements of Texas Education Code §44.031.

Participation in a cooperative does not obligate the district to make purchases. It simply provides access to competitively awarded contracts when deemed in the district's best interest.

There is no cost to join as a contract participant.

Recommendation

Approve the Interlocal Agreement as presented.
