#### Background Information

BARR (Building Assets, Reducing Risks) is a proven model that improves the education system predicated on two pillars – relationships and data.

The BARR Model allows staff to better understand and build on students' strengths, proactively address the non-academic reasons why a student may be falling behind in school, and identify what resources they need and steps they can take to thrive.

Nicky Larson will provide the board with a BARR update. The presentation will be an overview of BARR and how it is being implemented at Red Wing High School.
