Re: Lawn Care Recommendation 2024

We received three estimates for the 2024 lawn care season. However, one vendor gave an estimate for only one site.

I would like to recommend Andy's Lawn Care for the 2024 lawn care season for the entire HLWW School District. Andy's is our current vendor and has provided lawn care services for the district for a few years. Andy's also provides part of our district with snow removal as well. They know our facilities and they have been doing a wonderful job. They are a local based company and support the district with a low-cost alternative to lawn care maintenance.

Thank you for your consideration of this request.

Joe McKee  
Buildings & Grounds Director
