Web: www.aimele.com

*Yearly subscription \$600 current rate.

**Includes removal of existing scoreboard, cutting poles off at grade, installing 3 new I-beams, culverts, bucket brace, stringers, mounting video board, mounting scoreboard, mounting sound system, mounting truss work, sponsor panel, interconnections in video board, set up of press box, 1000' fiber, test out and operator training.

Electrical and fiber optic cable installation is responsibility of customer and must be installed by licenced electrician. Includes running electrical into video boards-sound system-scoreboard, installing conduit for fiber optics wire/signal wire from press box to video board, conduit lines in back of scoreboard to video board-sound system- scoreboard and pulling fiber/signal wire from press box to video board leaving 30' extra at each end. Electrical locations in press box for computer, monitor and video/sound control racks if needed.

AIM Electronics will terminate fiber connections at press box and video board and sound system, set up of computers and monitors in press box, test out of video/sound system and operations training on video, sound and scoreboard system on site. AIM will provide fiber cable for electrician to install.

AIM must have clear access to scoreboards for installation and price does not include ground repair to site. Disposal of packaging materials is responsibility of school; AIM will move materials to disposal area directed by the school.
